Extraordinary Scene Marks Departure of German Emperor From London-Reason Unknown to Onlookers.

(By the International News Service.) London, May 20 .- An extraordinary scene, capable of only one interpretation, occurred at the Victoria station this afternoon on the occasion of the departure of the kaiser.

Suddenly, with an expressive gesture, the kaiser turned away from the king and began talking to Lord Lonsdale. George thereupon deliberately turned his back upon the kalser and commenced talking to the Duke of Connaught, without taking notifice while the kaiser bade farewell to the other members of the royal party.
Without further word with

orge, the kaiser and kaiserine entered their car, while the king disdainfully continued his conversation with the King George seemed suddenly to think better of his position and went on board the car, bowed gravely and frankly and only once to the kaiser and Kaiserine, without shaking hands. He then turned his back upon the emperor and resumed his conversation with the Duke of Connaught and did not once around before the train steamed The waiting royalties on the platform were obviously aware of the tense ignificance of the occasion and stood of this sinister incident was not lost on around in gloomy silence. The effect privileged spectators within the royal enclosure as the king, with a gloomy face, returned to Buckingham palace

DUE RECOGNITION

Servia's King, Ostracized by Frankie Donnell Gets 6,537 European Executives, to Be Greeted in France.

Paris, May 20 .- King Peter of Servia, known as "The Crowned Assassin," will, on Monday, realize one of the ambitions of his reign, that of being personally recognized and received in one of the great capitals of Europe. Banned at all the courts on account of being suspected of complicity in the assassination of King Alexander and Queen Drags, it has remained for President Fallieres to make the first notable recognition of his kingship. The late King Edward was more re

sponsible than any else for the social and political ostracism of Peter. withdrew the English minister at Belgrade and no successor was appointed for several years. Gradually the powers resumed politi-

cal relations with Servia but King Peter continued to be shunned. A month ago his ambition seemed to be realized in his reception by Emperor Franz Joseph of Austria-Hungary at Budapest. At the last moment the aged emperor became "diplomatically till" and the engagement was cancelled owing to the organization of a hostile demonstra-

tion by the people of Budapest, Peter next sent a message to the kaiser that he would like to visit Berlin in September, but was bitterly disappointed by the intimation that the kaiser's time was taken up until end of the year and that a visit in 1912 would be more acceptable. Peter then turned to Paris and found President Fallieres in a more forgiving mood than any of the monarchs.

BUILD GOOD ROADS IN INDIAN COUNTRY

(Special Dispatch to The Journal.)
Toppenish, Wash., May 20.—Good roads for the Yakima Indian reservation around Toppenish have become a pos-mibility through the cooperation of the Yakima county commissioners, the Toppenish Commercial club and the busi-ness men of the city. The commisloners have offered the county's road building machinery and machinists for the work, the Commercial club and business men are supplying the funds to meet the extra expenses and the ranchers are being asked to donate the service of men to spread the gravel after it has been crushed and hauled.

That 100 rods of road can be built each day with the plan is the belief of the Toppenish Commercial club, expressed this afternoon at a specia neeting called by President Talbott. The meeting was held at the request of Chairman McDonald of the road committee, following a conference with Commissioner Olson as to the road question.

Through the efforts of Chairman Mc Donald, Engineer Martin of the Indian service, and City Engineer Redman, general plan of roadways around Top penish has been prepared and this plan will be followed probably by commissioners. Both this plan the question as to immediate plan and construction by competitive methods will be formally submitted to the

PICK APPLES FROM TREES IN SPRING

(Special Dispatch to The Journal.) Sheridan, Or., May 20.—Mrs. Sarah Evans picked apples Saturday from a tree in her family orchard which had remained on the tree all through the winter. The phenomenal part of this unusual practice is that the fruit was sound and hard when picked and in nearly perfect condition. There is no doubt that the apples were frozen, but the frost had been withdrawn from them so well by the late winter rains that the fruit gave no signs of having been frozen at all.

"If Mr. Hill is correctly quoted touching the jubilee week in Seattle in July, then every dollar thus expended might as well be dumped into the bay. "But we did not observe that Mr. Hill discoursed against the Rose Festival annually held in Portland. Why not?

"The principle upon which the Apple show of Spokane is based and upon which the Potlatch was planned, exactly identical in spirit, undertaking and outcome with the Rose Carnival. "Generally, any proposition advanced

by Great Northern officials may be afely accepted as wise, case the omission of Portland is suggestive. "Undoubtedly it would have

more valuable to the state and there-fore to Seattle if the exploitation and good roads had been promoted than can possibly be the case from the holding of a carnival of amusement, but if such holding be of no value to Seattle—and the Apple show of no value to Spokane -then most emphatically holding the Rose Carnival in Portland must be a P. ATTACK ON LUMBER TO PACIFIC COAST

Government's Fight on Retail Organizations Expected to Take in Those of Western

(Washington Bureau of The Journal.) Washington, May 20.—Inquiry at the department of justice justifies the expectation that retail associations of lumbermen in all parts of the country will be attacked by the government for alleged violation of the Sherman antitrust laws as "unreasonable" restraint upon trade.
Although no actions have been an

nounced against the Pacific coast as sociations, the belief is that the de-

partment plans suits there similar to that which was begun in the New York federal courts yesterday against as eastern parent body and affiliated com panies of lumbermen in the retail trade It has been said that for several years the government has been investigating the so-called standing timber trust with a view to proceeding against it, but nothing more than hints have been given than it was designed to raise the question of the legality of associations of retail lumbermen. The government, however, holds that the most vicious restraint due to the lumber trade has been by retail associations, and is pre paring to attack them in all localities The government claims that virtually all of the retail trade in lumber has en organized in a way to control the selling prices and to eliminate compe tition. Organizations will be attacked that do not professedly agree on price

as a tacit understanding convey to members the knowledge that enables
