COUNCILMEN VOTE FOR SALARY BOOST: POLITICAL TALK

Total Increase Asked Amounts to \$5000 a Year-Some Requests Granted-Baker and Cellars in Verbal Tilt.

When three candidates for the postion of councilman at large met yesteray afternoon at the council ways and means committee meeting there ensued a triangular political conversation in which Councilman George L. Baker

Council-man Cellars, who did not raise his voice when the council a few weeks ago voted for salary raises amounting to \$26,000 annually, took sides with Coun-cilman Burgard. However, being chairman of the committee, Councilman Cellars could not second Mr. Burgard's motion to lay on the table.

Councilman Baker and Councilman Rushlight, the fourth member of the committee present at the meeting, have wherever -the same have been recomled by heads of departments, by exocutive board committees and in other cases where the applicants have been deserving of higher emolument. They natumily opposed Councilman Burgard's atthe monttlon made vacant by the resignation of T. C. Devlin. It also unanimously recommended the passage of an ordinance providing for a desk clerk in the department of building inspection. The salaries authorized for the two positions aggregate \$145 a month.

Politics was injected in the next sound when an ordinance providing for inemen in the fire department was brought up. The linemen came before motion to lay the ordinance on the ta-

The committee tabled this after Councilman Baker had forced City dealth Officer Wheeler to appear before the committee and state his views on the subject. Wheeler was reluctant to make a statement, but he finally do-clared that he was opposed to the passage of the ordinance. On his recommendation the committee laid it on the table. That Mr. Mears would probably refuse the governor's commission was indicated some time ago. Passover (Pesach) is the seven days. festival observed by the Jew in the early spring in commemoration of the Exodus from Egypt. In ancient Jewish life, it was the first of the three Pilgrim festivals, upon which every male Jow was required to present himself in person at the central sanctuary in Jerusalem. Although the Passover certain features in common with the universal spring festival, it is its historical significance which gives it lasting vitality. It is the great Indepen-dence day of the Jew; the first event in his national history, an event which became fundamental in all his thinking too, as evidenced by the frequent reference to the great deliverance.

The festival is ushered in by a family sevrice, called the Seder, at which certain symbolic ceremonials are observed. Each participant—and the lowliest is privileged to sit at the table that night -is required to drink four cups of wine, memory of the four promises made by the Eternal to redeem Isral from bondage. On the table are the unleavened cakes (Matzos), the shin-bone of a lamb (roasted on the coals), commemorative of the Paschal sacrifice, casted egg, a mixture of apples and nuts, (Charoseth), to symbolize the morwith which the "Egyptions made bitter the lives" of the fathers, and bftter herbs (Maror), reminiscent of the unhappy days in Egypt. In song and story, the tale of the oppression and deliverance is rehearsed. Psalms of thanksgiving (Hailel), strike the key-note of the happy occasion. The services, interrupted by the family dinner closes with a number of merry folksongs, expressive of the character of the celebration.

During the festival, unleavened bread is eaten instead of the usual leaven. In orthodex homes, great care is taken that all traces of leaven are removed before the beginning of the festival. Sets of dishes, otherwise unused, are provided.
