

MEMBERS OF DIAZ FAMILY ON SHIP BOUND FOR PARIS

Dispatches Indicate That Mexican President's Near Relatives Have Fled; He's Said to Be Anxious to Go, Too.

San Diego, Cal., April 13.—A dispatch to the Sun from Vera Cruz, Mexico, says that several members of President Diaz's family are on board the steamship Esmeralda, bound for France. The dispatch also says that Diaz himself is anxious to go to Paris, as he fears capture by the Maderos.

CONDITIONS IN ALAMO SAID NOT SO SERIOUS AS WAS REPORTED

San Diego, Cal., April 13.—Passengers arriving today from Ensenada on the steamer San Diego say that conditions at Alamo are probably not so serious as has been reported. A number of Americans, including women and children, are believed to be in the town, which was captured by Mexican rebels under General Berthold a few days ago. The passengers declare that United States Consul Schmucker has done his best to help Americans in lower California. Word also came on the steamer that the rebels on Tuesday captured the stage and six horses going between Ensenada and San Quentin. They also took the mail and Wells Fargo express packages, value not reported.

Conflicting reports have come here relative to the size of Berthold's force in lower California. One was brought here by Mrs. Nellie Meyers, who spent several months in Ensenada and Alamo. She says Berthold's garrison at Alamo contains only 40 men. It is known, however, that several bands of rebels are gathered along the Calle Real (principal road on the peninsula), and that they are having no trouble in holding their own.

Mrs. Meyers was held as suspected spy by the Ensenada authorities but was soon released. She says George Mosby, son of the famous general John Mosby of the Civil war, is second in command under Berthold.

2000 Mexicans Killed.

San Diego, Cal., April 13.—Dr. David F. Watkins, who has been doing missionary work in Mexico, and who has just returned to his home here, says that since the Mexican revolution began more than 2000 men have been killed in battles near Mexico City. He says at least 15 real engagements have been fought near the capital and that news of the battles has been virtually suppressed until now.

Dr. Watkins told about the Mexican situation in an address to the Men's club of the First Congregational church.

GIRLS MUST NO LONGER ROAM STREETS AT NIGHT

South Bend, Wash., April 13.—Mayor A. C. Little of Raymond, with the hearty support of the city council, has determined to put a stop to the practice of a number of young girls of that city of roaming the streets at night. The first step in this direction was taken last night when Deputy Sheriff F. W. Baker arrested a young girl and her escort and took them to jail. The council has also decided that hereafter any saloonkeeper who allows minors to enter his place of business will immediately suffer a revocation of his license. Mayor Little declares that if parents of Raymond cannot control their children the city will undertake to do it for them.

Aviator Uninjured by Fall.

Los Angeles, Cal., April 12.—Barring a few miscellaneous bruises, Aviator Charles F. Walsh is none the worse today for a 100 foot plunge to earth at Dominguez field in his Curtiss biplane. Walsh said that an aerial control wire snapped causing his fall. The machine was wrecked.

Denied Money, He Shoots.

Bakersfield, Cal., April 12.—Because he could not obtain a loan of \$2, one Shuman shot another four times at Mojave today, inflicting injuries that will cause death.

NO MORE GRAY HAIR

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers, and it can be bought for 50 cents and in a bottle at almost any first class drug store, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

LOOK ASKANCE AT, DOGS FROM SOUTH

Southern Kllickitat Residents Fear Rabies May Cross the Columbia.

(Special Dispatch to The Journal.) Rousevelt, Wash., April 13.—Klickitat county has a shore line along the north bank of the Columbia of over 100 miles. Immediately south lie Wasco, Sherman, Gilliam and a portion of Morrow counties, in Oregon. The reports that hydrophobia has spread from Walla Walla county west through these counties, having at least been found in Wasco, the westernmost of the counties, is alarming Klickitat people, who will agitate for a quarantine against dogs from south and east of the Columbia. There is little danger of coyotes crossing, but dogs may be brought across, which, unknown to their masters, have been bitten. The proper authorities will be asked to consider a quarantine against all dogs crossing the Columbia, whether from Oregon or the southeastern counties in Washington.

JURY IN MANSLAUGHTER, CASE UNABLE TO AGREE

The jury in the R. E. Chapman manslaughter case failed to reach a verdict yesterday after deliberating 10 hours, and Judge Kavanaugh of the circuit court dismissed it. Chapman was indicted for killing Harry Schmitzer, 10 years old, by striking him with an automobile. The accident happened at First and Arthur streets. The 12 men trying the case retired yesterday shortly before noon. They returned late in the afternoon for instruction on a minor point, and reported at 10:45 that they could not agree. They stood six for conviction

and six for acquittal. One side considered the accident unavoidable, while the other held Chapman should have had his machine under control. Witnesses differed on the speed, some saying it was going 40 miles an hour, while others said it was going much less.

To Europe Via Bermuda.

New York, April 13.—A new steamship service to Southampton and Cherbourg by way of Bermuda was inaugurated by the Royal Mail Steam Packet company today with the departure of the liner Avon from this city. The steamship will arrive at Bermuda Saturday morning and sail the same night for Cherbourg where she is due to arrive on April 23, making her time of passage 10 days.

Looks to Miracle to Cure.

(Special Dispatch to The Journal.) Mt. Angel College, Or., April 13.— Hoping for a miraculous recovery, Rev. Father Alexander Grebmeier, O. S. B., left the monastery yesterday for France, where he will make a pilgrimage to the famous shrine at Lourdes. Father Alexander is a young member of the monastery who was ordained to the priesthood March 29, by Archbishop Christie. He is said by his confreres to be very brilliant but very ill with tuberculosis. The fathers here express

the opinion that their only hope of seeing him back again is a miraculous cure. Many cures through supernatural intervention are believed to have been effected at Lourdes, and Father Alexander has strong hopes that he will regain his health. His home is in Bavaria, Germany, in the town of Preffenhausen, where his parents reside.
