

NEWELL IS MAKING HASTE SLOWLY ON UMATILLA PROJECT

Will Not Say When Work Will Be Started on West Extension—Engineers Now Surveying and Boring.

(Washington Bureau of the Journal.)
Washington, June 14.—In response to letters indicating the anxiety of Oregonians as to the further extension of the West Umatilla project, because they are unable to proceed with improvements with this matter pending, Senator Chamberlain has consulted with Director Newell of the reclamation service. This was the information he got.

A considerable force of engineers has been employed at surveying, boring and other work. Topographic mapping has been practically completed. Boring is still in progress at the proposed dam sites and probably will be continued for some time. Maps showing the property to be acquired for reservoir purposes are completed. Estimates of land values and improvements are now being made. An almost infinite number of important questions as to title, vested rights, etc., is being considered. Newell says that experience has taught him that haste is most unwise, especially in the acquisition of rights of way and the adjustment of complicated legal details.

Newell is warning his men to be exceedingly conservative when it comes to indicating when definite action may be taken, assuming the people that they must not depend upon early action.

SEAMEN'S STRIKE LEAVES TWO HUGE LINERS HELPLESS

(Continued From Page One.)
A conciliation board, minimum wage scale, a minimum messing scale for the medical examination by the contract doctors of the shipping federation; payment of a portion of the round trip wage at the port of call marking the completion of the first half of the voyage; representation by the union at the signing of new men; fixed hours of labor; payment of overtime when the scale is exceeded; improved forecastle accommodations and better food.

DELEGATE SAYS WITHIN WEEK WORLD'S SHIPPING WILL BE CRIPPLED

(United Press Leased Wire.)
New York, June 14.—Prophesying that within a week the shipping interests of America, England and Europe would be so crippled as to effectively stop passenger and freight transportation, unless the shipping interests recognize the National Sailors and Firemen's union, Matthew Earle, delegate to America, today gave the following exclusive statement to the United Press: "Strikes declared simultaneously at Liverpool, Antwerp, Amsterdam and other European ports are the result of a fight that has been carried on for 20 years," he said. "On most of the liners, especially the Cunarders, the men are fairly well treated. On others, and especially on tramp steamers, they are no better than cattle. Firemen are compelled to work four hour shifts under inhuman conditions.

STRIKERS TIE UP THREE LINERS AT SOUTHAMPTON; SEE VICTORY IN WEEK

(United Press Leased Wire.)
Southampton, England, June 14.—The strike here is under the supervision of Havelock Wilson, member of parliament and labor leader. Wilson said he was satisfied with the condition of affairs today. Wilson predicted that there would be a general tie up of shipping within a week. Shipowners, however, declare they will have all the men they need within a short time.

SEAMEN'S STRIKE MAY AFFECT BRITISH SHIPS COMING TO THIS PORT

Of the two tramps now in port but one, the British steamer Ouseway, would be affected by the international seamen's strike called for today, but up to the hour this morning Werner Geim, agent for the China Import & Export Lumber company which has the vessel under charter, had heard of none of the seamen on that vessel walking out. With the exception of a Chinese steward all of her crew are European. It is feared by some of the shippers, however, that the strike may affect some of the tramps that are due to arrive here in a short time to load lumber.

Mother-in-Law Kevy Smokes Too.
Very bitter indeed does the plaintiff feel toward his mother-in-law. As yesterday, so this morning he spoke against her at every turn. He testified that his wife and Mrs. Burns smoked cigarettes in equal numbers, about forty a day. He described his personal habits in New York after their marriage, denying in answer to a question by the judge that he remained out at his club until an early hour in the morning, except on rare occasions when he had an engagement at one of his clubs.

Ask Yourself This Question:

Will you be heard five years from today because of opportunities not grasped when presented. When you put your money into Portland real estate, you are putting it in the best bank in Portland, the timeclock of which will open only at your command, and your signature absolutely controls the surplus.

Knowing that Portland is THE best place in which to buy real estate and buying it are two different things. Caution is commendable, but too much caution is the cause of most persons losing opportunities IN BUYING REAL ESTATE. YOU SHOULD SELECT A LOCATION THAT WILL ENHANCE IN VALUE DURING THE TIME YOU PUT YOUR HARD EARNED SAVINGS INTO IT.

BUY THE FRINGE!
Buy outside property and hold it until it becomes inside. The following is the correct answer to the Co-Operative Trust Company's Picture Advertisement in The Journal under dates of June 2d and 3d.
