We extend you an invitation to visit us. Just come on an inspection tour. Ask for Mr. Frank Heitkemper, he will personally conduct you over the store. We are justly proud of the perfection of our store. Ask to see the Crystal Room -the diamond office-the systematized repair office-the burglar-proof jewelry vaults-the pneumatic tube service. We are unpacking the newest and most complete stock known to the jewelry trade, and the silversmithing arts. However, our policy of giving the very best, with the margin of profit marked very close to the cost price, remains the same.
