

FOLK ASCRIBES COUNTRY'S SINS TO SELFISHNESS

Fight for Right Must Be Continuous, He Tells O. A. C. Students; Sorry West Can Never Be President.

(Special Dispatch to The Journal.)
Covallis, Or., April 12.—Ex-Governor Folk of Missouri, in addressing the students of the Oregon Agricultural college yesterday, was introduced by Governor Oswald West in a brief speech. Mr. Folk said in part:

"I congratulate you and the state of Oregon upon this institution of learning. I saw your armory just now, and I have seen all the armies of all the big colleges in the country, but there is not one of them which compares with yours anywhere. You should be proud of it, and the state of Oregon ought to cherish this institution and it should be supported liberally. The state can not spend money in any better way than in the education of its people.

"Governor West has the reputation of a man of honest courage, who knows the right and tries to do it. I regret deeply that he was born in Canada, and therefore can never become president of the United States. But," added Governor Folk facetiously, "perhaps he might come in under the reciprocity treaty.

"There are plenty of men who would die for their country right now," he continued. "If it were necessary, but the man who will live for his country every day is the man we need most just now. That is the kind of patriotism that we need; the patriotism of every day giving of life to the fight against public evils. True patriotism consists in serving country and fellow man. True greatness lies in serving one's country and one's fellow man. It is an essential for private citizens to discharge their public responsibilities as for the man at the cannon's mouth to do his duty.

"It is selfishness that causes the trouble. Ninety-nine people out of every hundred are honest when they have no selfish reason to be otherwise, no personal gain to be made by dishonesty. If patriotism could be made as active as graft and greed, the problem of political corruption would be solved. The trouble is the forces which make toward public righteousness are so apt to sleep between crisis, while the forces for evil never sleep. Do not make the mistake of assuming that all the fighting necessary to be done for the country has already been done. There are fights to be just as important as any that have gone before. The fight for the right is never quite over. Between the welfare of all the people and the greed of the few against public wrongs there is always a fight.

"The government neglected will not become a government for the common good, but a prey to greed and graft. Good government must be fought for, while the bad thrives by its own wickedness. Good people are so disposed to wake up and fight vigorously, and then go to sleep again, while the forces for evil work all of the time. Eternal vigilance is the price of free liberty."

At the close of the address, ex-Governor Folk and Governor West were the guests of honor at a luncheon cooked by the girls of the advanced class in the kitchen in the domestic science department and served by them in the model dining room, which was decorated with jonquils.

CHEHALIS DRAWS MUCH NEW BLOOD

Roney Farm, 140 Acres, Sells for \$16,000; Winrich 100 Acres for \$10,000.

(Special Dispatch to The Journal.)
Chehalis, Wash., April 13.—C. O. Jenkins of Skagit county has bought the William Roney farm of 140 acres for \$16,000. S. H. Thompson of Seattle paid \$10,000 for 100 acres known as the Winrich farm, both near this city. There are many new homesteaders locating near Chehalis and most of them are buying acreage tracts. The Citizens' club has been very successful in its campaign for securing new settlers and this fact will be the means of making a still bigger publicity campaign for the coming year.

A. Welch Visits Power Plant.

(Special Dispatch to The Journal.)
Chehalis, Wash., April 12.—Welch of Portland went to the city yesterday looking over the work which has been started on the new \$75,000 power house which his company, the Twin City Light & Traction company, has started here. The traction company is now spending a large sum of money in improvement aside from the work on the power plant.

Dog Ordinance Clears Streets.

(Special Dispatch to The Journal.)
Chehalis, Wash., April 13.—The new dog ordinance, which the Chehalis council recently passed, went into effect yesterday and there is a notable absence of canines on the streets. Under the new regulation a license must be paid on dogs and any that are brought within the fire limits, which includes the business district, must be in leash. Owners of dogs seem inclined to take the new restriction philosophically.

Chehalis Postoffice in Line.

(Special Dispatch to The Journal.)
Chehalis, Wash., April 13.—The Chehalis postoffice will be closed both at the general delivery and carriers' windows beginning next Sunday, April 16. Postmaster Bush has received instructions from Washington to begin the closing at once. Legally signed petitions were sent to the department approving the innovation.

Sheared Goats May Not Survive.

(Special Dispatch to The Journal.)
Eddyville, Or., April 12.—With the ground covered with one half inch of snow, it is feared there will be a big loss of goats, as part of the fleece has been sheared and the goats turned on the range, and it is almost impossible to drive them to shelter, owing to their being so stupid when chilled.

M. W. A. CONVENTION AT HOOD RIVER, MAY 2

(Special Dispatch to The Journal.)
Hood River, Or., April 13.—The state convention of the Modern Woodmen of America will be held at Hood River on May 2. This convention will attract several hundred delegates. Several of the local lodge members were at The Dalles last night to attend a meeting and to make arrangements for the convention.

"INSURGENTS" IN D. A. R. ARRAIGN "HESSIANS"

(United Press Leased Wire.)
Washington, April 12.—Declaring that the "Hessians" within the order are trying to subvert the sacred constitution, "establish an oligarchy," throttle freedom and trample liberty beneath the French heeled feet of might, "insurgents" in the Daughters of the American Revolution established headquarters here today to begin the campaign which will culminate in next week's national convention.
Mrs. William Cummings Story is the candidate for the president general of the insurgents, and for months her supporters have been waging warfare in her behalf and against Mrs. Matthew W. Scott, the present head of the national order, who is a candidate for reelection.

FREEDOM FROM COLDS & HEADACHES

Alveolar Dentistry

In a majority of our advertisements we lay great stress on our specialty, Alveolar dentistry, replacing missing teeth without a plate or bridge work, and the curing Pyorrhea (loose teeth). The work is so remarkable in its character that it is apt to overshadow those other cases which come to us—the simple cases. We don't want the idea to obtain that we are Alveolar specialists alone. We are that, but something more—general practitioners of the first class. We do dentistry in all its branches, from the simple piece of filling up. It's a boastful statement to make, but we can do anything that is possible in dentistry, and what we do is always of the very highest class. Our booklets Alveolar Dentistry and examinations are free. There are 12 Alveolar Dental Co. offices in the west. About 50,000 people are wearing our Alveolar teeth. About 2000 people in this city and state have teeth supplied by this office. Ninety-nine per cent, if not every single one—will tell you if asked that it's the best investment they ever made in dentistry. In many cases where bridlework is impossible and all cases where it is possible, we can replace your teeth with beautiful, artistic, comfortable, clean and everlasting teeth that we will defy anyone, dentist or layman, to tell from natural teeth. For full information see our Sunday ads.
