LOGGED OFF LANDS WILL BE MARKED

Exceptional interest in the charpitting operations of the F. B. Holbrook company in Beaver homes tracts at Redland, Or., has been displayed during the past two weeks, since announcement was made that 2000 acres of the fertile logged-off land in that district was to be marketed. Hotel accommodations have sprung up in the Redland settlement as a result of the influx of home-seekers and a lively business is reported.

Home-seekers are shown all the processes of the new economy land clearing method of charpitting. The fact is fully demonstrated that the days of dynamite and donkey engines, with their heavy expense and hard labor, have passed and that hereafter the home-seeker need have no aversion to taking prime raw lands. A number of new settlers are already at work getting their newly acquired tracts at Redland into production for fruits and vegetables for the Portland markets.

John Day Charges Seattle Folk With Enthusiasm for Astoria Centennial. "Seattle is enthusiastic over two things in particular, the 'Golden Potlatch' and the Astoria Centennial. The way her business men are boosting for these two projects is enough to warm the cockles of a publicity man's heart."

This was the comment of John Day, publicity manager for the Astoria Centennial, yesterday after 11 days spent traveling through Washington in the interests of the centennial. Speaking in detail of his trip and the results attained, Mr. Day said: "President Douglas of the Potlatch association, made it his special business to stir up enthusiasm for Astoria's centennial. of the aid rendered by the Seattle Chamber of Commerce and Commercial club. It certainly speaks well for a united northwest when business men stand back of the project of a neighboring state without jealousy and I am sure that Seattle's Potlatch will be as big a success as the Astoria Centennial is going to be. Pianos Selling Rapidly \$98, \$115, \$126 AND UP. Better Hurry—Opportunity Is Slipping Away. Others Say \$350 We Say \$138. \$1 a Week pays for A Piano. Ask to see the following bargains, also WELL KNOWN MAKE \$95, WEBER \$126, KIMBALL \$137 and others. Never have we had such a great demand for pianos as during the last few days since we announced this wonderful sale of instruments. As previously announced, we bought for spot cash a Portland dealer's entire stock of pianos. These instruments were originally obtained by this dealer from the New York manufacturer, as part payment on a real estate deal. We got these pianos at a price which is practically less than cost, and we are now selling them at positively the lowest prices and easiest terms that a brand new instrument has ever been sold for in Portland or any other city. Just think of it: For \$111.50 we give you a modern, brand new, warranted piano, with full length music desk, double revolving lock board, three pedals and splendid tone. Without the practice pedal the piano costs only \$98 now. Other styles are \$134.80 and \$126.70. We also arrange, where people are not prepared to pay all cash, so that they can secure one on little payments of \$5 or \$6 a month. Surely there never was an opportunity for buying good pianos at such little prices as now. We are anxious to have every one understand that we sell pianos, too, in addition to everything in the musical and sheet music line. Remember, there are only a limited number of these pianos—so you had better come now.
