# Will Throw Vote to New Jersey's Governor.

(Washington Bareau of The Journal.) Washington, June 17. -- Harry W. Walker, of the board of aqueduct commissioners in New York for many years, who has recently been in Washington Democratic nemination, and would give him the electoral vote for president in 1912—that is, if the voters have half chance to give expression to their

several times on business entirely disapportunity to hear popular expressions of opinion on national politics without bias or slant. I give it as my settled conviction that out of every one hundred members of the Democratic party in New York state many more than onehalf are for Wilson, and although it might seem to be a large proportion, according to my observations, the pro-Wilson percentage runs close to 75." Mr. Walker was asked whether this applied only to members of the Demo-

eratic party. He answered: "It was impressed on my mind, that the pro-Wilson sentiment has spread to members of all parties, and factions. too, for that matter, and that in New York an immense majority of the voters would favor him were they given an opportunity to do so. I have no doubt that Wilson would carry the Empire state.

Mr. Walker's declaration for Wilson carries immense weight among eastern Democrats, because of his experience in politics, and because he has for years seen regarded as one of the most astute observers and minglers in political activities in the east.
