Leaving Portland April 15, Captain handed his resignation to the police Scott reported at Fort Rosecrans, Cal., to the Thirteenth infantry, which was later stationed at Lakeside in the El Kajon valley. This camp was six miles from the border. Speaking of the battle of Tla Juana, Captain Scott says: "Word had come up that the insurrectos expected to charge the federal troops May 9. A number of the United States army men gathered on the American side with field glasses to see it.

They stood their ground and fought the insurrectos until about 2 o'clock in the afternoon, when they were captured. General Pryce allowed Lieutenant Terroe to go across the line to the American side, where he was given medical attention and is now being cared for at Fort Rosecrans. Wounded Six Times,

the town all the time, and as soon as the insurrectos had taken the lieutenant and his 13 men, the red insurrecto flag was run up, and the federal flag hauled down.

"Early on the morning of May 11 we crossed the line under the red cross flag and entered Tia Juana. General Pryce and his men were in charge. They had looted everything, and allowed everyone else to do the same until about noon, when they discovered they could charge sightseers \$1 for going into a store with the privilege of taking any thing they wished. San Diego who went over with us, and they rendered such service to injured men as they could. All the time during the last day of the battle, wounded men were straggling back across the lines to us, and the Americans gave them medical aid. What few people remained in the town were killed and wounded. The invaders showed no sense of honor or feeling in dealing with such persons. I counted 19 federals lying dead in one trench, and there were many others scattered around o in different places. There was a little boy about 4 years old lying in the street with the top of his head shot away. He apparently had started to run across the street, when he was shot by the insurrectos. There were a number of women killed, but their bodies had been carried into an old church. General Pryce of the insurrectos established his headquarters there and is still in charge. "The insurrectos are largely composed of refugees and white persons who went across the line to-help the revolutionists. In each company there are only eight or ten Mexicans, the rest are negroes and white men. There are only a very few negroes, however. All the instructions and orders to the insurrectos are given in English, and the day I left Tia Juana, General Pryce swore in four white men who had come across from California. Such men are continually slipping over and joining the revolutionists. The general idea crop of cherries will also be unusually prevails that these revolutionists want light. (Salem Bureau of The Journal.) Salem, Or., June 1.—After six weeks of searching investigations of the charges against Superintendent E. L. Chalcraft of the Chemawa Indian school, E. B. Holcomb, special government agent, left last night, He will report his findings to the department and the evidence will be weighed and the case decided then. Since the special agent took charge of the school a thorough invoice of all goods has been made and the books experted. Investigations of the other charges have been equally thorough. All the parties concerned are waiting anxiously the action of the department.

Five charges were filed against Su perintendent Chalcraft early in April, which were in substance: Immoral practices among students, girls tween 15 and 20 years old whipped severely, students required to whip each other, failure to follow religious regulations and students' funds not carried on superintendent's official accounts Of all of these charges Superintendent Chalcraft published at the time a full explanation and denial. H. R. Higgins, special agent, is still in charge of institution and will remain until the affair is completely settled.

IN OREGON LIBRARIES

(Salem Bureau of The Journal.) Salem, Or., June 1.—That Carnegie is ow interested in new library buildings in Oregon to the tune of \$185,000 was the statement of Miss Cornella Marvin of the state library commission, who either just planned or in the early stages of construction, are: Medford, \$20,000; Newberg, \$10,000; Albany, \$12,500; Salem, \$25,-500; Union, \$5000, and three in Portland, \$105,000.

Upon returning to the state house, Miss Marvin found the new \$3000 order of books, for which an appropriation was made at the last legislature, had arrived.
