VOL. X. NO. 86. PORTLAND, OREGON, TUESDAY EVENING, JUNE 13, 1911—TWENTY PAGES. PRICE TWO CENTS

COFFIN NAILS MRS. LOVE'S DELIGHT, IS HUSBAND'S STORY

Breakfast, Luncheon, Many Cigarettes in Bed, is Her Habit, Love Tells Referee in Divorce Case at Baker, Or.

SLEEPING POWDERS HELP WHILE AWAY HER TIME

Struggle for 3-Year-Old Muriel Gets Touches of Bitterness.

(Special Dispatch to The Journal.)
Baker, Or., June 13.—With perfect self-possession and calmly answering the questions of his own and Mrs. Love's attorneys, except when the matter of the caring for his little child was brought up, when he had a hard time keeping back the tears for a few moments Sidney C. Love was on the stand all the morning in the hearing of his suit for divorce against Marjorie Burnes-Love, which began today before Referee Charles P. Murphy.

Mrs. Love's attorneys announced that a supplement to her original answer to his complaint had been filed. Some additional allegations are contained.

The questioning of the witness was along the lines of his business affairs prior to and after his marriage to the defendant, especially his financial affairs when they were domiciled at Pacific, England, where the quarrel which resulted in their separation took place.

When the matter of his wife's fitness to care for the child during their residence in England and her habits during that time came up, Love said: "She gave the child no care at all."

Mrs. Love was energetic.

"She never got up for breakfast and seldom for luncheon and lay in bed until 1 or 2 o'clock every day smoking cigarettes. She smoked 25 or 40 a day. She was addicted to the use of sleeping powders continuously. What they were composed of I do not know."

Concerning a letter alleged by the plaintiff to have been written to his mother by the defendant during her illness after they were married, Love testified:

"As far as I know the letter has been destroyed. I wrote the mother, telling her about our married life and among other things she said concerning her own uselessness, 'I don't see why

COMES TO BAKER, OR., TO FIGHT FOR CHILD

Mrs. Marjorie C. Love, characterized by Sir Philip Burnes-Jones as the most beautiful woman in America, now at Baker to contest her husband's divorce suit, which calls also for custody of Muriel Love, aged 3.

SLAIN WOMAN'S FATHER OFFERS \$1000 REWARD

T. F. Cowing Aids the Cause Started by Journal, Bringing Fund Raised in This City Up to \$2820.

NO TANGIBLE CLUE TO MURDERER YET FOUND

Sheriff Maas Thinks Butcherer of Hill Family May Be in Portland.

Reward Fund.

Total	\$2820

Thomas F. Cowing, father of Ruth Cowing Hill, who with her two children and her husband was murdered last Friday morning while asleep in their home at Ardenwald, has added \$1000 to the fund being collected by The Journal for information leading to the arrest and for the capture of the murderer.

Mr. Cowing, in adding his contribution to The Journal's fund, said that he believed the amount of the reward might induce some one to give the information which would lead to the arrest of the murderer of his daughter and his grandchildren.

The D. P. Thompson company also added \$50 to the fund today. This, with contributions previously announced, makes a total of \$2820, received up to this afternoon.

Others wishing to subscribe to the fund for the arrest of the murderer of Mr. Hill, his wife and her two little children are requested to send the amount of their donations to The Journal.

BILL BYRD, SPOKANE TRIPLE MURDERER

Byrd killed G. W. Whipple, with whose wife he was in love; John Mansker, a former employer, and Justice of the Peace C. W. Meisner of Deshman, Wash., member of a pursuing posse. This photograph was taken especially for The Journal by a Spokane photographer who went out to meet Byrd and his captors on the road to the Spokane jail.

DIRECT ELECTION RESOLUTION WINS, WITH AMENDMENT

Although Repugnant, Bristow Measure Giving Supervision to Federal Government Will Be Accepted by Democrats.

THEIR HOPE LIES WITH SOUTHERN LEGISLATURES

Solid South Expected to Repudiate Giving of Control to Government.

(Washington Bureau of The Journal.)
Washington, June 13.—The house Democrats will accept the popular election of senators resolution as it was passed through the senate with the Bristow amendment. They will do this notwithstanding the fact that the Bristow amendment is repugnant to them, giving as it does control of senatorial elections to the federal government, but they fear to repudiate it because the popular election of senators is so insistently demanded by the country.

Some of them, however, expect the southern states' legislatures to repudiate it on account of the Bristow amendment and in this they are joined by most of the prophets here who believe that enough states will repudiate it to prevent its getting into the constitution.

(Special Dispatch to The Journal.)
Washington, June 13.—By a vote of 64 to 24 the senate last night passed the Bristow resolution amending the constitution to provide for the direct election of United States senators.

The Bristow resolution was adopted by a vote of 45 to 44. The vote practically cast the deciding vote. The Bristow resolution gives the federal government supervision of senatorial elections.

Stimulish Is Likely.

That a sharp skirmish is likely when the amended resolution for the direct election of United States senators, as adopted, goes to conference, is the opinion of many here. Party politics, it is asserted, will take a prominent part in the proceedings, but most politicians here believe that the result of the conference will be that the senate amendment will be tacked to the resolution that the state legislatures ratify.

The final attempt to inject party politics into the proposition will come, it is believed, when legislatures of the southern states voice Democratic objection to it.

PORTLAND FACES GREATEST WATER SHORTAGE CITY HAS EVER KNOWN; SPRINKLING MAY BE DISCONTINUED

Portland faces the greatest water shortage it has ever known. The first really hot day of the year fell Saturday and since then the reservoirs that ordinarily hold 60,000,000 gallons have been steadily falling every day. Officials of both the water and health department have been buried under a continuous stream of complaints by letter, telephone and in person. The clamor of the people from all quarters of the city has become incessant, and the thermometer has not gone anywhere near the summer limit.

The water board will meet this afternoon and consider ways and means of relieving the situation. It may be found necessary to discontinue the sprinkling of streets, and laws until the new pipe line from Bull Run is completed.

"There is a shortage of water now at all the high points in the city and there will be an unusual shortage before the middle of summer," declared Superintendent Dodge of the water department today. "The cause of it is, as usual, the approach of hot weather and the almost invariable accompaniment of that season with the waste of millions of gallons of water."

The only present relief in sight for water consumers is to stop this waste. Let everybody be as conservative as possible and we will get along. Permanent relief cannot be obtained until after the completion of the new pipe line.

The pipe line is now about 80 per cent completed, and should be finished by July 1. It will probably be August 1, however, before water can be turned on in the second great carrier from source of supply under Mount Hood. There is a heavy penalty for delay in the contract, but the contractor is entitled to some extension of time on account of unfavorable spring weather. It is said that the work on the line has been pushed with electrical rapidity during the past few weeks of good weather, and it is the hope of the contractor to turn the pipe line over to the city by the middle of July. The officials of the water department are not so optimistic. They, however, believe the new line will be available by August 1.

Reservoirs Fall Rapidly.

The reservoirs on Mt. Tabor have not yet been turned over to the city by the contractors, although Manager Simons of the Pacific Bridge Co. said today that the upper reservoir was completed two months ago and is ready for the acceptance of the city.

Even if both the new reservoirs were available, however, they would probably not affect the present situation, as the city is now using every drop of the 22,800,000 gallons poured into the old reservoirs by the old pipe line and the reservoirs continue to fall, day by day.

ELECTRIC STORM, FOURTH IN WEEK, SCATTERS DEATH

Atlantic Seaboard Swept by Cyclone That Kills Many and Does Great Damage to Property.

(United Press Leased Wire.)
New York, June 13.—The Atlantic coast from Norfolk to New England was visited by a terrific electric storm last night and early today, the fourth experienced in New York since last Saturday night. Wires are down in many places, and several days must elapse before the total destruction of life and property will be known. The dead are estimated today at 75 and property damage in Delaware, Maryland and the Virginia peninsula alone is more than half a million dollars.

At Hightstown, N. J., while commencement exercises were in progress, lightning struck the building and set fire to the steeple. Hundreds of persons were panic stricken and women and children were trampled upon in the rush to leave the building.

Three persons were killed at Allentown, Pa., and three are dead in Philadelphia. As a result of the swamping of minor craft, near Norfolk, Virginia, 15 persons are missing and believed to have been drowned.

Washington and Baltimore are out of direct wire communication with the outside world. Messages received over a circuitous route from Baltimore show that enormous hailstones fell there, breaking many windows and causing a panic in the negro quarter.

Along the James River near Newport News, many small craft were swamped. No bodies have yet been recovered and it is uncertain how many lives were lost.

Capital Hard Hit.

Washington, June 13.—One man was electrocuted, others were injured and heavy damage was done here by the storm that swept over the city last night. Today Washington is almost isolated. No direct New York wires are working and a few shaky telegraph lines routed in round about ways are in operation.

The damage in the parks was particularly heavy.

WOMAN FRIEND OF MRS. SCHENK HELD IN PARALLEL CASE

Delaware, Ohio, Woman Is Charged With Attempting to Poison Her Step-Daughter Because of Jealousy.

(United Press Leased Wire.)
Delaware, Ohio, June 13.—Mrs. Jesse R. Way-Henkle, arrested for the alleged poisoning of her stepdaughter, Marie Henkle, 21, is out under bond today and protests her innocence of a charge which, in many ways, parallels the Schenk case in Wheeling, W. Va.

Mrs. Henkle is a friend of Mrs. Laura Farnsworth Schenk, recently tried for the alleged poisoning of her millionaire husband.

Marie Henkle, the pretty victim of the alleged poisoning, was a favorite with Ohio's governor when they were students here. A month ago she returned from a visit to Athens, Ohio, suffering from a nervous breakdown. Her stepmother attended her. Recently she was taken to the Jane Case hospital and an hour later physicians pumped two drachms of arsenic from her stomach.

Only the fact that such a large quantity of the poison had been given her saved her life, physicians say.

Detectives who investigated assert that the poison was administered in a glass of grape juice which her stepmother gave her the night before she was taken to the hospital.

Girl Was Afraid.

"From the moment I was taken ill I was afraid," said Miss Henkle. "Mrs. Henkle seemed jealous of my father's attention to me. After I had been sick a few days I noticed that things tasted peculiarly. In the middle of the night I frequently woke up with a start to see Mrs. Henkle clad in her nightgown, standing above me. Then came an awful day, when I thought I was going to die. Papa's wife entered the room and related an awful dream she had had during the night. She told me how she had seen a white bear stop in front of the house, six men walk up the stairs and carry me out. I was too weak to protest and was forced to endure it."

E. F. Atkinson, a wealthy merchant of Coldwell, Ohio, Mrs. Henkle's father, furnished \$5000 bonds for her release.

Arrested for Arson.

Mrs. Henkle was the proprietor of a (Continued on Page Five.)

REVOLVER DUEL FOUGHT BY BURGLAR AND PATROLMAN; 3 RESIDENCES ON HEIGHTS ROBBED OF MONEY, JEWELRY

Three burglars invaded a portion of the city's most exclusive residence district on Portland Heights early this morning, robbed the homes of Judge M. C. George, 618 Market street drive; William Farnson Lewis, 725 Prospect street; H. C. Campbell, on Twentieth street, in the same vicinity; fought a revolver duel with Patrolman Miller on the Ford street bridge, and then escaped in the woods through the Canyon road.

Of the three residences that were entered, Mrs. W. C. Hare and Mrs. S. T. Hood, both staying at the Lewis residence, fared worst. Mrs. Hare lost her diamond engagement ring, valued at \$300, \$20 in cash, and Mr. Hare lost a valuable gold watch that had been the property of his grandfather.

Mrs. S. T. Hood lost a gold chain and several very old fashioned and valuable pins.

Ten Shots Exchanged.

George E. Llewellyn of Seattle, who is visiting at the home of Judge George, lost a diamond ring, valuable cuff links and all his clothing, which were packed in a suit case, but with the exception of one suit and his jewelry, this was recovered later, after the revolver duel.

The first report of a burglary was made to police headquarters shortly before 4 o'clock this morning when Campbell, who had been advised by a neighbor over the telephone that his house was being entered, called the police station and asked for a patrolman.

Patrolman Miller was informed and was starting toward the Campbell home when he met a man on the Ford street bridge carrying a suit case. When the man saw the uniformed officer coming toward him he turned and fled. Miller drew his revolver and fired, and the robber started to fire at the patrolman.

At least 10 shots were discharged, but with no effect. Although Miller was near the burglar, he was unable to overtake him.

Woman Discovers Burglar.

Between the time that the Campbell report was made and the officer arrived at the scene, the burglar had entered Judge George's home, going into Llewellyn's room, where he took all the man's clothing and escaped.

At the Lewis home, one man entered the room of Mrs. Hare, and while ransacking the dresser was seen by Mrs. Hare.

"Man in the room!" shouted Mrs. Hare.

Mr. Hare jumped out of bed and started after the man, but caught his feet in the bed clothing and fell to the floor.

Previous to ransacking the Hare room, the man or perhaps another of the same gang, reached through the window and took the jewelry from the dresser.

The shouts of Mrs. Hare attracted the attention of men in the house and for the next half hour, Portland's exclusive residence district was entertained by "bath robe parades" as the participants choose to call it.

Officers Rush to Scene.

Following the shooting, a report was made to police headquarters and Captain Slover, Sergeant Keller and several patrolmen were rushed to the exclusive residence district which was searched on all sides of the homes that were robbed but a long start had been secured by the burglars and the chance they had made they used to the best advantage.

Mr. Harris who lives near the Ford street bridge, aroused by the first shot awoke in time to see the balance of

BILL BYRD GETS IN JAIL HIS BEST SLEEP IN WEEKS

Triple Murderer Says He Is Willing to Take Whatever Comes; Old Mother Does Not Know Story Yet.

(Special Dispatch to The Journal.)
Spokane, Wash., June 13.—Lying on a cot at the county jail today, Bill Byrd, triple murderer captured yesterday after leading hounds and sheriff's posse a hard chase over the hills since Thursday, is taking his first good sleep in weeks. When captured he was suffering from the reaction from a protracted spree that preceded his crimes. He had eaten little and slept less through it all. In his flight he carried a quart of whisky and when this was gone became sick and weak. He admitted he couldn't have held out much longer.

Byrd's aged mother, at Reardan, Wash., is still ignorant of her son's situation. John Byrd, the desperado's only brother, is doing his utmost to keep the news from her, fearing the shock might kill her.

Byrd seems resigned to his fate, whatever it may be, stating after being handed in jail, "Well, I'm willing to take whatever is coming to me."

JACK JOHNSON CORONATION FEATURE; LONDON SHOWERS HONORS ON NEGRO

(United Press Leased Wire.)
London, June 13.—Jack Johnson continues to be the coronation attraction. Following the unusual demonstration yesterday when the husky champion arrived to attend the big show, London today is still showering honors on the negro. No visiting potentate ever attracted half the attention that Johnson has received. At every appearance today enormous crowds have followed him about, and even the well trained London police have found a traffic problem that has kept them guessing. At noon in Leicester square the crowd was so dense that constables were summoned to force a way through for Jack's automobile.

The pugilist, silk hatted and wrapped in an automobile duster, drove the car himself, constantly displaying the golden smile as the crowds cheered him. At Piccadilly a group of girls stopped Jack's car and presented him with a bouquet. The champion removed his "duster," stood on the seat of his car and made a brief address of thanks.

A stream of British sports made their way to Jack's apartments tonight. The champion had ordered "open houses" and guests were received amidst the popping of champagne corks.

Manager Jenkins, who will have charge of Jack's tour of the English music halls, had a smile that would rival the champion's famous golden one when he noted the negro's popularity. After watching the cheering crowds and spending part of the evening at Jack's flat, Jenkins predicted that the champion's theatrical earnings here will break all records. Jenkins brought two tickets to Johnson which will enable him to see the coronation. They were presented by Lord Lansdale, patron of English boxing.

Johnson's wife, according to other passengers on the Kronprinz Wilhelm, was as popular as the champion himself. Not only was there no color line drawn, but on several occasions Mrs. Johnson entertained white women in her cabin.

Johnson has been matched to fight a Canadian named Day in Dublin next month. This was the most important announcement made today.

FAVOR MAKING CANAL FREE TO COASTERS

(United Press Leased Wire.)
Washington, June 13.—A large number of Democratic congressmen are believed to favor the proposal to make the Panama canal free of all toll charges to coasting vessels. The Democratic caucus, it is today said, will soon take action on the matter. If favorable consideration is given the matter by the senate, it is said, the United States Steel corporation will build a big fleet of new vessels.

2 VOLCANOES POUR LAVA INTO VALLEY

Another Severe Earthquake Opens Up New Crater in Mexico.

(United Press Leased Wire.)
Mexico City, June 13.—Another severe earthquake shock today opened a new crater in the west side of Mount Colima volcano, and both craters today are pouring forth fire and lava.

Lava and stones are rolling down the mountain into the valley, where Ciudad Guzman is situated. More than a thousand persons were killed there in the great earthquake of 1906.

The quake today damaged the railway station at Colima City. No more deaths were reported.

MAFIA THREATENS; WRECKS 2 SALOONS

(United Press Leased Wire.)
Chicago, June 13.—Hundreds of persons were thrown into a panic early today by two dynamite explosions, occurring almost simultaneously, and caused, it is alleged, by members of the blackhand society.

Ignazio Lottisano, a wealthy saloonkeeper, recently received a demand that he pay \$500, under threat that his property would be destroyed. Lottisano showed the letter to Sam Remilia, another saloonkeeper, who said he had received similar demands. Neither paid any attention to the threatening letters.

At 3:15 this morning Lottisano's saloon was wrecked by a terrific explosion of dynamite. While an immense crowd gathered, Remilia's place, nearby, was blown up by a similar explosion.

La Follette Boom Started Tonight.
Madison, Wis., June 13.—That the La Follette presidential boom would be launched at a banquet here tonight at which 100 progressives will establish the Wisconsin branch of the National Progressive league was the prediction made in political circles today.
