JUDGE PHELPS TRIES WISDOM OF SOLOMON

(Special Dispatch to The Journal.) Pendleton, Or., June 16.—Circuit Judge G. W. Phelps has established a precedent in the settlement of water suits. In the case of the Appleburg Water company vs. Adelson, C. Henderson et al., he has appointed a third party, Abe Miller, as special commissioner to distribute to each of the litigants such water from Birch creek as they are entitled to. J. P. McManus, promoter of the Appleburg fruit tract near Pilot Rock, and the Hendersons have been in court for some time, attempting to prevent one another from taking too much water. Injunctions were secured, but not observed. Judge Phelps finally took the matter of watering their lands out of their hands and put Miller in charge of the headgates. His salary is to be assessed equally to the two as a part of the costs.

WIRELESS BRINGS HELP TO CRIPPLED STEAMER

(United Press Press Wire.) Cleveland, Ohio, June 16.—For the first time on the Great lakes wireless telegraphy was used today to summon

aid to a distressed steamer. On route from Detroit to Buffalo with practically all the members of the Michigan Bankers' association, which had chartered the vessel for an excursion to Niagara Falls, the steamer Western States was disabled by a blown-out cylinder. Picking up the Western

States' distress signal, the steamer City of Cleveland hastened to the assistance of the disabled vessel. In midlake, 123 passengers were transferred to the City of Cleveland, which continued on her trip to Buffalo. The Western States returned to Detroit.
