Pure Milk Advocates and Oregon Health Board Will Not Await Invitations.

Rather amusing situations have resulfed from preparations for the "dairynen's-doctor's dinner to be given in the commercial club Thursday evening Some of the most insistent advocates of pure milk received the impression

due to tardiness in the arrival of in vitations, that it was to be principally a gathering of those who would condemn the two-years' effort in Portland to clean up the milk supply, and who would say the falling off of the injustry is due to agitators for cleanliness. There has been, consequently, quite a rush for seats at the dinner. The au-thorities who have stood for modern methods in milk production say they will be present, ready to defend their positions. The state board of health proposes to attend in a body. Its quar-terly meeting was called for Thursday the meeting was called for Thursday

ARTSIAN WELLS TO ATTRACT HOMESTEADERS

Lakeview, Or., March 6 .- The discov ery of three flowing wells in one of the valleys of Lake county at depth of 90, 122 and 165 feet, has caused a rush of settlers from the nearby Klamath Modoc countles to the new lands and there will be many thousands of acres of these taken in the next week or two. One day there were over 1700 acres filed upon by the men that drilled the wells and their friends. The discovery means much to many of the settlers ery means much to many or the settlers, as it eliminates much fear on their part regarding the rainfull being suf-fletent to produce crops without irriga-tion. Thousands of acres are being taken in other valleys where there is the same evidence of an underground body of water under pressure.
