Weather Conditions

The northeastern storm is decreasing in intensity, and is being followed in its eastward movement by a large high pressure field which now overlies the Mississippi and Ohio valleys. High winds and light to moderately heavy precipitation have occurred over the lake region and eastward to the Atlantic coast. The pressure has decreased considerably over the western half of the country, and relatively low pressure obtains over the Rocky mountains; fair weather prevails in the west and south, and cloudness is increasing on the Pacific slope.

Conditions are favorable for generally fair weather in this district tonight and Friday except that occasional light rain is indicated for northwestern Washington.

Motel Men Do Portland Good—Portland is given a great deal of prominence in the book describing the annual meeting of the Hotel Men's Mutual Benefit association held in April last year in Los Angeles, a copy of which has just been received by William McMurrey, general passenger agent of the Harriman lines in Oregon. The book is written by George Wharton James, historian for the association, contains several hundred pages of vividiy descriptive matter and is profusely illustrated. The hotel men came through Portland on their way home from the convention on their way home from the convention and were royally treated by the local hotel men, the feature of the entertainment being a banquet that surpassed all former efforts in that line. Illustra-tions with the Portland chapter are large pictures of the city as seen from the heights with the snow peaks in the distance, busy down town street scenes and some of the beautiful residences.

This plan of making cough syrup with Pinex and Sugar Syrup (or strained honey) has proven so popular throughout the United States and Canada that it is often imitated.
