

SEERS NAME TAFT FOR 1912 NOMINEE IN SPITE OF SPLIT

Incumbent Generally Favored, It Is Believed; Division Over Reciprocity May Affect the Convention Decision.

(Washington Bureau of the Journal.) Washington, May 23.—With one element undetermined, it is the growing conviction that President Taft has the best chance for the Republican nomination in 1912. The uncertain element is how the division in the majority party over the reciprocity agreement will affect the convention decision.

Hearings before the senate committee of finance, on the agreement, develop sharp differences between the agricultural classes and the residents of the cities. Reference is to the masses of the cities, not to numerically small classes that decide their positions on questions according to special interests they control.

Sentiment Is Zealous. It has been hard to analyze the sentiment among the agricultural classes. Members of the Pacific coast delegations have not been given accurate criteria whence to judge public sentiment there. Some of them get practically no letters from constituents, although quite a number of granges have sent resolutions, most of them against the agreement on reciprocity.

But in the middle west and in New England, farmers are against the agreement—against it beyond the slightest shadow of doubt. They have stormed Washington, coming in carloads literally; they have threatened the administration with political reprisals. Members representing their states, with few exceptions, are against the agreement.

Cities Support Treaty. A disposition to support the agreement is manifest among the masses in the cities. It appears to be an issue between the city and country in the middle west and the northwest. Yet, in spite of these things, men who usually know the currents of political trend are admitting privately—many of them against their desires—that the signs point to Taft as the nominee in 1912. The Taft men claim that Roosevelt will not withstand the movement to take a Taft delegation from New York state. They assert that Taft's appointment of Fisher and Stanton, respectively as secretaries of the interior and war, disarmed whatever opposition Roosevelt might have offered to Taft's nomination.

Taft Strong in South. Through the activities of the Hitchcock postmaster brigade in the south, it is expected that Taft delegates will prevail from that section. In the northeast states, the Taft men profess, they will find plenty of Taft delegates. In the middle west, they claim, although insurgency is strong, it has not gone to the extent that delegates to any number will be selected to vote against Taft. They assert, too, that they will harvest a good proportion of Pacific coast delegates, and that there will be a nomination on the first ballot.

When one takes up the other side—that of the insurgents, however, he finds strong affirmation that Taft can not win. It is expected that La Follette or Cummins will come to the convention with delegates from Illinois, Kansas, Nebraska, Michigan, Minnesota, besides their own states, and that throughout the country a number of other delegates will be picked up.

JOINT USAGE CONTRACT IS IN EFFECT AT ONCE

(Special Dispatch to The Journal.) Aberdeen, Wash., May 23.—The agreement between the Northern Pacific railroad, the Oregon-Washington Railroad & Navigation company and the Chicago, Milwaukee and Puget Sound Railway for the construction of a union depot, and the joint use of all trackage facilities and industrial plant spurs in Aberdeen, Hoquiam and Cosmopolis, which has been completed between the three roads, will go into effect at once, according to an announcement by J. B. Bridges, attorney for the Northern Pacific.

Plans for the new union station are being drawn. It will be located on River street, on land formed by dredging the river. It has a fine water frontage. The Northern Pacific railroad will use its present depot as a freight station, which will give larger freight facilities for that road. The two other roads will build their own warehouses on the O.-W. R. & N. company's property.

Work will now be rushed on the railroad bridge across the Chehalis river, and both day and night crews will be employed.

ACTOR COMES BACK.

John Sainpolis.

After several years' absence, John Sainpolis is again playing an engagement with the Baker Theatre company, this being his first week. His portrayal of the old pottery maker, the fruits of whose genius and labor have been stolen from him for years by a wealthy manufacturer, is one of the most artistic stage triumphs Portland theatre goes have ever seen. Although it was nearly six years ago when he first played it here, it is today one of the most widely discussed events known to the local stage. For the rest of the season special summer stock prices will prevail, as in the old stock days. There will be matinees of "The Middleman" Wednesday and Saturday. Next week Mr. Sainpolis will be seen in Robert Edison's famous college play, "Strongheart."

STUDENT COUNCIL PUNISHES THREE

Gives Out Names of O. A. C. Men Who Took Drink at Newport.

(Special Dispatch to The Journal.) Oregon Agricultural College, Corvallis, Or., May 23.—Upon the recommendation of the student council the college authorities have ordered three students placed on probation for the remainder of the college year and publicly given to the report of the council. This is punishment prescribed by the student council for the violation of the rule against the use of intoxicating liquors by students. The students named in the indictment are Melville Herren, Otto Sitton, and Harry Barrett.

They were charged with use of intoxicating liquors while at Newport on the occasion of the annual senior picnic. It is stated by the members of the council that they pleaded guilty and that because the liquor was not used by the students while in Corvallis or in attendance at the regular work at the institution, and because of the statement by the students that they did not know it was contrary to the rules to partake of liquor, in modest amounts while at Newport, the punishment was made as light as possible. Otto Sitton was a member of the football team last year and Herren was a strong candidate for the end position. These students are emphatic in their statement that they did not intend to violate the regulations and insist they thought there was no harm in drinking a glass of beer while at Newport.

It is stated that the student council has also recommended the indefinite suspension of two other students found guilty of a violation of the same rule while in Corvallis. This recommendation is now in the hands of President Keer.

This is the first time since the system of student self-government was inaugurated that the students have had to deal with violations of student regulations.

DELICIOUS GINGERBREAD. Children are great lovers of gingerbread, and grown folks, too, if it is of the rich "melt-in-the-mouth" kind. The following recipe by the famous Mrs. Mary J. Lincoln, is commended to those who delight in this delicacy: Mix two cups flour, one-half level teaspoon salt, one level teaspoon soda, one level tablespoon ginger; stir in one cup Cottole and one-half cup boiling water. Bake in shallow pan. If for dessert, bake in layers. Fill with whipped cream, flavored with lemon.

The little ones can eat this freely. Lard is indigestible, but Cottole makes food that agrees with the most delicate stomachs.
