While the receipts of chickens along the street have been quite fair, the inreasing demand has not been fully suplled and therefore receivers have been ble in most instances to squeeze a

### OLD HOPS IN DEMAND

1909s Selling Fast and Orders Are Very Heavy.

Demand for old hops is increasing, and for 1969s dealers are now freely offering 13c a pound. There are suffi-cient orders in the market just now at

Scarcity Is Likely to Send Price Up

A carload of Florida tomatoes, the first of the season, is due to arrive here either today or tomorrow. The car passed Denver March 21. While the north has already secured Florida tomatoes this season, the local market has been depending upon Mexico for supplies. At present the market is well-filled with offerings.

## FRESH CHEESE FIRMER

Increasing General Demand Stiffens Quotations Here.

Offerings of fresh cheese are very limited and with the increasing demand, the market is beginning to show considerable strength. New cheese is quoted at 11@14½c. Storage cheese remains weak.

### EGGS ARE WEAKER TOTAY Retailers Get Too many From the

Country; Prices Are the Same.

With increasing offerings, eggs are weaker along Front street. Some of the larger retailers who solicit business in the country and receive shipments, are unable to take care of them and therefore some of them have been sent to the street to dispose of. Prices remain from 20c to 21c.

Weather bureau sends out the follow-ing forecast to shippers: Protect shipments as far north as

Seattle, against temperatures of about 40 degrees; northeast to Spokane 36 degrees; southeast to Boise, 30 degrees; south to Siskiyou, 38 degrees. Lowest temperature at Portland tonight, about 40 degrees.

therefore the time of shipment is not always prompt. Samples of the Chinese wainuts have already reached this city and show excellent condition. The supplies are much larger than the average run of California nuts and resemble the Oregon stock, both in outside appearance and the inside. The weights are heavier than the California article, in this respect further resembling the Oregon growth.

While the price of the Chinese nuts is low at primary points, the duty and carrying charges are very heavy and therefore the supplies will cost jobbers about lic a pound to land here. This is somewhat lower than the domestic

There is no speculation in the hay trade at this time because most of the dealers were bumped rather hard at the start of the year. Report Peach Damage. Walla Walla, Wash, March 28.—
Peaches in the Freewater-Milton district have been badly damaged by the frost of Saturday night according to reports from that district, and the crop is so hard hit that it will be an almost total, if not quite, a failure. Apricots are also badly damaged, and the first visit of the frost since trees were liable to harm has hit them harder than for years.

## TODAY'S REPORT ON

St. Louis, March 28.—General

condition of wheat through central Missouri very promising. Good stand, color and growth, only a few exceptions, notably around Centralia and Mexico. Mo., but even through that section doubt if there will be any loss & in acreage. Farmers are so busy in the fields that they see nothing moving. Ground is in excellent shape for plowing, and corn land is being prepared. Millers are displeased, inasmuch as they see no encouragement for any strong demand for flour the balance of the season. As a rule mills are neither running full time or full capacity. Grass is now showing up, and cattle are on the fields. While I have repeatedly referred to moisture enough for the present outside arid belt there is no surplus, as atreams and ditches are very low. Good rains will be needed soon to maintain prospects and give good results.
