

WORKING MASSES MOURN FOR DEAD

New York Unions Parade in Protest Against Conditions.

(United Press Leased Wire.) New York, April 5.—Displaying hundreds of banners with the legend "We Mourn Our Dead," the labor unions of New York city today made a great demonstration against working conditions in the city's factories as a result of the recent Triangle Shirtwaist company fire, which cost the lives of 143 toilers.

Throughout the whole factory district of the city, activity was suspended, and the workers, clad in somber garments, passed by thousands through the streets in silent protest against the fire traps and building where the fatal fire occurred. Thousands on thousands were in the parade, and despite a steady downpour, women and children marched in almost equal numbers with the men.

Two columns of the toilers, one from uptown and one from the lower east and west sides, met in Washington square, almost under the ruins of the Asch building where the fatal fire occurred. Prominent in the procession were survivors of that holocaust, and crowds who lined the streets by hundreds of thousands uncovered as those who escaped the worst fire Manhattan has seen in many years passed by.

While the parade was on the city buried seven unidentified victims of the Triangle fire. Their funeral corteges, however, did not make a part of the parade.

HAVE YOU READ THIS INTERESTING BOOKLET?

It was recently written. It is entitled "Medical Advice on Rheumatism." It explains in simple language the various forms of rheumatism and shows what to eat and what to avoid, when to take exercise and when to rest. Formulas are given for suitable external remedies. It points out that the most important part of the treatment of rheumatism is the use of an effective internal remedy. For this purpose Prescription No. 6088 is strongly recommended. A copy of this booklet can be had free by writing to the Matt J. Johnson Co., St. Paul, Minn. Send for it now.

POWER PLANT TO BEGIN NEAR CULVER JUNCTION

Culver, Or., April 5.—Prineville men composing the Cove Power company have begun construction of a power plant on Crooked river, about two and one half miles west of Culver. The firm of Brown & VanValkenburg of this place has a contract for a large amount of the work. The man who had charge of the Bend power construction has construction of this plant in charge. Some large springs issue from the side of the canyon, and these are to be utilized for immediate power. There is a large volume of water in the river at this point, and, also, a great fall in a short distance, so that it is comparatively easy to develop a very great power. Concrete men have been engaged. The power will be supplied to mills and for lighting purposes.

RUSH OF NEWCOMERS TO WHITE SALMON LEAVES FOOD SUPPLIES BARREN

(Special Dispatch to The Journal.) White Salmon, Wash., April 5.—That this place is feeling the influx of travelers from the east is pretty well indicated by the fact that Saturday evening one bakery had to close its doors to patrons and the leading restaurant had to shut down because of an empty pantry, while Monday a meat market was sold out, although slaughtering twice as much as a month ago.

JOHN BOWER, LAWYER AND JOURNALIST, DIES

John M. Bower, a former newspaper man and attorney of Portland, died at New York a few days ago, according to a letter received this morning by Secretary E. C. Giltner of the Portland Chamber of Commerce. Mr. Bower was 58 years of age at the time of his death. He is well known to many of the older newspaper men and attorneys in Portland. "Shortly before leaving Portland for New York, Mr. Bower was a member of the law firm of McDougall & Bower," said Mr. Giltner. "He had a large circle of friends, many of whom he made while engaged actively in newspaper work prior to taking up the practice of law. He was a brilliant man and was actively engaged in the practice of law up to the time of his last illness, having offices at No. 1, Union square."

SIX FOUND GUILTY OF HAZING CO-EDS

W. S. C. Committee Advises Expulsion of 3, Suspension of Other 3.

(Special Dispatch to The Journal.) Pullman, Wash., April 5.—The committee investigating the raid by students of Washington State college on the girls' dormitory, Monday night, March 27, when seven girls were rolled out of their beds and roughly handled, brought in their report late last night. The report was submitted to President Bryan, who is reading all the testimony and will then submit it to the board of regents, which meets this afternoon. The committee finds six young men guilty and recommends that three of them be expelled and the other three suspended indefinitely. As the board of regents has the sole power to expel, no definite action can be taken until the board renders its decision. The names of the students are not made public and will not be until they are suspended or expelled. One of them lives in Tacoma and his mother came clear across the state to plead for her son and make a strong plea to the investigating committee and to President Bryan, but failed to change the decision. The committee which has been investigating this matter has worked on an average of 14 hours per day for six days and examined more than 100 witnesses, taking much of the testimony in writing. The committee is composed of Vice President O. L. Waller, Professor Elton Fulmer, dean of the faculty, and Professor F. A. Thompson, head of the department of mining.

ALTHOUGH SQUELCHED, WOMEN STILL WARRING

Boston, April 5.—Undismayed by the action of the state assembly in refusing to grant the right of suffrage to women by a vote of 141 to 55, leaders of the movement today announced that they would start to work immediately so as to be in better position at the next session of the legislature to get the bill through.

VALE READS RIOT ACT TO WATER CONTRACTORS

(Special Dispatch to The Journal.) Vale, Or., April 5.—Much perturbed over delays and various complications in the new water system being constructed at an expense of slightly over \$100,000 and begun nine months ago, the Vale city officials have given the American Light & Water company of Kansas City until May 1 to put the system in working shape. The firm is under \$100,000 bonds. A telegram has been sent City Engineer W. P. Bullock at Kansas City to send all maps, plans and contracts of the system. Bullock is drawing pay for supervising the work, but has not been here since it started and the council is debating whether to dispose with his services. When Engineer Oskee was appointed by the council a few weeks ago to look over the system and locate the source of trouble, no maps, plans, or contracts could be found. Since then the bonds of the contractors have been located but other valuable papers are still missing.

OLDTIE S. P. ENGINEER BURIED AT SILVERTON

(Special Dispatch to The Journal.) Silverton, Or., April 5.—The funeral of John Scott, one of the oldest and most

VILE CATARRH

Hyomel Quickly Clears Stuffed-Up Head and Stops Snuffing and Coughing. In the morning, shortly after you awake, dear reader, do you have to hawk and strain to get that stubborn piece of mucous out of your throat? Get rid of catarrh now; it will grow worse as you grow older. One day of breathing Hyomel, healing Hyomel (pronounced High-o-mel) the guaranteed catarrh remedy will give you such wonderful relief that you will wonder why you doubted the statement that Hyomel would end the most aggravating case of catarrh. A hard rubber indelible pocket inhaler and a bottle of Hyomel costs \$1. This is called the Hyomel outfit. If one bottle does not banish your catarrh, you can get another for only 50 cents at reliable druggists everywhere.

prominent railway engineers in Oregon, was held in this city Monday. Mr. Scott lived in Silverton for a long time and moved to Eugene about two years ago. He was taken ill several months ago and grew gradually worse. He was taken to the hospital at Portland about two weeks ago and was later taken to San Francisco, where he died Sunday. The

body was brought here by special train, accompanied by several of the officials of the Southern Pacific company, and interment was made in the Silverton cemetery.

dent of the board of directors of the Panama Pacific 1915 International Exposition company, it was announced today that there would be increased activity in all exposition matters. Moore received the unanimous vote of the exposition board.

Teeth! Teeth!

The Quality of Our Work Is Our Best Indorsement

Beautiful mouths of hundreds of the best people of all ages and in every walk of life are "living witnesses" of the matchless character of the work we do. For some of these "hundreds" of witnesses I, myself, or some of my dentists skilled in the U. S. Painless Methods, have filled decayed teeth and made them sound again. For others a new tooth has been inserted so cleverly that it could never be detected from those that grew in their mouths, or a tooth crowned that they thought they would be compelled to have extracted. Others have been so cleverly fitted up with upper and lower sets of our PATENT DOUBLE-SUCTION TEETH as to make them forget the loss of their natural teeth. In every instance the work has been done in an absolutely painless manner—in a manner that we guarantee to give LASTING SATISFACTION.

If you want more proof, come to our offices and we will examine your teeth without charge, show you just what can be done and tell you what it will cost. Such an examination and advice does not obligate you to employ us to do your work.

A First-Class 22-K Gold Crown \$3.00

First-Class 22-K Gold Bridge Teeth \$3.00

All crown and bridge attachments are made of solid 22-karat gold and hand made to fit each individual tooth. The U. S. Painless Dentists make all gold crowns to measure of solid 22-karat gold. We are determined to show the people of Portland that we are advertising on the strength of our skill and expect to reap the benefit by your future patronage and recommendation.

A Full Set \$5.00

A Full Set \$5.00

A Fifteen-Year Written Guarantee

28 Offices in the United States

The U. S. Painless Dentists plan to give the public the best work possible for the least money, and not to ask for pay for the work before it is done. You need not have any fear in coming to the U. S. Painless office, for even if you have an examination and an estimate is given you, it does not obligate you to have your dental work done here. We will gladly look your work over and advise you what to do.

Our "CONTINUOUS GUM," natural color, unbreakable plates, formerly \$15.00, now \$8.00. With the U. S. Patent Air Chambers your plates cannot come loose or fall. These air chambers are not made in any other office in Portland. If you have had trouble with loose-fitting teeth, come here. If you are just getting new teeth, do not allow your mouth to be ruined by loose-fitting plates.

Fillings in Gold, Silver, Platinum, Porcelain, 50c to \$1.00

We are making a specialty of porcelain bridge work. This is without doubt the most beautiful and lasting work known to the dental profession. When one or more teeth have been lost, we can replace by this method so that detection from the other teeth is impossible.

U. S. Painless Dentists 2nd and Washington Entire Corner

DR. M. A. JONES, Manager, 17 Years in Portland. Office Open from 8 till 8. Sundays, 9 to 12 A. M. Over Merchants National Bank, entire corner.
