POTATO MARKET \$2 OUTSIDE ONION IN PER CENTAL TODAY ON FRONT STREET

Highest Price of Season Asked by Jobbers - Country Values Likewise Advanced -Paying \$1.70.

Eggs weaker

Chickens firm. Potatoes at \$2. Local onions best, Asparagus steady. More lambs coming. Hops much firmer. Wool quiet. Mohair strong.

Potatees are being sold in the Front street market at \$2 per cental, the highest price of the season. Not only are jebbers asking more money for supplies but they are paying producers quite an advance over previous quotations.

quite an advance over previous quotations.

At country shipping points, they are offering as high as \$1.56 \(\text{0.1.70} \) for supplies and are able to secure only a small run of stock at this figure.

Eastern Oregon and Idaho are being drawn upon again for supplies and prices there are advancing owing to the better demand from the outsida.

California market is showing no change for Oregon potatoes and at San Francisco the range is from \$2.00\text{0.15}. There is a freight rate of from \$2\text{0.30}\text{0.20}\text{0.15}. There is a freight rate of from \$2\text{0.30}\text{0.20}\text{0.15}. There is a freight rate of from \$2\text{0.30}\text{0.20}\text{0.15}.

There is a freight rate of from \$2\text{0.30}\text{0.20}\text{0.20}\text{0.15}.

While one supplies coming from this direction, therefore the home market is the best for producers as they secure more favorable returns.

While one party denied the report that he has purchased eastern potatoes for this market, the reports still insist that several cars are coming forward. Just who has them, therefore, remains a mystery.

HOP MARKET FIRM

Demand Now On for Olds, News and Contracts for 1911c.

Hop market is firm both for contracts and spot goods. There are a number of inquiries from the east for 1910s but growers are firmer in their views and are asking 19e or better.

It is reported that Sout of McMinnville sold 100 bales of 1909s to Bishop & Daniels at better than 13c a pound. Contracts on 1911s are firm at 17c a pound. Dealers reported recently have been only for small lots, large growers not being willing to tie up just now.

FORECAST FOR SHIPPERS

United States Weather Bureau Sends Out Notice to Produce Men.

United States weather bureau sends at the following forecast for ship-Protect shipments as far north as Seattle against temperatures of about 36 degrees; northeast to Spokane, 80 degrees; southeast to Boise, 30 degrees; south to Siskivou, 34 degrees. Lowest temperature at Portland tonight, about 38 degrees.

EGGS ARE LOWER Market Weaker All Around and Buyers Are Offering 18c. Eggs are lower locally and sales are

ng made in large lots as low as 18% of large interests are holding out for stock. Offerings by the country are heavier. CHICKENS HOLD HIGH

Receipts Continue Under Demand at High Prices.

Chicken market continues to show strength and arrivals are quickly picked up at last week's high record. Demand continues greater than supplies.

SPRING LAMBS COMING

Front Street Supplies More Inberal at 13c and 15c. Front street dealers report greater arrivals of dressed spring lambs. A-rivals are with pelts and these are sell-ing from 13 to 15c a pound. Dressed ment market generally steady

except for heavy hogs.

CAULIFLOWER IS EASIER

More Offerings Brings Top Price Down to \$1.25. Easier tone is showing in the cauli-lower market owing to the greater of-

ferings by local growers. Best is now quoted at \$1.25 a dozen. Best Callfornia at \$1.00.

So-Called Bermudas Not as Good as No. 3 Oregons-Quoted at 8c Pound.

A small shipment of so-called Bermuda onions which recently reached this market is not as good looking stock as the trade here might have expected. The stock is packed in crates of 50 pounds each and considerable has been so badly joited in shipment that it is not nearly as good as No. 3 Oregon now offering

offering.

The Oregon onions now in market are generally of fine quality. The taste is much sweeter than the so-called foreign much sweeter than the so-called foreign much sweeter than the so-called foreign stock and it costs much less money. While the "Bermudas", are being quoted here at 8c a pound, fancy Oregons can be secured at \$2.50 or even less.

Several attempts have been made by local parties to bring in foreign onions this season, but all have proved a failure because of the better quality of the home product than the outside goods.

Local enion market is firm with values practically the same as have been in effect during recent weeks.

Monday

Sheep and lambs formed the total Sheep and lambs formed the total arrivals today in the North Portland yards and Rugg Brothers of Pendleton had the honor of being the only shippers during the past 24 hours.

Not only were the Pendleton men the only shippers but they likewise received an advance of about 10c over recent quotations. The stuff was worth the money according to the trade because the lambs were of unusually fine quality. They were sheared and averaged ty. They were sheared and averaged pounds. The sale was made at \$5.40. Sheep market in general is quoted juite firm by the local trade while resent arrivals have been somewhat more ilberal, the wants of the trade have increased. Demand for mutton is increasing on account of its low price and therefore this has stimulated the buying. Conditions similar to this have ruled recently in the great markets of the central west.

182

Cattle Shipments Expected.

Quite liberal shipments of cattle are expected in the yards during the night or in time for early selling tomorrow morning. Condition of the cattle trade is excellent and recent sales have tested the full range of prices. No weakness is snowing in any portion of the cattle trade at present.

No swine have arrived in the local

trade at present.
No swine have arrived in the local yards since Monday and therefore the market is nominally showing no price changes. There was a change in the situation at Chicago and South Omana today and hogs advanced over yesterday's price. While this may be but a temporary affair the trade in general seems inclined to the opinion that high prices have been forced to a lower basis than justified by the increase in arthan justified by the increase in ar-

CALIFORNIA BERRY WHEAT BUYING ON ACREAGE SMALLER SMALL SCALE AT

Output Expected to Show Decrease-General Fruit Situation Is Good.

California's acreage in strawberries this year is much decreased, according to Richard F. Hosking, a local broker,

to Richard F. Hosking, a local broker, who has just returned from an extensive trip through the south.

"While the production per acre will be very good this season," says Mr. Hosking, "there is a greatly decreased planting. Out of Florin the decrease will rum from 25 to 30 per cent from a year ago and somewhat similar conditions exist in the Newcastle section.

"Around Los Angeles the acreage has been decreased by the heavy rains washing out many of the plants.

"Some berries are already being shipped from the Los Angeles fields, but they are very limited and only for local consumption. Berries will be shipped out of Florin between April 20 and April 25."

According to Mr. Hosking the general fruit cutlook in California is excellent. A big crop seems assured for everything except apricots. The crop of cherries promises to be the heaviest for many years.

prices were not realized for certain districts this winter is that huge quantities were dumped into Chicago and New York at the same time, and the weather was unusually warm, many going to soft fruits as a consequence. It was one of the warmest winters we ever l.ad. There is absolutely no danger of overproduction of such quality apples as you grow in the Hood River, White Salmen, Underwood and Mosier sections, apples that are known to be the very best. The central selling agency, such as you contemplate, will prove a good thing.

"As to pears, there is a very promising future, the market is broadening for them, and the grower of Bartletts, Anjou and Comice have nothing to lose."

BROTHERHOOD HEARS DR. JAMES WITHYCOMBE

(Special Dispatch to The Journal. Oregon City, Or., April 5 .- The Brotherhood monthly meeting of the Congregational church, which was held last evening in the church parlors, was at-tended by about 70 men. The decorations were of Oregon grape and daffodils which made a pretty combination. At the table the favors were in the shape of Easter novelties, such as little

chickens. The president of the Brotherhood, E. T. Avison, acted as toastmaster. Rev. William Proctor made the usual announcements. An important one was the meeting for next Sunday evening, which will be Brotherhood night at the

Congregational church. The Brotherhood was fortunate in having with it Dr. James Withycombe, of the O. A. C. of Corvallis, who gave an inspiring talk, telling of the future prospects of Oregon, the great roads. the building of highways, the agricul-

tural lands. Closing the postoffice in Oregon City on Sundays, was unanimously favored!

FISHWAY; IS FINED \$25

(Special Dispatch to The Journal 1 Vancouver, Wash., April 5.... A fine of 100; and costs was imposed by Justice Davis yesterday on Herman Grands when he was brought into court by Game Warden Elmer Barbeau and Police Officer Gilmore and pleaded guilty to damming up Lackamas creek in the vicinity of Proebstel without providing a fishway. The facts in the case prompted Justice Davis to remit \$75 of the fine and Grannis paid \$25 and costs, amounting in all to about \$31.

That the game and fish laws shall be respected in Clarke county is the letermination of Mr. Barbeau. He has worked hard in his official capacity and in future says he will show no lestlency when he finds the laws in any way being violated. He recently re-turned from a trip of inspection of the dams in various streams of the county and at least in two instances directed that fishways be put in.

NOT YET CLEARED UP

(Special Dispatch to The Journal.)
Oregon City, Or., April 5.—At a meeting of the Live Wires yesterday, City Recorder Stipp made a report of his in-vestigations regarding the rights of the city in the water power of the Wil-lamette falls. The recorder stated that he would probably be compelled to go to Salem and examine the records there before he would be able to make any recommendation. The city is in possesssion of a street running past the basin, from which a large volume of water flows, and the recorder contends that the city can run an intake pipe into the basin unless it can be shown that the entire waterfall has been legally appropriated. A large number of main fix-tures would locate at Oregon City if they could be assured of cheap power.
