

COAST COAL GOOD FOR USE OF NAVY

Underwood Says Alleged Graft Must Be Cut Out; Fisheries Bill Reported.

(Washington Bureau of the Journal.)
Washington, Feb. 21.—Representative Underwood, chairman-elect of the ways and means committee, has served notice that hereafter the navy department must buy coal on the Pacific coast. He must buy good coal as that sold by the Pocahontas Coal company of West Virginia, which, he alleges, has maintained too close relations with the navy.
Wilson of Illinois today favorably reported Bourne's \$150,000 Oregon fisheries bill from the house committee on merchant marine and fisheries and will endeavor to push it through. Bourne waited several days after notifying the representatives Ellis and Hawley that the bill had passed the senate and asking them to try to get it reported. Then, receiving no answer, he took up the matter himself with the result stated.

IMPRESSIVE FUNERAL OF LATE W. P. LORD

Salem, Or., Feb. 21.—Impressive were the ceremonies attending the interment of the remains of ex-Governor W. P. Lord, which began at 2 o'clock this afternoon at the First Congregational church in this city. The obsequies of the late jurist and soldier were attended by prominent men from every part of the state and the funeral of the largest held in Salem in recent years.
Rev. P. S. Knight, a retired Congregational minister, conducted the ceremonies. The honorary pallbearers were A. N. Gilbert of Salem, Rufus Mallory of Portland, Mayor Joseph Simon of Portland, John A. Carson of Salem, John Minto of Salem, W. D. Fenton of Portland, Federal Judge Robert S. Bean of Portland, and Circuit Judge Henry McGinn of Multnomah county. The active pallbearers were Attorney George Hingham, L. H. McMahon, E. D. Crockett, John H. McNary of Salem and R. W. Montague of Portland. The remains of ex-Governor Lord arrived from the south Sunday, accompanied by his son, William P. Lord Jr. Interment was in Lee Mission cemetery.

FLAT STUFF FAVORED FOR MY LADY'S LID; BUCKET THINGS BANNED

New York, Feb. 21.—Into the discard with the washbasin, wash-tub and bucket millinery effects. The flatiron poke, the fluffy oyster shell and the mushroom are it now.
Models of the new spring styles have just arrived from Paris. The tipped hat, the herringbone, the flatiron poke bids fair to be popular. The bow rests on a point on the forehead just north of the nose. From there the hat slopes upward and outward, exposing midday's coiffure, a boon to the hairdresser.

CHAMBERLAIN ENJOYS HIGH MASONIC HONOR

Washington, Feb. 21.—Senator Chamberlain has been named to represent Grand Master Wolverton at the Masonic celebration at Alexandria, Va., next Monday and attend the ceremonies.
Alexandria, Va., Feb. 21.—High degree Masons from many sections of the country have journeyed to Alexandria to take part in the meeting called to form a permanent Masonic Memorial association which shall commemorate George Washington's connection with the order. The meeting began yesterday and will continue until tomorrow, when the Masons will make a pilgrimage to Mount Vernon to pay their respects to Washington on the anniversary of his birth. Returning to Alexandria late on Wednesday afternoon the delegates will hold a reception in honor of President Taft, who will deliver an address.

FAMINE DISTRICTS IN CHINA

(Continued from Page One.)
London Morning Standard, "It may be doubted if, unless means can be devised to stamp out the infection, an epidemic of the most virulent type can be expected."
"That pneumonic plague has obtained a foothold in East Anglia is unquestionable. So far there is no evidence of its spread to other parts of England, but the past history of the plague contains many instances where the full force of the virus has been developed very slowly."
London, Feb. 21.—There have been 61 deaths from plague at Peking, China, according to a report of the British consular general there, which was received by the foreign office here today.

CARTER DECLARES SENATE

(Continued from Page One.)
used protection to manufacturers, but they will not stand for the reciprocity treaty. The mere introduction of the measure has already caused a big decline in wheat and its passage would work a great harm to the average farmer."
C. M. Gardner, master of the Massachusetts grange, also denounced the measure. He predicted that its passage would be a severe blow to New England farmers.

MAMMOTH POSTAL SAVINGS

(Continued from Page One.)
depositors, are not making money which they can save. Another reason is that the banks of Klamath Falls are all old and well established ones and the people in a place of that size are well enough acquainted with the men connected with the banks to place confidence in them.
"The Klamath County bank has been made a depository for funds taken in by the postal savings bank, and pays the government 3 per cent interest for the use of the money."
According to Mr. Moore the completion of the Natron cut-off in about a year will give Portland the best chance she has ever had to secure her share

of southern Oregon business. For years freight rates favored San Francisco so largely as to cut off any chance of Portland gaining a foothold there. Lately rates have been made more even but the length of time it takes to get the Klamath to Wood and back to Portland precludes much competition by Portland wholesalers with those of San Francisco. In addition the close relations that have long existed between southern Oregon and San Francisco, because of the comparatively short distance, have helped the California. Mr. Moore believes with direct route and short time between Portland and Klamath that Portland will more than break even with San Francisco.
"The government will spend \$200,000 in reclamation work around Klamath Falls this summer," said Mr. Moore. "Both the Harriman and the Hill lines are building in our neighborhood and will have their through San Francisco trains running through Klamath. A new sawmill with a capacity of 30,000,000 feet will be built near the mouth of the lake just above and more mills are soon to be erected, and all in the outlook for development of our part of the country is most promising. Our greatest need is for farmers to take advantage of the work the government is doing and to settle on the land, so that we may have crops to feed the growing population."

MEXICAN REBEL FORCES

(Continued from Page One.)
Ferdinand Palomares, an insurgent officer, today bombarded Senator La Follette, Champ Clark and Victor M. Foltz with telegrams urging them to exert their influence to obtain the release of the three men from the United States army prison at Calexico. The matter will probably be settled by the state department, as it is understood that the Mexican government has expressly requested that the prisoners be held. Palomares and Holmes crossed the border from Mexicali for medical treatment. McDonald, wounded, was brought over by United States soldiers.

INSURRECTO LEADER CHARGES TAFT WITH VIOLATING NEUTRALITY

(United Press Special Wire.)
Calexico, Calif., Feb. 21.—Voicing a protest for himself and his associates with the Mexican revolutionists in southern California, along the Lower California border, General Leyva, in command of the rebel forces in Lower California, today telegraphed President Taft to rescind permission given the Mexican government to take troops across Arizona and California into Mexico.
In his telegram, which he signed "Provisional governor of the northern part of Lower California," General Leyva assured President Taft that the Colorado Jam was in no greater danger from harm at the hands of the revolutionists than from the federalists. He stated that General Leyva repeated the threat of General Simon Berthold, his subordinate, to fire on the federal soldiers while they were still on American territory should they attempt to enter Mexicali by way of Calexico, which adjoins Mexicali on the opposite side of the border.

PREMIER ASQUITH HANDS

(Continued from Page One.)
end of the session, and that if it is not passed or amended within a month after being submitted it shall become a law on royal consent. If any bill other than a money measure passes the commons at three successive sessions, the lords rejecting it at each session, it shall have the third rejection become a law, the king assenting. Failure to pass a bill shall be deemed a rejection.
If the lords defeat the veto bill Premier Asquith will demand the creation of enough Liberal peers to change the political complexion of the upper house.

CRIMES OF EVERY SORT

(Continued from Page One.)
"About the same time Mose Lana, Chauncey Adams, Oscar Woods and one or two others, indulged their appetites rather freely and as a result thereof, Mose was beaten over the head with a piece of lumber filled with rusty nails, and Chauncey had his nose almost bitten off his face. For this offense they all escaped punishment but Oscar, who was given 30 days by Judge Wolverton.
"At about this time, one Joe Gay, assaulted a little Indian girl, for which he was arrested and after a short time spent in jail in Portland, was set at liberty, the grand jury refusing to indict. Encouraged by this act, he came proudly back amongst us and in a few months repeated the offense on the person of a little white girl, for which he was arrested once more, by the state authorities this time, but when our

court sat, our district attorney, Mr. Bryson, made haste to dismiss him, claiming lack of jurisdiction.
"Shortly after these events had transpired the body of one Grover White was found in the road, shot through the heart. Considerable of a noise was made over this and one Carl Logsdon was indicted by the federal grand jury and after being confined for nearly a year in the jail, was at length brought to trial and declared not guilty.
"Woman Murdered.
"Some time during the month of January, 1908, Polly Dieck, an Indian woman, was found near her home, from which she had been taken and foully murdered, both of her arms were broken and various bruises on different parts of her body bore silent witness to the fact that she had been cruelly put to death. This case was investigated by the coroner's jury under the direction of the local justice of the peace and the officials paid no little attention to it that it was over a year before the costs of the inquest were allowed by the court.
"It was about this time that John Woodman, a man about 30 years old and very feeble, was assaulted by his son-in-law, Abe Logan, and almost killed. His arm was broken and he was bruised and beaten over his head and body in a manner most shocking to contemplate. For this Logan was arrested, but again the wisdom of the district attorney was only manifested by the haste he displayed in dismissing the case.
"Other Cases Cited.
"It was during the same year that Ira Strong became involved in trouble and received a knife wound in his face, the knife barely missing one eye. For this no one was ever arrested, and so far as we know no investigation of any kind was made. Then Tom Jackson was assaulted on the public highway by George Wilbut, Billy Klamath and Ike Washington, and during the melee Jackson was injured and various bruises on different parts of his anatomy. This, like the preceding case, was never investigated by the authorities, although the general facts were well known all over the country.
"Slight Unpleasantness.
"It was not far from this time that Andrew Smith and others had a 'slight unpleasantness' at Andrew's home, during which Abe Logan (so it was said) seriously impaired the good looks of the said Andrew and also of Ed Benell. Again no arrests and no investigation.
"Aver Brainerd comes next to the front, he having taken his wife and tried to dismember Oscar Woods. For this he was arrested, but in a short time discharged, and no further notice has been taken of the matter.
"Last Easter time, Paul Washington and 'Dad' Watts, two boys, aged about 14 years, got drunk and indulged in a fight on the streets of Siletz during the course of which young Watts drew a pistol and attempted to shoot his adversary and but for the interference of by-standers would no doubt have done so. For this both boys were arrested by the Indian agent and various police and the agent at once notified the federal authorities of Portland of the affair and it was only after three or four months had elapsed that they took the matter up and sentenced the boy to school at Chemawa.
"Three Are Accused.
"In the latter days of July last, one Robert Felix shot and killed John Spencer and Martha Metcalf and killed himself, thus saving the duly constituted authorities the (to them) very disagreeable duty of dismissing the case according to the law in such cases made and provided for. A few weeks thereafter, after Noble Felix, son of Robert, shot into a tent by the roadside and so severely injured Odell Lane that for several weeks his life was despaired of. For this he is at present under bond for trial.
"Our old friend Ira Strong comes to the front again in a vicious attack on his old grandfather, William Strong, for which he was never molested and again he figures as one of the principals in a cutting affair, he having a few days ago mixed up with Newton Sutton and got decidedly the worst of it. As usually happens, the district attorney has hastened to dismiss the case and the defendant is again at liberty.
"This is a brief statement as to the condition of affairs which confronts us with crime running rampant as it does and with the lawful authorities falling and refusing to afford us relief, we are to all intents and purposes as far beyond the reach of or the protection of both state and federal laws as the railroad once mentioned by the late Senator Mitchell and emigrated to the planet Mars.
"And now, as a last resort, we lay these matters before you. What shall we do? What more can we do in the matter? These folks are citizens and we would be if the privileges of citizens, but it seems they are not subject to the responsibilities that citizenship should confer upon everyone.
"We have long since appealed to the

attorney general, and he has given us a written opinion to the effect that these people, being citizens, are subject to the laws of the state, the same as any other citizens are, and that jurisdiction of the state courts over them is amply sufficient. In other cases, but notwithstanding all this, when these things occur and we ask for relief we are mocked and made fun of, and if we appeal to the federal authorities our complaints are ignored or, if noticed at all, their action is long delayed and the expense is heavy. Hence we are to afford no relief. Hence we are, to use the common expression, up against it.
"Can you, by virtue of any authority which you possess, afford us any relief from these conditions? Or shall we, as a last resort, fall back upon that old custom which has often prevailed in the past, and take the law into our own hands and administer that form of justice which, although rude in its methods, seldom fails to achieve the purpose for which it is intended?"
"Kold No Jurisdiction.
Governor West has taken up the matters complained of by the Siletz citizens further, and finds that the state's prosecuting officers in that district hold no jurisdiction over criminal matters. They take the position that in a case known as the Columbia George case the supreme court of the United States has held that the federal authorities alone have jurisdiction over criminal matters on Indian reservations. Attorney General Crawford has held differently, though this seems to have had no influence on the state's prosecuting attorney in Lincoln county and in that judicial district, who have even refused to bring a test case, according to Knott Egbert, superintendent of the Indian Training school at Siletz.
The district attorney in that district is E. R. Bryson of Corvallis, and the deputy district attorney for Lincoln county is C. E. Hawkins of Toledo. These officials, as well as the federal authorities, are blamed by Superintendent Egbert of Siletz for the state of lawlessness that exists there. In a letter to the governor, Mr. Egbert says:
"Justice Court Valueless.
"For a year or more the state prosecutors in this district have held that they have no jurisdiction over criminal matters within the Siletz reservation. I will not undertake to outline the position of E. R. Bryson of Corvallis sufficiently, because I have no desire to do so, but I am confident that it is sufficient, however, to say that they have held that the United States has jurisdiction over all crimes committed by Indians on what they please to consider the reservation, with the result that the plan of using local justice courts, as has been proposed here for many years, had been rendered entirely inoperative, resulting in all kinds of lawlessness, and there seems to be a gap between the jurisdiction claimed by the United States and that claimed by the state of Oregon.
"We have practically just 200 acres of government reserve outside of about 200 or 225 allotments held in trust. The balance of the reservation, except five forest sections, which are never

visited by any one, has been opened to homestead and nearly every acre of it homesteaded. Over one-half of the original allotments have been patented to Indians or sold to purchasers. There are about 400 Indians living here, and I am quite certain that within the original reservation there are more than that number. The Indians have been voting for 10 to 15 years. They are still held subject to the jurisdiction of the state courts in civil matters, as I understand it, and they are consistently taxed on both their personal property and such real estate as has been patented to them by the government.
"Refuses Test Case.
"If there are no recent developments that would cause the attorney general to change his opinion, I earnestly request that you take steps to find out what ought to be done by the state and do it, even though it involves appointing a new prosecutor. E. R. Bryson living at Corvallis, I understand, is the prosecutor, and C. E. Hawkins of Toledo, Or., is his deputy for this county. Mr. Bryson refused our justice of the peace to bring our test case in the circuit court unless the county authorities authorized him to do so. This stand presumably was taken on account of the expense. I feel that whatever shortcomings may be charged to any federal officials for the present deplorable state of affairs, the position taken by the prosecutor is an outrage, not only to the Indian citizens, but to the white citizen resident here.
"Want Division Abrogated.
"One objection of the prosecutor was the fact that the United States had been in the habit of taking important criminal cases to federal officials for trial, committed on a trust allotment. If there is any justice in this, we want the present division of jurisdiction between criminal and civil cases also abrogated.
"These Indians have given to Lincoln county within the last 10 years, I think it is entirely within bounds to say, over half the taxable property in the county, at a nominal price, perhaps one twentieth of the actual value of the property at the present time.
"The authorities in liquor prosecu-

tion under the state law recently have taken the stand that they will not convict a white bootlegger or liquor seller on Indian testimony unsupported by white testimony of the crime of selling to an Indian. This may be not without justification, for if the Indians do not always lie, and I know they do not, they have a habit of suppressing the truth until it becomes so warm for them they could stand it no longer. Very respectfully,
"KNOTT EGBERT,
"Superintendent Indian School."

torious against your most vital organ—the heart—and affecting every organ in your body, making you dizzy, irritable and generally miserable.
"BAALMAN'S HOME GAS-TABLETS Not Only Believe This, But Cure For All Time.
"If you wish to be permanently relieved of gas in the stomach and bowels, take two Baalman's Home Gas-Tablets for a few days.
"Baalman's Home Gas-Tablets are prepared distinctly and especially for Stomach Gas, and particularly for all the bad effects coming from Gas Pressure.
"That empty, gone and gnawing feeling at the pit of the stomach will forever disappear in a few days; that anxious and nervous feeling, with heart palpitation, will vanish and you will once more be able to take a deep breath, so often prevented by gas pressing against your heart and lungs.
"Your limbs, arms and fingers won't feel numb and so to sleep, because Baalman's Home Gas-Tablets prevent gas interfering with your circulation. That intense drowsiness and sleepy feeling after dinner will soon be replaced

by a desire for some form of entertainment.
"Your distended stomach will reduce by inches, because gas simply cannot form after a few days' use of Baalman's Home Gas-Tablets.
"Cal. State's Prison Director Col. Chas. Sontag says: "Baalman's Home Gas-Tablets is the most marvelous thing I have ever used."
"Geo. H. Kahn, optician, 34 Kearny st., San Francisco: "Baalman's Home Gas-Tablets cured me completely of gas in about five days. This was three years ago."
"Belgian Consul of San Francisco, Hon. Ferd. Wodon, says: "Baalman's Home Gas-Tablets have certainly done wonders for me. I leave in a few days for my new post in Brazil, and shall take at least a dozen bottles with me for my friends who may suffer like I have done."
"These peculiar tablets are sold for \$10 a bottle by nearly every druggist. If not in stock tell him to get them for you from his wholesaler, or send 50c in silver, stamps or money order to Hahnemann Pharmacy, 340 Sutter St., San Francisco, Cal.

Save this prescription
The following prescription may prove more valuable than gold in time of need. For weak, deranged kidneys, bladder or other urinary organs, mix one half ounce fluid extract buchu, one half ounce murex compound, six ounces good pure gin. Take one to two teaspoonfuls after each meal and at bed time. Any well stocked drug store has the ingredients. It is easily mixed. This quickly restores these organs to their natural power of carrying off impurities. Backache, rheumatic pains and other well known symptoms must be treated promptly to be safe from more serious kidney trouble.

Alveolar Dentistry
In a majority of our advertisements we lay great stress on our specialty, Alveolar dentistry, replacing missing teeth without a plate or bridge work, and the curing Pyorrhea (loose teeth). The work is so remarkable in its character that it is apt to overshadow those other cases which come to us—the simple cases. We don't want the idea to obtain that we are Alveolar specialists alone. We are that, but something more—general practitioners of the first class. We do dentistry in all its branches, from the simple piece of filling up. It's a boastful statement to make, but we can do anything that is possible in dentistry, and what we do is always of the very highest class. Our booklets, Alveolar Dentistry and examinations are free. There are 12 Alveolar Dental Co. offices in the west. About 50,000 people are wearing our Alveolar teeth. About 2000 people in this city and state have teeth supplied by this office. Many of these people are every single one—will tell you if asked that it's the best investment they ever made in dentistry. In many cases where bridgework is impossible and all cases where it is possible, we can replace your teeth with beautiful, artistic, comfortable, clean and everlasting teeth that we will defy anyone, dentist or layman, to pull from natural teeth. For full information see our Sunday ads.
ALVEOLAR DENTAL CO., DENTISTS, 311 to 314 Abington Bldg., 106 1/2 3d st. Terms to reliable people.

THE ADDITION WITH CHARACTER
"You Should Feel Proud"
Stated a prominent business man of Portland after viewing this property last Sunday afternoon:
"I have not visited this property since a year ago this month. I am amazed. Of course, I have read your statements in the papers of the great building movement going on here, and the great work you were doing in the way of improving the streets, but I had no conception of the magnitude of the work already accomplished, the great number of new homes already completed and under way. I am, indeed, fortunate to be able to select a choice site at this time, etc., etc."
WE DO FEEL PROUD
of the great work accomplished and now under way. YOU WILL FEEL PROUD to live in LAUREL HURST. Take advantage of our
Special 15% Discount Plan
