Before I finished my first bottle of Vinol I commenced to notice an improvement in my general condition. After taking the second bottle, my cough left me and I must say I never felt better in my life—all due to the use of Vinol. I can also recommend Vinol to anyone in a run down condition as the best possible remedy." (Name furnished on request.)

DO SOAP SHAMPOOS MAKE WOMEN BALD?

"The increasing baldness of women is coming to be a matter of extreme interest everywhere," writes Mae Martyn, famed beauty specialist, in the Boston Telegraph. "Dermatologists recognize the fact that most women are troubled with short, scanty, dull, brittle, splitting hair and dandruff—sure signs of neglect in caring for the hair. These conditions are often the result of washing the hair with soap. The alkali in most soaps is too strong for the hair and causes it to become brittle, coarse, streaky, faded and scant."
