**Vote 100 X Yes**

The Greater South Portland Bridge City Election June 5

Location: Meade Street-Woodward Avenue (Ellsworth Street)

**BECAUSE** Portland's rapid growth in population in the last decade demands better facilities for traffic and transportation. The same number of bridges are in existence now, with a three-fold increase of population.

**BECAUSE** The construction of the bridge would relieve the congestion of the existing overworked bridges.

**BECAUSE** Rapid transit is essential to the growth of any city.

**BECAUSE** Travel from the Fifth, Sixth and Seventh wards would be facilitated and 60,000 inhabitants would be able to get to their business interests and work without the delays now encountered.

**BECAUSE** Safety of life and property in the southwest and southeast sides demand it; the concentration of the fire apparatus of the Fifth, Sixth and Seventh wards would make it possible.

**BECAUSE** Of the protection of the harbor would not be endangered, it is the consensus of opinion that no more bridges can be built between the existing bridges and the now contemplated one. The proposed high bridge draw will seldom be opened. (Paid Adv.)

We will admit this sounds just a little bit "fishy," but it is a fact that hundreds of people SEE so much better and FEEL so much better that the first slight annoyance of wearing glasses is lost sight of in the perfect vision obtained and the relief from headache and constant strain on the eyes.
