

# ARIZONA'S BLOCK TO MACHINE RULE BAR TO ENTRANCE

California Insurgent Works in Maiden Speech, Says Sole Objection Offered to Admittance Is Progressiveness.

(United Press Leased Wire.)  
Washington, April 19.—Speaking on the admission of Arizona to the Union, Senator John D. Works, Republican insurgent of California, delivered his maiden speech in the senate today. He said, in part:

"A territory is asking to be admitted to the Union. Her plea for admittance is not with the claim that she does not possess the necessary territory or population, but solely because her constitution provides for direct legislation. The people are insisting that they shall be permitted to govern their own country and that it shall not be corrupted and governed by the power of money in the hands of men who care nothing for government except as a means of increasing their vast wealth."

**Evidence Brought Home.**  
"This widespread uprising against corruption is founded upon the most convincing evidence. We need not go outside of this chamber to find evidence of this fact. It was charged that the election of a member of this body had been procured by corrupt practices and the bribery of votes in the legislature. An investigation was made by a committee of the senate. It is enough to say that it was clearly and sufficiently shown that corrupt practices had been resorted to in the election and that some votes had been purchased."

"It is not my purpose to reargue that case. I am citing it to show why the people of this country may justly claim a larger share in the selection of their officers and the control of legislation. When the people attempt to limit the power of their representatives and assume some of that power themselves by ignoring the unfaithful representatives and acting directly at the polls or by recalling them and substituting honest and capable representatives in their places, the cry is raised that this effort to control their representatives and their government is a violation of the constitution. This is the issue that confronts us today. The proposed constitution of Arizona provides for the initiative, referendum and recall. Objection is made to the admission of this territory as a state on this ground and this alone."

**In Force From Beginning.**  
"The referendum has been in force for quite every state in the Union from the beginning, and that in the most important of all questions—the adoption and amendment of constitutions—desires many other things. The initiative and referendum has been in force in Oregon for some time and the question of the constitutionality of such legislation has been before the supreme court of that state more than once. I am not expecting the millennium to come in politics, if direct legislation shall be universally adopted in this country. After all, and in the final analysis, the stability of our institutions must depend upon the honesty and patriotism of our people."

"Can any senator suggest a better way than that of giving greater power to the people through the direct primary and the initiative, referendum and recall?"

**Bosses Are Routed.**  
"I speak from knowledge when I say that the corporate interests and political bosses of my own state have been utterly routed, our politics purified, the standard of citizenship elevated and the confidence of the people in better conditions vastly increased through these reforms alone. They have banished the political caucus and convention, the convenient tools of corruption, and made every voter independent and do his own will at the polls. Whereas, before

one great corporation, with its allied forces of evil, nominated and elected our officers and the officers elected were its servants and not the servants of the people, at the first election after the primary election law went into force we elected an honest, courageous and independent governor, a man who takes orders from no corporation, machine or boss; a lieutenant governor of the same caliber, and the best legislature the state has ever had."

**Proud of Arizona.**  
"I am proud of the people of Arizona, who have come here with this constitution, so framed as to protect them and their new state from fraud, corruption and bribery in elections and in public office."

"The recall is singled out as the one indefensible provision in the proposed constitution, and the right given to recall judicial officers is denounced as particularly objectionable. But what has the question whether I or any other senator does or does not believe in the recall of judges to do with the right of Arizona to be admitted as a state?"

"The provision for the recall is not in violation of the constitution or of the enabling act. It is a question that affects Arizona alone and one that her people have a right to settle for themselves."

**Cowhit Farmer Dies Hard Death.**  
(Special Dispatch to The Journal.)  
Castlerock, Wash., April 20.—S. Melton, a farmer who resided near this city on the west side of the Cowlitz river, died Tuesday after several weeks of terrible suffering from an abscess on one of his lungs, from which it seemed impossible to obtain relief. He was a member of the grange, and the funeral was held in this city this afternoon under the auspices of that order, which is very strong in this section.

**Federal Forces to Ojinaga.**  
(United Press Leased Wire.)  
Chihuahua, April 20.—One thousand federal cavalry are en route to Ojinaga for its relief. When the rebel activity started in the north, most of the available federals were stationed here. Now there is a general outward movement to meet the insurgents near Ojinaga.

# SELECT MEDFORD MAN BECAUSE HE KNOWS JOB

(Special Dispatch to The Journal.)  
Olympia, Wash., April 20.—Governor M. E. Hay has made a statement in connection with his action in tendering to a man outside the state, W. J. Roberts of Medford, Or., the position of Washington state highway commissioner. Since the term of R. H. L. Rowley expired and he was not reappointed, the governor has been trying to secure the services of the biggest engineer possible, regarding the position of highway commissioner as very important. For this reason there has been delay in picking the right man, although there were a great many aspirants. R. W. Hunteon of Bellingham was tendered the position, but on account of the mix-up in the highway laws and his own pressing business, he declined. Will R. White was named to serve temporarily and will be succeeded by Professor Roberts, who was formerly a member of the Washington state college faculty at Pullman.

The recent legislature increased the pay of the highway commissioner from \$2000 to \$6000 annually.

# WIRELESS MESSAGES SENT FRONTIER TROOPS

"San Diego, Cal., April 20.—Details of the maneuvers at Grossmont by the brigade of regulars under General Bliss during the last 10 days show that some valuable practice has been obtained. In one instance the brigade was separated into several detachments that were sent in different directions, 20 or 30 miles apart, to meet again at a given place at a given time. The detachments scattered at 10:30 last Monday morning and did not meet again until 48 hours later. While the signal corps was near

# Causes Sickness

Good Health Impossible With a Disordered Stomach.

There is nothing that will create sickness or cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach. We urge every one suffering from any stomach derangement, indigestion or dyspepsia, whether acute or chronic, to try **Roxall's Dyspepsia Tablets**, with their distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine they are not satisfied with the results. We recommend them to our customers every day, and have yet to hear of any one who has not been benefited by them. Three sizes, 25c, 50c and \$1.00 a box. Sold only at The Owl Drug Co., Inc., cor. Seventh and Washington streets.

Alpine, 20 miles from a telephone, it drove a stake, with a wire attached, into the ground and immediately took

a long wireless message from Washington, D. C., about the war. General Bliss is particularly pleased

with the work of his officers and men. From all accounts the men appear to have enjoyed the maneuver experience.
