## DIAZ IN TART NOTE BLAMES AMERICANS FOR BORDER TROUBLE

## INTIMATES REBELS ARE LARGELY FROM U. S. SIDE OF LINE

## ATTACK OF JUAREZ THREATENED FOR 6 O'CLOCK TONIGHT

**President Diaz Makes Specific  
Charges of Aid Given to In-  
surrectos by Citizens of  
This Country.**

(United Press Leased Wire.)  
Washington, April 20.—State and war department officials here today are agog through the receipt of unofficial information that the reply of President Diaz to President Taft's note regarding fighting on the border, is a sharp retort and in no way pacific in its tone.

It is reported that Diaz in his statement strives to create the impression that the Mexican revolutionary forces are mostly Americans. It is said the note does not promise to protect Americans, but merely repeats old army orders and blames Americans for the border trouble. It is said to change that Lieutenant Talamo of the federales was wounded at Oregon Prieta by a bullet which was fired from the American customs house.

Special complaint is also made against "Major Gardner," commanding at Douglas, alleging that he interfered in the combat there on behalf of the rebels. The reply, it is said, also cites the fact that a rebel whose gun was out of order crossed the border, where it was repaired by an American soldier.

The Mexican president, it is said, also quotes an affidavit by John Dean of Douglas, Ariz., in support of the assertion that the rebels are mostly American citizens.

In conclusion, the report says, Diaz deplores the troubles, but blames the United States for them, and declares that Mexico has nothing for which to answer. The note states plainly that Diaz thinks the United States is either

**Sulzer, Foreign Affairs Chair-  
man, Says 250,000 Men  
Would Be Needed.**

(United Press Leased Wire.)  
Washington, April 20.—Members of the house committee on foreign affairs are unanimously against intervention in Mexico. This statement was made here today by Congressman William Sulzer, chairman of the committee, after its members—Gardner, Sharp and Foster—had conferred with President Taft on the matter at the White House.

After declaring that intervention for the present at least, was out of the question, Sulzer said no offensive move would be made without the most serious deliberation. He asserted that any effort to invade Mexico would be an immediate reorganization of the American army, to double or triple its present strength. A quarter of a million men, Sulzer said, would be necessary to succeed in such a project, and to gather that number according to army experts, would require a year.

Referring to press reports of President Diaz's alleged answer to President Taft's demand for assurances of pro-

## BRITISH SOLDIER OF FORTUNE WINDS UP CAREER BY JOINING SALVATIONISTS

(United Press Leased Wire.)  
New York, April 20.—Leggeman of King George V and baronet of the British realm, Sir Genille Cave-Brown-Cave, who is now jainor of the Salvation hall, Brooklyn, resigned today as vice president of the Boy Scouts of America and declared his intention to enter the Salvation Army training college with the position as an officer in that organization as his ambition. Cave-Brown-Cave's conversion winds up a remarkable career as a soldier of fortune. He exhibits a birth certificate, documents and photographs to prove that he is the twelfth Baronet Cave-Brown-Cave. They show he was born in 1869 and that he served as a British officer in India and Burma. He resigned from the British army 10 years ago.

For the last three years the baronet has been a rough rider in a wild west show. Later he worked as an actor in a moving picture show, receiving \$10 daily. Most recently he negotiated with a marriage broker to wed a Washington heiress, whose name he refused to disclose. He declares he was arranging with the parents of the young woman to give him \$50,000 when the negotiations were broken off.

Cave-Brown-Cave joined the Salvation Army last September, after being converted at a "hallelujah" meeting.

"I am perfectly contented," he said

Peking, April 20.—Japan is angered today by the discovery that a portion of the revenues of Manchurian provinces has been allotted as part of the security for the four-power loan of \$50,000,000. The Tokio papers team with bitter criticisms, claiming that China disregarded the contentions of Japan and Russia that they have superior rights in

Manchuria.
