MEAGER REPORTS SAY DEATH LIST IS LARGE

Fear Felt for South and West; All Communication Is Cut Off.

(United Press Leased Wire.) Mexico City, June 7.—Mexico City was visited by a severe series of earthquake shocks just before dawn this morning. Nearly every building of any size in the city was either razed or damaged.

Twelve bodies have so far been recovered from the ruins. Many persons are missing. It is believed that the death list will eventually reach 100.

Nearly every public building in the city was damaged and some of them were demolished.

In the poorer section of the city the ancient buildings crumbled and fell in, the inmates being buried. Hundreds were injured in this way.

In many cases the front walls fell outward into the streets, leaving the remainder of the building standing, adding to the desolate appearance of the wrecked city.

The Mexican Central railway roundhouse, the city barracks and the city prison were destroyed.

The walls of the national palace were opened by great cracks.

In the business section the damage was heavy. The plateglass windows of the principal shops were shattered and the cracked and twisted pavements were strewn with glass. The lighting plant was put out of commission.

Police and others are working together in policing the city. They are patrolling the principal streets and have strict orders to prevent looting.

Temporary hospitals have been opened to care for the injured.

Mexico City, Mexico, June 7.—Thousands of persons who had flocked here to participate in the monster demonstration of welcome to Francisco I. Madero Jr., revolutionary leader, were thrown into a panic this morning when the earthquake rocked the city.

It is feared that great loss of life occurred in the districts just south and west of the capital.
