

CARTER HARRISON'S MARGIN IS 17,132; SOCIALISTS GAIN

Third Party Polls Double the Vote It Gave in 1907 Election; Democrats Get Control of Council.

(United Press Leased Wire.) Chicago, April 5.—Corrected returns today from the Chicago city election show that Carter H. Harrison, Democrat, was elected mayor over Charles E. Merriam, Republican, by 17,132. Rodinow, the Socialist candidate, who expected to poll 75,000 votes, got only 21,623. The "wide open" element supported Harrison.

The Democrats elected the city clerk, city treasurer and 12 members of the council—a majority. Harrison will take office Monday. He has declared for an honest administration with a reasonable degree of personal liberty.

CONVICTS' CREDITS NOT APPLIED ON PAROLES

(Special Dispatch to The Journal.) Salem, Or., April 5.—Attorney General A. M. Crawford holds in an opinion rendered yesterday at the request of Governor West that a prisoner who is paroled by a circuit judge during a definite term cannot shorten that term by good behavior. Credit marks, such as are granted convicts while serving a term in the state's prison, cannot be applied to shorten a term while on parole. While the governor did not ask regarding the law in reference to convicts who have been paroled from the penitentiary by the parole board or by the governor, it is understood that the attorney general would hold the law to be the same as where the prisoner had been paroled by the judge.

The Test of a Good Piano

You can buy a watch any time from an irresponsible dealer for \$1.35, which he will tell you is "just as good" as a real gold one.

And to be sure it does look much like the watch your old reliable jeweler prices at \$100. But you don't buy the cheap watch because you know the case is only the near-gold kind and that the works are worse than worthless.

In the piano business it is easier to deceive than in the watch business, because piano values are not as well known as watch values. A well varnished case, masquerading as a good piano, often looks pretty good. But, oh, what disillusionment when the test of time begins its work.

If you are not an expert judge of pianos, your only safeguard lies in buying from a store whose prices NEVER fluctuate—a firm that does not handle a piano at any price until it has been proven worthy and until it has won on its merits a reputation second to none—a reputation that is not only known to us, but of which you and your ancestors have heard for half a century. Such a piano is
