## A MIGHTY UNCERTAIN FUTURE

By Darra More  
HE was a big uncouth Irishman whose business was moving vans and storage. He had stopped in his work to talk of the "sights he sees and the tales he hears."  
"My business is in a neighborhood that just swarms with young couples," said the burly son of old Erin. "The houses are small but pretty, and the rent cheap. This young folk move in and it's all lovely-dovey for awhile. Then trouble begins to brew, and by the end of a year and a half you'd be surprised how many of the men skip out and leave their wives, usually with a baby to look after."

"I don't say a man ain't a coward who'll run off and leave a woman with a child to provide for. He ain't got any right to be called a man. But I do say, in the majority of cases, the trouble begins because the girl doesn't know how to keep house. The man who marries wants a home. And if he can't love his home it's because the home hasn't come up to his expectations."  
"The young couples start out with the best intentions, but intentions ain't going to help you much over the rocky road of facts. They haven't a big income to live on. They are quite human, with more or less temper and selfishness. Now what happens?"  
"The wife doesn't know anything about housekeeping and the money disappears like water down a rat hole. Bills pile up. Quarrels begin. For I tell you, when a man comes home at night, dead tired from his day's work, and is confronted with bills which he sees no prospect of paying, he's an underdog for an angel if he doesn't say something pretty sharp."

"When a girl marries a fellow with

## LINN COUNTY TAXES ALL IN BUT \$60,000

(Special Dispatch to The Journal.)  
Albany, Or., April 13.—Linn county's tax levy for 1910 amounted to \$422,837, which was nearly \$90,000 in excess of the previous year, increased valuations because of improvements being the principal cause of the raise, although road and bridge work contributed to the increase. Of the total levy Sheriff D. S. Smith collected the sum of \$361,621 before taxes became delinquent this month, which is an exceptionally good showing. Of the remaining taxes \$42 persons took advantage of the half yearly payments, which means that but a small percentage of the roll will be turned in as delinquent when the October payments are made.

## COMMISSION REQUESTS QUARTERS IN PORTLAND

(Salem Bureau of The Journal.)  
Salem, Or., April 13.—A commission has been addressed to County Judge Cleton of Multnomah by the railroad commission advising him that the commission expects to take up the administration of the public utilities branch of its work at Portland as soon as the law goes into effect, which will be May 20, and the county court is asked to begin to devise ways and means whereby the commission may have quarters for the new Multnomah county court house in which to hold hearings, keep records and handle its clerical assistance, engineers and inspectors. ## STATE BOARD OF HEALTH TO SPEND PLAGUE FUND

(Salem Bureau of The Journal.)  
Salem, Or., April 13.—Attorney General Crawford holds in an opinion delivered in writing to State Health Officer Calvin S. White that though the use of the appropriation of \$5000 for the use of the prevention of bubonic plague is somewhat vague, the object and the manner of putting into effect its provisions are sufficiently plain to authorize expenditure of the money on vouchers drawn by the state board of health. The act appropriates \$5000 to be used for the prevention of the spread of bubonic plague, cholera and other menacing Asiatic diseases.

only a moderate salary, she's facing a mighty uncertain future unless she's a good housekeeper. Love and romance are all very beautiful, but facts are facts. There's scarcely a week goes by that I ain't called to officiate at the funeral of some bride's dream. I move her goods here into storage and eventually sell 'em. And she goes to work to support herself and usually a child.  
"And these are decent, respectable young couples, too, when they start out. As I have said, they mean to do right. But the man is not equal to the strain of bad housekeeping. I tell you being a good housekeeper, in spite of all the bifalutin' notions about new women, has got a lot to do yet with being a successful wife."

And Mike was right. His philosophy is a means of salvage for many a home that is fast becoming a derelict.

# Woman's Danger Periods Made Safe

## By Lydia E. Pinkham's Vegetable Compound

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Here is proof:

Natick, Mass.—"I cannot express what I went through during the Change of Life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold. I had creepy sensations and could not sleep nights. I was finally told by two physicians

"I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. I did so and I know it helped me wonderfully. I am very thankful that I was told to try Lydia E. Pinkham's Vegetable Compound."—Mrs. Wm. Boughton, Cornwallville, N. Y., Greene Co.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.
