Collins' Bill Provides for Two More Judges for Multnomah at \$4000 Year.

(Special Dispatch to The Journal.) Salem, Or., Jan. 23 .- To increase the number of circuit judges in the Fourth judicial district, that is, Multnomah county, from five to seven is the object of a measure introduced in the house this morning by Representative Collins of Multnomah. Two additional judges are to be appointed by the governor within 10 days after the act is approved and they are to draw the same salary as other circuit judgets in Multhomah county, namely \$4000. Owing to the press of the docket in Multhomah an emergency is declared, so that it will go into effect as soon as it is passed and can get the approval of the gov-

ernor. Mr. Collins introduced another meas ure in the house this morning that will attract the attention of those interesed in things judicial. The bill proposes that no circuit judge in the state of Oregon shall draw salary unless every action or sult that flas come before him within the last three months shall have been disposed of. This is the law in some states and Mr. Collins believes it hould be the law in this state. Both these measures were drawn by the same par-

There will be required an additional appropriation for experts and the bill increases the salaries of the three commissioners from \$4 to \$5 per year. This is said to be as little as is paid in any other state where similar duties are imposed upon the railroad commission. The bill now rests in the railroad committee of which Dan Kellaher, is chairman, the other members being Burgess, Patton, Malarkey and Bean.
