

# INSANITY PLEA OF MAN WHO BEAT HIS SISTER TO DEATH

## Richard W. Allnutt to Go on Trial for Murder Monday; His Aged Mother, Whom He Assaulted, Stands by Him.

(Special Dispatch to The Journal.)  
Rockville, Md. June 8.—In the circuit court here next Monday Richard W. Allnutt will be placed on trial for the alleged murder of his sister, Mrs. Valeria A. Veira. He is also charged with having brutally assaulted his 50-year-old mother, Mrs. Margaret Allnutt, and Miss Jane Rawlings at the same time. Much interest is evinced in the case in view of the extreme atrocity of the deeds of which the young man is accused and the prominence of the family to which he belongs.

The killing of Mrs. Veira and the attacks on the other women occurred on March 14 last at the home of Mrs. Margaret Allnutt near Dawsonville, this county. Several months before, Richard W. Allnutt had married, and after his marriage he and his wife had boarded at the home of his brother, Lawrence Allnutt, at Vancouver.

### Differences Come Up.

For some time prior to the tragedy differences had existed between Richard W. Allnutt and his mother and sister. The mother, her widowed daughter, Mrs. Veira, 59 years old, and Miss Rawlings, 60 years old, occupied the home. Richard wished to bring his wife there and asked for one half of the house. To this the women would not agree. They thought the house was not large enough to accommodate all. Richard, however, took a different view of the matter, and brooded over his fancied wrong.

Although the favorite brother in the eyes of Mrs. Veira, much of Allnutt's animosity was directed against her, and when he went to the family home on the morning of the tragedy, and met her in the dining room, he was seized with a mania to slay.

### Used Pitchfork.

The man is alleged to have grabbed the handle of a pitchfork and viciously attacked his sister, his aged mother and the latter's old friend and companion, Miss Rawlings, who happened to be in the room. Mrs. Allnutt was crushed, her face was battered and one arm was broken. She died that night. Mrs. Allnutt and Miss Rawlings were also painfully cut and bruised about the head and face, and for a week or more their condition was critical, but they finally recovered.

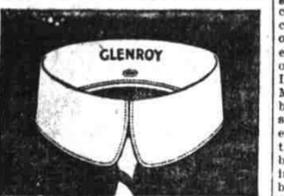

Allnutt fled from the scene of the crime to the home of his brother, where he was arrested later in the day and brought to Rockville, where he has since been confined in jail.

### Makes Insanity Plea.

The accused in 44 years old and a son of the late Nathan W. Allnutt, one of the leading lawyers of this section, and is the brother of Henry C. Allnutt, for many years register of wills of the county. At the coming trial every effort will be made to prove that Richard was temporarily insane at the time he is alleged to have murdered his sister. During his confinement he has suffered from extreme nervousness and is said to be on the verge of a complete breakdown. Several times he has been examined by noted alienists.

Allnutt's bride of a few months has remained steadfast in her loyalty to him. His brother and other members of his family are also standing by him in his troubles. His aged mother, who is still suffering from the shock of the murderous attack made upon her, displays the greatest compassion for her son, and it is expected she will do all in her power to have him declared insane.

# TASKS SCHOOL PATRONS TO ATTEND MEETING

Supplementing the appeal of Superintendent Alderman to patrons of the schools to take more interest in educational affairs that vitally concern them, the members of the National Education association joint committee for Oregon are distributing literature setting forth the needs of the cooperation of the patrons of the schools.

The notice to patrons sent out by the superintendent of schools follows:  
"Oregon School Patrons: May I not ask for your cooperation to the extent of giving a part of one day in the year to a consideration of public school questions? We are planning this year, in the state of Oregon, to make the annual school meeting day a great day by having as many of our people as possible attend the meeting and learn conditions of our school plants. We expect to have an annual picnic on this day in many school districts, and we hope that every one interested in the district school will be present and help the school officers in making this event a great success."

Please take the time on the morning of that date to go over to the schoolhouse and look over the school grounds and school buildings. See if you can help improve them. If they do not, may I ask you to show your appreciation to the members of the school board who brought about these conditions without pay or without thanks? Some of our school buildings are very unattractive, and our school grounds are what they should be until we have the united support of all our school patrons.

"Yours for the best schools possible."

His prowess netted him nine under arrests five of whom were Chinese, and \$200 in cash. To add a touch of humor to the incident, "Dock," one of the Chinamen, had a goody stick in front of him when the sheriff touched him on the nose. "Are you gambling?" # LOGGERS TO HOLD ANNUAL CONGRESS

## Question Important to Industry on Coast Up at Meeting at Vancouver.

Loggers in the Columbia river basin will go to Vancouver, B. C., in a special car to attend the third annual logging congress to be held there June 22-23. Signatures for reservations are now being sent in to Secretary A. B. Wastell and it is believed that the car will be well filled.

The congress begins at 1 o'clock on the morning of June 22 and will continue that day and the next, closing in the evening with a banquet. The special car in which the loggers from this district will travel leaves here at 5 p. m., June 21, and arrives at Vancouver at 7:30 a. m., June 22.

In view of the peculiar condition of the logging industry in the Pacific northwest at present it is expected that the coming congress will be one of the most important ever held. Many questions will in all probability be brought up that heretofore have not appeared of great moment.

The unsatisfactory condition of the lumber market for the past several months has affected the logging industry to the extent that the millmen have appealed for cheaper logs and these appeals have been met to a certain extent, but as far as the Columbia river district is concerned there has been no alarming surplus of logs in this district for the past year, the output of the camps having been curtailed to commensurate with the demand from the mills.

On Puget sound conditions have been somewhat different in that the loggers there for awhile were overstocked with logs and confronted with the danger of having them deteriorate in the brackish water of the sound. The fresh water of the Columbia river or tributaries of the other hand has no injurious effect on logs and for that reason loggers in this district are in better position to hold their surplus than are the loggers on the sound or Grays harbor.

Many interesting papers will be read at the coming congress and these will be discussed. Last year the congress was held at Portland. The first congress was held at Seattle at the time of the A. T. exposition.

The Waldo Hall staff just issued a booklet of information regarding the dormitory, its advantages and accommodations, and the house rules for the coming year, so that parents may see what care will be given their daughters should they elect to live in Waldo Hall rather than in private houses. The expense is less than in outside rooms, and the house regulations insure regular hours for study, rest, and recreation. There are social functions provided for the dormitory dwellers, too, that are not open to the outside residents.

## Brazilian Oranges in New York.

(United Press Leased Wire.)  
New York, June 8.—Among fruit men here today it is generally agreed that the experiment of shipping oranges to the United States from Brazil, a California product in this market has proved a failure. One hundred boxes which arrived in fair condition after 14 days in transit were sold for \$1 per box and had to be peddled by push cart men, mostly on the lower east side.

In the same consignment were 120 packages of grapes resembling the California toky. They were condemned by the health department, being too watery for transportation from such a distance.

# LEBANON CITIZENS MAY BUILD CANNERY

(Special Dispatch to The Journal.)  
Lebanon, Or., June 8.—A mass meeting will be held in this city Friday evening to consider the matter of establishing a cannery. Kenneth Gordon, who recently purchased the Brownsville cannery, will be present and will make an address. Honorable J. D. Lee and C. C. Chapman of the Portland Commercial club and prominent railroad officials are expected to be present. Mr. Gordon is manager of several canneries in the northwest which are unable to supply the demand for their goods.

A large cannery would not only afford a market for all the fruits and vegetables that could be raised hereabouts, but would furnish employment to many people and would thus be an important factor in adding to the prosperity of the community.

## Beautiful Complexion Easy to Produce

(From The Fashion Designer.)  
"Half the energy and care devoted to her complexion by the average woman, is misdirected and misapplied. Greasy face creams and pore clogging powders never will give lasting beauty to the skin."

"The complexions of Japanese women are the wonder and envy of foreign women traveling in the Orient. Yet the Japanese beauty devotes less than five minutes a day to her complexion. All she does is gently massage her face, neck and arms daily with a solution made by dissolving a small original package of mayatone in eight ounces of witch hazel."

"This harmless treatment produces and preserves that smooth and satiny skin, so clear and soft and beautiful, delicately colored and always free from roughness, redness, wrinkles and hairs. Any woman with the same treatment can achieve the same results."
