The swimming carnival which will proceed the Human Rosebud parade Friday afternoon promises to prove one of the most attractive events of the Rose Festival. "AM I MY BROTHER'S KEEPER?"

This celebrated picture by J. C. Dollman has been presented to the board of education of New York by Alfred Mosely. The painting represents a scene on the Thames embankment, London. Three figures seated at one end of a bench are a family which, unable to earn a livelihood in the country, make their way to the city. A fourth figure is a discharged soldier with a war medal on his breast, which he refuses to pawn even at the expense of suffering the exposure of a bitter winter night. At the other end of the bench are three unskilled workers without money or occupation. This picture tells its own story better than words ever could.

STANLEY HINTS AT OTHER VIOLATIONS BY STEEL COMBINE

(Continued From Page One.)
Trust has violated other laws as well as the Sherman law. I invite the department's attention to the freight charges on the lines controlled by the steel trust in the Superior ore ranges." He made a statement reviewing the numerous efforts of the committee to "secure the information about the steel trust now in the hands of the department of justice and the bureau of corporations," concluding: "I am delighted to know that whatever 'state reasons' may have existed that prevented the publication of this information no longer exist and that the department of justice and the bureau of corporations, which have gathered this information for the last four or five years, are at last ready to take us into their confidence and that the courts of justice at last will deal with the steel corporation as with smaller concerns." Congressman Littleton began an exhaustive cross examination of E. H. Gary, chairman of the board of direc-

tors of the United States Steel corporation.
Questions Gary Sharply. Representative Littleton sharply interrogated Gary regarding the power and methods of J. Pierpont Morgan during the period when the steel trust absorbed the Tennessee Coal and Iron company. "Doesn't Morgan control most of the banks in New York?" asked Littleton. "I do not believe that is true, but he owns several banks," replied Gary. Gary admitted that Morgan could have forced the sale of the Tennessee Coal & Iron company at any time through his control of the banks which held the stock as collateral. "Anyone of Morgan's courage, wealth, strength and character," added Gary, "can do much harm as well as good in banking circles. I believe that with power and privilege there always is involved certain responsibility and obligation. That is one reason why I say that this country must come to the point where there is cooperation between the government and the individual, where the government while recognizing the rights of the individual, must exercise strict control." Robert C. Hall, a Pittsburg stock

broker, interrupted Gary's testimony by charging that the steel corporation was negotiating what was virtually a monopoly of the coal in the Pittsburg field, and quoted Senator Oliver, of Pennsylvania as authority for the statement. "Morgan's chief strength lies in his willingness to risk his own fortune," continued Gary. "I believe that the Sherman law is inadequate to carry out the purpose of its enactment. We should have additional regulative legislation." Gary declared that he did not believe in unbridled license to use wealth in all directions absolutely uncontrolled. Gary admitted that the steel corporation practically had completed a deal for the purchase of 17,000 acres of coal land in the Pittsburg district, from the Pittsburg Coal company and the consolidated Coal and Coke company, but added that there was much outside of the trust's holdings. The steel directors said that the United States Steel corporation owns 40,000 acres of coal lands in the Connellsville field, leaving only 28,000 acres owned independently. It also leases, he said, 50,000 acres in the Pocahontas field. Gary denied that the Pittsburg and Monongahela companies are preparing to enter the trust.

PALACE LAUNDRY IS VICTIM OF ROBBERS

Safe Is Blown Open While Festival Crowds Jam the Down Town Streets.

Safe crackers last night blew open the steel strong box in the office of the Palace laundry, East Tenth and East Everett streets, and stole \$220, the day's receipts, and completely wrecking the safe and part of the office furniture, and damaging several bundles of hotel laundry which they had packed around the safe to muffle the sound of the explosion. Nitro-glycerine was used to force the doors. An extra large shot was injected into the cracks and into the hole where the combination was knocked off. The robbery was discovered this morning when employees opened the office. Patrolman Litherland gave police headquarters the first intimation of the affair. Detectives Coleman and Snow were assigned to the case. Entrance to the building was made by prying open a window on the side of the building with a "jimmy." From foot-prints found under the window it is believed that three men did the job. The sound of the explosion was heard by Mrs. Will Farrell, 73 East Tenth street north, but until this morning she believed it to be a prank of carnival celebrators. The men timed their crime perfectly—just when the crowds on the streets were thickest and while the police were busy engaged handling the crowds enjoying the festival or at the big fire at King and Washington streets.

The complete unofficial vote for the six candidates is as follows:
James Maguire 1185, J. T. Ellis 1163, Clinton A. Ambruss 1058, D. G. Stephens 811, Frank B. Harrison 595, Will G. Steel 232.
