

WORK ON CANAL IS PROGRESSING

Cello Project Now Under Direct Supervision of Government Engineers.

About 700 men are employed on the Cello canal work in charge of Major J. J. Morrow and work is being done all along the canal. Construction of the locks will begin in the near future, the designs for the iron gates having been completed a few days ago by the government engineers in charge of that work.

The entire project is now being done under the direct supervision of the government engineers, the last contract work having been completed a few weeks ago. At present and henceforth the work will be done by day labor hired by the government engineers. Major Morrow stated this morning that the canal can be completed in three years if the necessary funds are made available so that work may be carried on continuously. At present about \$700,000 is available and this amount will be available until July of next year. By that time the department will have asked for another million dollars which it is hoped will be granted. Major Morrow says \$1,200,000 could well be expended next year. If this amount should be granted and about \$1,000,000 the year following, then the total cost of the big waterway would be covered and within three years from today it could be open for navigation.

The opening of the Cello canal will be of tremendous importance to the great inland empire, as it will give an open river with water competition rates far into the interior of the state of Washington and eventually it is hoped as far north as the British Columbia line and still farther, the Dominion government planning improvements on its side of the line.

BURKE FUNERAL HELD; BURIAL AT MT. CALVARY

The body of the late Brigadier-General Daniel W. Burke was laid to rest yesterday morning in Mount Calvary cemetery following a solemn pontifical mass at St. Mary's Pro-Cathedral. The ceremony was performed by Right Rev. Archbishop Christie and Rev. Father H. J. McDevitt. The deacon of honor was Father John Waters of Astoria; deacon of mass, Father Verwilghen of Vancouver; sub-deacon, Father Edwin O'Hara, and Father W. G. Delortimer. Father George Thompson was master of ceremonies. Professor F. W. Goodrich was at the organ.

EIGHTH GRADE VICTIMS GET ANOTHER CHANCE

Nyssa, Or., June 1.—County Superintendent B. L. Milligan has given the eighth grade pupils of this county a chance to make good in the studies in which they failed last examination, May 11, 13 and 15. Of 72 pupils who took the examination only 13 were successful, of whom Nyssa had but one, Vale three, Ontario four, the rest being from various rural schools. The greatest number of failures was in geography, 21. Ten from Nyssa will have to write.

CHICAGO, SHORT OF WATER, IS MAKING THE BREWERS RICH

30,000 Barrels of Beer a Day Drunk During Hot Days of May. Water Famine Is Serious; General Warning Is Sent Out.

Chicago, June 1.—No other city in the world, not even Berlin, can show an equal of Chicago's beer drinking record, according to data in the hands of members of the vice commission. About one-half the population does all the beer drinking, but that half has consumed about 1,000,000 gallons daily in the phenomenally hot weather which has prevailed during May.

This is figured from the fact that there are 7000 saloons and that each saloon sells on an average three barrels of beer per day in moderate weather. During the days of high temperature the beer sales have been more than 30,000 barrels a day. Recently a careful estimate was made by those familiar with the sales of these saloons. Some were put down for 15 to 25 barrels per day and some for only one.

YOUTH LOSES LEGS AND DYING, CALLS MOTHER

(Special Dispatch to The Journal.) Kalama, Wash., June 1.—Without friends and calling for his mother, William Lovelle, who says his home is in Cleveland, Ohio, lies fatally injured at Kalama. Lovelle was trying to steal a ride on a Northern Pacific freight train and fell under and had both legs crushed so that an amputation will be necessary. He has also a bad fracture of the right hand, which the doctors say will probably have to be amputated. Lovelle is about 18 years old and the doctors say he will die. He was given first aid by local physicians and later turned over to the county on account of having no funds and no acquaintances.

RECIPROCITY BEFORE COMMITTEE WEDNESDAY

Washington, June 1.—The senate finance committee decided yesterday afternoon to vote on the reciprocity bill Wednesday. It is expected that it will be sent to the senate without recommendation.

War College to Open.

Newport, R. I., June 1.—The naval war college will open here this week. Preparations have been made for courses of special instruction in the details of naval warfare. Early next month Admiral Dewey will come here with the general naval board, now in Washington, and take command of operations on the sound.

Chicago, June 1.—Notwithstanding the \$25,000,000 gallons pumped daily, the water famine in Chicago has become serious, the park sprinkling will be shut down, the park sprinkling will be restricted (as well as that of citizens) and in several sections during some hours of the day no water at all flows from the faucets. No relief is in sight until late in August when a new pumping plant which will add 25,000,000 gallons daily will be ready. Even with this addition some portions of the city will be short of water all the year.

Summer broke upon the city suddenly this year and the water department was unprepared. It has issued a general warning to Chicago people: "Obey the sprinkling regulations, and do not waste water in bath rooms, laundries or kitchens." During 1909 the water pumped for the city's use was 175,000,000 gallons. The total value of the water works property now is approximately \$60,000,000 but the expenditure of nearly one-third more is necessary to satisfy the thirsts and supply water for the baths and lawns of the city.

GREAT NORTHERN MEN VISIT CROOK TOWNS

(Special Dispatch to The Journal.) Redmond, Or., June 1.—The following party of Great Northern railway officials arrived in Redmond Sunday night: E. C. Leedy, general immigration agent, St. Paul; F. W. Graham, western industrial and immigration agent, Portland; O. A. Atwood, immigration agent, St. Paul; W. E. French, manager of the Oregon exhibit cars of the Great Northern railroad; W. C. Wilkes, assistant general freight and passenger agent, Portland; J. T. Hardy, traveling freight and passenger agent, Portland, and L. Griewood, district engineer. The immigration officials were on a tour of inspection of this section to note the progress since their visit here a year ago, and to gather information to be used in exploiting further the central part of the state in the company's literature that is widely circulated in the east. The party was surprised to see the great change in Redmond in building and municipal improvements. One of the principal things that appealed to them was the increased settlement on the irrigated land tributary to this city the past few months. W. C. Wilkes, assistant freight and passenger agent, said the freight and passenger business of the Oregon Trunk road to and from this section to Portland continued satisfactory and showed no signs of decreasing. The party remained here until Monday forenoon gathering data and looking the country over. From here they went to Sisters and Laidlaw.

VANCOUVER UNIONS INDORSE STRIKE PLAN

(United Press Leased Wire.) Vancouver, B. C., June 1.—At the mass meeting of the street car employees last night, held in the Odd Fellows hall, Mount Pleasant men, after a lengthy discussion which lasted from midnight until after 3 o'clock, indorsed the action of the Trades and Labor Council in regard to the proposed general strike. They also decided to take a referendum among themselves as to whether their own union would join in the proposed strike.

After a long meeting last night the electrical workers of the city decided to strike and in the event of a general strike being called on Monday they will abide by any decision that the Trades and Labor Council may make. The electrical workers state that they have been endeavoring to negotiate with the electrical contractors of the city for the last three months and that their advances have been ignored.

(United Press Leased Wire.) Columbia, S. C., June 1.—Elaborate preparations have been made by the editors of this state for the reception of Governor Woodrow Wilson of New Jersey, who is to address them tomorrow.

(United Press Leased Wire.) Paris, June 1.—Henry Farman has decided to establish a branch of his aeroplane business in America under the direction of Alfred Lawson and Baron Ladislav O'Reay. Preparations for the new factory are under way but the site has not yet been made known.
