

U. S. AND SWEDEN REACH AGREEMENT

Vice Consul Lidell Gets Copy of Agreement Regarding Estate Settlement.

Valdemar Lidell, vice consul for Sweden in this city and state, has received from his government a copy of an agreement between that country and the United States in regard to the handling of estates of citizens of one country whose death occurs in the other and who leave no known heirs. The agreement provides that the local authorities notify the consul so that he may take charge of the estate until a legal representative is appointed. Consul Lidell says the agreement is of great importance from the fact that cases have often come to light where aliens have died and left valuable estates with no one to assert real authority to protect the property until legal heirs can establish their rights. In case of the death of any citizen of Sweden in the United States or of any citizen of the United States in the Kingdom of Sweden without having in the country of his decease any known heirs or testamentary executors by him appointed, says the report, "the competent local authorities shall at once inform the nearest consular officer of the nation to which the deceased belongs of the circumstances, in order that the necessary information may be immediately forwarded to parties interested. In the event of any citizen of either of the two contracting parties dying without will or testament, in the territory of the other contracting party, the consul general, consul, vice consul

general, or vice consul of the nation to which the deceased may belong or, in his absence, the representative of such consul general, consul, vice consul general or vice consul, shall, so far as the laws of each country will and pending the appointment of an administrator and until letters of administration have been granted, take charge of the property left by the deceased for the benefit of his lawful heirs and creditors, and, moreover, have the right to be appointed as administrator of such estate."

MIKADO WRITES POEM; CORONATION SUBJECT

MINARD'S MOTHER GOES TO CHICAGO

Sum Given for Her Support May Have Indirectly Caused Suicide.

Chicago, June 14.—Disappointed over failure of her plans for her yearly trip to Europe with her husband is advanced as a theory for the suicide of the wife of Professor Charles W. Minard. This theory was given some weight by the receipt by Minard of a telegram from his mother in Portland, Or., saying she would arrive in Chicago to be with her son in his troubles. This telegram brought out the fact that Minard had paid \$1000 for the support of his mother in the Patton Old People's home at Portland. It is believed that Mrs. Minard had counted on using this money for a European trip and the disappointment, it is alleged, led to the quarrel with her husband that caused him to leave home. When he returned he found his wife had taken her life.

Mrs. C. A. Lutkin, the mother of Professor Charles W. Minard of Chicago, whose wife committed suicide last week, left the Old People's Home in this city last Monday night, announcing to the matron that she was going to Chicago to join her son. Every effort was made by those in charge of the institution to dissuade her from leaving but all to no purpose. She declared that it was her duty to be with her son at this time and refused to listen to those who suggested that she wait for a message from her son

VOUCHER'S APPEARANCE NEEDS AN EXPLANATION

(United Press Leased Wire.) Washington, June 14.—Secretary Knox, summoned to appear before the house committee on expenditures in the state department this afternoon, was scheduled for a grilling cross-examination by the committee, according to reports about the capitol today. That the committee feels that there has been a lack of frankness on the part of the state department officials in explaining the matters that have been investigated the members have taken no pains to conceal. They are particularly anxious to know how the voucher in connection with the payment for a portrait of former Secretary Day, which mysteriously disappeared from the files of the department should have as mysteriously reappeared and been found on the floor of the office of the chief clerk.

FOR FURTHER DEVELOPMENTS IN THE CHICAGO TRAGEDY.

It was not known by the matron or attendant at the Old People's Home that Mrs. Lutkin had sufficient money in her possession to pay her fare to Chicago, as she had only a small amount of change when she entered the institution four months ago. It is believed that some one in Portland must have supplied her money to buy clothing or other necessities and that she used it to pay railway fare to Chicago. Mrs. Lutkin entered the "Home" last February and had been living there quietly and contentedly ever since. Mrs. P. J. Mann, president of the Old People's Home, when seen today said that Professor Minard paid \$1000 last January to the "Home" that his mother, Mrs. Lutkin, might live there for life. "This money was sent to Dr. William H. Poulker, at that time pastor of the First Presbyterian," said Mrs. Mann, and he paid it over to the treasurer of the institution. In February, Mrs. Lutkin arrived in Portland and immediately entered the "Home." Monday afternoon Mrs. Lutkin saw an account in the paper of her daughter-in-law's suicide. She at once began to make preparations to go to her son, and in spite of the efforts of the attendants to dissuade her to remain, she took the Monday night train for the east."

WHITE STAR OLYMPIC ON HER MAIDEN TRIP

Southampton, England, June 14.—In an attempt to break the world's record for speed across the Atlantic, the new White Star liner Olympic, the largest and finest vessel in the world, sailed at noon today from the new dock here on her maiden voyage.

In order that the big vessel might not be delayed a minute on her maiden voyage and become a "hoodoo ship," the officers of the White Star line temporarily conceded the demands of the striking sailors and coal passers. The Titanic, sister ship of the Olympic, which was launched at Belfast, Ireland, two weeks ago, will be ready to enter the Southampton-New York service late this year. Although the Olympic and Titanic easily surpass for size and speed the Lusitania and Muretania, the Cunard line, they will soon themselves be eclipsed. The mammoth turbine, Imperator, now building for the Hamburg-American line, is 330 feet in length, or 7 1/2 feet greater than the Olympic and Titanic. The Muretania now holds the west-bound Transatlantic record of four days, 16 hours and 41 minutes for a passage between Queenstown and New York.
