Let the City Do Your Washing

3 Years' Guarantee

It is very simple in construction and is made from the very best materials, so there is nothing to get out of order. That is the reason we can give you a guarantee for three years. This washer is gearless, therefore there is no danger of mutilating the hands or tearing the clothes. Only 20 pounds of water pressure is required to operate, this being the only washer that can be successfully run with so little power. The motor has a three quarter movement, which gives more than double the agitation of any other washer. Don't pay \$25 or \$30 for a power washing machine when you can get a far better washer, guaranteed for three years, for about one third less. Cash or easy payments.

Call and see how it works, or have our representative call and see you.
