

ARROW ROCK DAM TO COST \$5,000,000

Reclamation Service Plans to Finish Great Project Near Boise.

(Special Dispatch to The Journal.)
Boise, Idaho, May 24.—The expenditure of approximately \$5,000,000 a year, for five years, the building of 17 miles of standard gauge railroad up the Boise river, the founding of a town where 1000 men will be employed the greater part of the year, and lastly the building of the biggest dam yet undertaken by the reclamation service, is the plan mapped out and well underway by the government, within a few miles of this city.

The structure is to be located at a point on the Boise river known as Arrow Rock, 13 miles from Boise and which was found to be the most desirable location by government engineers who spent several months up the river, boating test holes and making measurements to find the best location for America's greatest dam for the storage of water.

Thus far the actual operations by the reclamation service have consisted of building a wagon road to the dam site, the installing of a saw mill on Cotton Wood creek and the sawing of lumber for building the big camp, work on which will begin within a few days.

The Arrow Rock dam when finished will be the highest dam in the world. It will be 240 feet high and will be built entirely of concrete. In building so high and so expensive a dam the government wished to be entirely sure of the geological foundation, so employed Professor W. O. Crosby, formerly of the Boston Institute of Technology, one of the famous geologists of the country to visit the dam site and make thorough investigations in regard to foundation and abutments. His report was entirely favorable.

The dam will cost between \$5,000,000 and \$6,000,000 and will occupy five or six years in building. During this period the government will employ between 600 and 700 men during the entire time.

HAYCREEK RANCH TO BE SOLD PIECEMEAL

(Special Dispatch to The Journal.)
Madras, Or., May 24.—Offering what can be said to be home for upwards of 1000 people, the famous Haycreek ranch, formerly owned by the Baldwin Sheep & Land company, 12 miles east of Madras has been placed on the market in tracts of 40 acres up. This tract, much of which is irrigated alfalfa land, contains 20,000 acres, and there is little doubt that it will be eagerly purchased by land seekers with means for investment, as embraced in this ranch is some of the cream of central Oregon real estate.

The Haycreek ranch has a world wide fame, and until a year or more ago when the property changed hands was operated as a blooded sheep ranch, carrying the largest flock of the finest Rambouillet sheep in the world. Shipments of these famous sheep have been made in large numbers to South Africa, Australia and other distant points where the sheep industry is carried on extensively. At times the Baldwin Sheep & Land company ran as high as 40,000 head of sheep, but in later years this number was reduced somewhat on account of the curtailment of government range.

Build Wagon Road

(Special Dispatch to The Journal.)
Boise, Idaho, May 24.—The county commissioners have made an appropriation of \$5000 as Ada county's share of the cost of building the Boise-Payette lakes wagon road for which an appropriation of \$20,000 in bonds was made by the last legislature.

The state appropriation was made on condition that \$5000 additional be raised to the \$10,000 given by the state. It was decided that an equitable division of this amount would give Boise county \$3000 as its share and Ada county \$2000 as its portion. The Boise county commissioners recently appropriated the \$3000 asked of that county and the appropriation made today gives assurance that the road will be built.

CANYON WAGON ROAD OPENS BIG COUNTRY

(Special Dispatch to The Journal.)
Madras, Or., May 24.—The wagon grade which has been under construction by the Oregon Trunk railway from Mecca to the tableland is about completed. With a length of three miles the heaviest grade is said to be 7 per cent, while the greater portion is about 3 or 4 per cent. The road is twelve feet wide, with extra wide places for teams to pass at every turn. Much of the road has been blasted out of solid rock and the expense of building it has been large. The road will be opened for public use during the next week and will thereafter be the route traveled from Madras to Warm-spring Agency. It will also give the north end farmers access to the station.

Profit on Cows

(Special Dispatch to The Journal.)
Eugene, Or., May 24.—James Humphrey, who resides near Irving, has four Jersey cows that are producing 40 pounds of butter a week or 150 pounds month, worth at present market price of nearly \$14 to the cow.

After Artesian Water

(Special Dispatch to The Journal.)
Lakewood, Or., May 24.—W. E. McCormack is having a well sunk on his place near Summer lake. Other wells in that vicinity have developed a strong flow of artesian water.

How to Succeed

During the last few years, conditions in all lines of business, even professional life, have changed so completely that every man is wakening up to the fact that in order to win success he must specialize and learn to do some one thing and do it well.

So it is with any article that is sold to the people. It must have genuine merit or no amount of advertising will maintain the demand for the article.

For many years we have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-root, the great Kidney, Liver and Bladder Remedy. From the very beginning the proprietors had so much confidence in it that they invited every one to test it, free of cost, before purchasing.

It is a physician's prescription.

They have on file thousands of letters received from former sufferers who are now enjoying good health as a result of its use.

Therefore if you wish first to try a sample bottle, address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper. They will gladly forward you a sample bottle by mail, absolutely free. Regular sizes for sale at all druggists—fifty cents and one dollar.

The Old Reliable Union Painless Dentist

OUT OF TOWN PEOPLE should remember that our force is so organized that we can do their entire crown, bridge and plate work in a day if necessary.

Full Set of Teeth\$5.00

Site of the Tabernacle at 8 o'clock a. m., Saturday, May 20. The top picture is the Tabernacle at 5 o'clock p. m., the same day.

at Mecca and provide a shorter haul for water to their ranches.

SPOKANE DAIRYMEN PLANT MUCH CORN

(Special Dispatch to The Journal.)
Rosalia, Wash., May 24.—About 500 acres of corn is being planted near Rosalia to be used as feed for the 3000 dairy cows kept by three or four large dairies, which supply milk to Spokane. Dairymen have proved that feeding corn silage gives better results than alfalfa. Corn can be raised here with dry farming methods, while alfalfa can not be grown successfully without irrigation. One dairyman has built six large silos which will hold 3500 tons of silage. Four hundred acres of corn will furnish sufficient silage to fill them. The silage system, in which the corn or alfalfa is cut in the field, stored and fed green to the cattle, is used by all dairymen, reserving only enough ground for the cattle to exercise on.

Brogan Has New School

(Special Dispatch to The Journal.)
Brogan, Or., May 24.—Brogan's new \$15,000 schoolhouse is about completed. The finishing touches in the way of plastering and wood work are being put on this week. The building is of brick and was erected by Contractor O. D. Loveless.

After Beef Barons

W. S. Kenyon, the new senator from Iowa, who will conduct the government's case against the Chicago beef barons. The last obstacle to the trial of the Chicago packers on criminal indictments was recently removed by Federal Judge Carpenter in Chicago, when he overruled a demurrer submitted by the packers and declared the indictments were valid.

Grow Hair on Bald Heads

Resorcin is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, also a powerful antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment and thus creates a clean and healthy condition of the scalp, which prevents the development of new germs. Pilocarpine is a well known agent for restoring the hair to its natural color, where the loss of color has been due to a disease. Yet it is not a coloring matter or dye.

The famous Rexall "98" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol and Pilocarpine, combined with pure alcohol because of its cleansing and antiseptic qualities. It makes the scalp healthy, nourishes the hair, revitalizes the roots, supplies hair nourishment and stimulates a new growth.

We want you to try a few bottles of Rexall "98" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy, and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "98" Hair Tonic will grow hair on bald heads, except of course where baldness has been of long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "98" Hair Tonic, and we have the right to assume that what it has done for hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies only at the Owl Drug Co., Inc., Cor. 7th and Washington Sts.

W. S. Kenyon, the new senator from Iowa, who will conduct the government's case against the Chicago beef barons.

NEW STRIKE RUNS \$600 IN FREE GOLD

Vein Optioned by Reddy and Associates 400 Feet Long, Two Wide, One Deep.

(Special Dispatch to The Journal.)
Gran Falls, Or., May 24.—The gold strike reported made by Henry Brasille and Jack Shade 10 miles below Salem, opposite the mouth of Six Mile creek, is estimated at \$600 a ton, the vein runs 12 inches deep and is two feet wide and 400 feet long. It shows a strongly defined quartz lead. All the specimens are free gold. This is to property optioned by Dr. J. F. Reddy, J. L. Logan, J. R. Harvey, W. R. Ripper and Joe Schmitt. The mine is about 50 miles southwest of Grants Pass. Great interest is being shown among mining men.

HIGH LINE DITCH TO WATER 5000 ACRES

(Special Dispatch to The Journal.)
Twin Falls, Idaho, May 24.—Twin Falls is to have another irrigation project, which, though small in extent, promises to be of much importance to that community. This is the project operated by the High Line Pumping company. Included in the project is a tract of 5000 acres of fine land originally included in the Twin Falls Land & Water company project, commonly known as the "South Side" project.

This land taken over by the pumping company is above the high line canal of the original company, and for that reason was not susceptible to irrigation by the original canal system, and under the new company it is to be watered by a pumping device.

The land will include the balance of the lands embraced in the original Twin Falls project which have not already been patented or applied for.

More Artesian Wells

(Special Dispatch to The Journal.)
Condon, Or., May 24.—H. H. Wilburn has purchased the big artesian well

BUILDINGS GO UP FOR DALLAS FAIR

Directors Begin Expenditure of \$4000 to Get Show Off Streets.

(Special Dispatch to The Journal.)
The Dallas, Or., May 24.—Plans have been laid by the directors of The Dallas Civic Park association to have all annual fair exhibits at the fair grounds instead of in the streets of the city as heretofore. With this end in view they started new structures on the grounds yesterday. Four thousand dollars will be spent on an exhibit building, 150x250 feet, four stock exhibit buildings, each 40x70 feet, officers' quarters, an enlarged grandstand, resurfacing the race course and beautifying the grounds. A bigger and better district fair is expected to be the result of these improvements, which will be completed by fall.

Cherries Late in Ripening.

(Special Dispatch to The Journal.)
The Dallas, Or., May 24.—Because of the continued cold weather, ripening of the cherries in this locality has been retarded. It is now thought that the contemplated exhibit of Dallas cherries in Portland during the Rose Festival will have to be dropped. However, fruit growers say a few days of warm weather will ripen the fruit.

O-W. Men Go Into Interior.

(Special Dispatch to The Journal.)
The Dallas, Or., May 24.—William McMurray, general passenger agent of the O-W. R. & N., and L. J. Spence, W. S. Bassinger, John M. Scott, R. B. Miller, A. S. Robinson, A. S. Lounsbury and H. A. Brandon, all officials of that road, were in The Dallas yesterday on their way to Madras in an automobile. The officials will make a two weeks' trip through central Oregon in their machine.

New Ferry to Grand Dallas.

(Special Dispatch to The Journal.)
The Dallas, Or., May 24.—A new passenger ferry will compete with the Western Queen, which runs between here and Grand Dallas. The new craft is the Eagle, a gasoline launch 40 feet long, with a 10 foot beam. Night and day service will be provided, while, in the past, night passengers for this city on the North Bank road were forced to wait till the next day.

Retail Liquor Men Banqueted.

(Special Dispatch to The Journal.)
The Dallas, Or., May 24.—The visiting retail liquor dealers of the association of Oregon, which met here Monday and Tuesday in the Knights of Pythias hall, were banqueted at the Hotel Dallas last night by the local men. Many liquor dealers from all

8,000,000 Gallon Reservoir Done.

(Special Dispatch to The Journal.)
The Dallas, Or., May 24.—The new concrete reservoir, which has been under construction for several months, was completed today, and water will be turned in soon. The new basin is 235 feet long, 144 feet wide and 20 feet deep and will hold about 8,000,000 gallons.

ANOTHER CAREY ACT PROJECT APPROVED

(Special Dispatch to The Journal.)
Boise, Idaho, May 24.—News comes from Washington that the Carey act lands in the Raft river project have been segregated.

This land is in Cassia county. It aggregates 41,933 acres and is described as one of the most promising projects in the state.

Another factor that adds to the importance of this particular project is that the Raft river outflow of the Oregon Short Line runs through the central portion of this tract. The company purchased a half section of state school lands at the recent auction sale in Burley and on this half section a townsite has already been blocked out. Work on the railroad is now under way and with the opening of the land mentioned it is predicted that there will be lively times in the southern part of Cassia county in the coming months.

DESCHUTES COUNTRY WILL SHIP WHEAT

(Special Dispatch to The Journal.)
Madras, Or., May 24.—The Balfour Guthrie company has under construction a warehouse on the Deschutes railway at the Madras depot, 100x150 feet, with 100 feet of additional platform. A wheat platform has also been constructed at Vanora station, where wheat is being received for shipment. Warehouse facilities will also be provided at Gateway and Mecca, the latter point being accessible from the plain by the completion of the three mile grade up the rim rocks made by the Oregon Trunk railway.

Not Salts, Oil or Pills But 'Cascarets'

No Odds How Sick Your Stomach! How Hard Your Head Aches or How Billious — Cascarets Make You Feel Great.

Cascarets act as a bowel tonic, not as an irritant. They are vegetable. Their action is natural. Their effect is the same as the effect of some foods. They are gentle; no gripping. They are pleasant; no dreading. They are convenient; no waiting.

One old way was castor oil. The effect was to grease the bowels, and for a single day. Oil never causes the bowel muscles to act. Other ways were pills, salts and cathartics. The effect was the same as pepper in the nostrils. They flooded the bowels with fluid. Those fluids were digestive juices. And the waste today means a lack tomorrow.

We knew that the method was wrong. That the after-effects only weakened the bowels. But we had no gentle laxative in the old days. So we waited as long as we could, then took a big dose of physic. The method today is to take one Cascaret at a time—just as soon as you need it. Then the bowels are always clean. They cost only 10 cents per box at any drug store.

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be as strong as his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

Mayer Martha Washington Comfort Shoes

You will welcome the extreme comfort found in Mayer Martha Washington Comfort Shoes. All painful and annoying foot troubles will vanish instantly when you wear these wonderful comfort shoes.

They help women to greater comfort in the discharge of their household duties and afford genuine foot ease to all women who are on their feet a great deal. And in addition to their marvelous comfort and relief to aching, sensitive, feverish, tender feet, they are neat, trim and stylish.

Mayer Martha Washington Comfort Shoes have no buttons or laces. You can slip them on or off at will. The elastic at the sides yields at every movement of the foot without squeezing or binding and insures a snug fit over the instep and around the ankle. Yet they are roomy and comfortable and give to the foot a neat, dressy appearance. You can get them in three heights and all sizes.

The best shoe merchants handle the genuine Mayer Martha Washington Comfort Shoes. If you can't find a dealer, write to us.

WARNING! Be sure you get the genuine. There are numerous imitations made to look like Mayer Martha Washington Comfort Shoes, but they lack the comfort, wearing qualities, fit and style. The real Mayer Martha Washington has the name "Martha Washington" and the Mayer Trade Mark stamped on the sole. Refuse any comfort shoes offered you without the Mayer name and Mayer Trade Mark.

See that the name "Martha Washington" and this Trade Mark are on the sole.
