

**A GOOD HABIT**  
It's a good habit to make it a point to keep posted regarding the Wants Journal. Wants cost but little.  
The weather—Fair and warmer with northwesterly winds.

VOL. VIII. NO. 15. PORTLAND, OREGON, SUNDAY MORNING, JULY 9, 1911.

## TEST VOTE SHOWS RECIPROcity BILL TO GO UNCHANGED

Passage of Trade Pact Without Amendment Indicated by Senate's Vote on Cummins' Free Meat Measure.

## FOURTEEN VOTES ARE OPPOSITION'S STRENGTH

Democrats and Regular Republicans Prefer Bill as It Stands.

(By the International News Service.)  
Washington, July 8.—An unexpected test vote on amending the Canadian reciprocity bill came today and it demonstrated the fact that the pact will pass the senate unchanged.  
The Cummins amendment putting meats on the free list in the agreement was voted down 22 to 14. Before another vote could be had on the dozen or more amendments offered by Cummins an agreement was reached to suspend further action until Monday.  
The vote deferring the amendment showed three Democrats, three regular Republicans and eight progressives lined up for a change in the agreement. This is believed to reflect accurately the strength of all proposed amendments.  
Nearly all the Democrats and regular Republicans are opposed to a change in the bill, while the progressives favor the amendments.  
Those voting for the amendments were Bailey, Simmons and Thornton, Democrats; Sutherland, Nelson and Clark, regular Republicans; Bourne, Bova, Bristow, Clapp, Cummins, Dixon, Gronna and Kenyon, progressives.  
The bare quorum of the senate, was obtained with difficulty and Senator Bailey, to avert a further vote on the Cummins amendments, moved an adjournment, which was defeated, 23 to 12. Senator Simmons declared he was not ready to speak on his amendments, which are along the lines of the Cummins amendments, and a vote was ordered on the free meats amendment. Senator Bailey advocated the amendment and Dixon said it would not invalidate the agreement. Senator Burton objected that the agreement was international and binding by itself.  
**Burton's Amendment.**  
"Not only will any change in this agreement endanger the success of our negotiations with Canada," he said, "but it will endanger our tariff relations with all countries with which we have trade relations. I am not willing to admit, in the light and airy manner that has been manifested here today, that this change, if only on our side of the agreement would not affect our relations either with Canada or with other countries. I do not believe the farmers as a whole will suffer from free wheat."  
"Why not put flour on the free list then?" demanded Cummins.  
"I am willing if it can be done without endangering the agreement," retorted Burton. "If you will free flour, why don't you take it up courageously as an independent proposition instead of trying to tack it on this bill as a rider," he asked.  
Senator Cummins demanded a separate vote on his amendment putting flour and cereals products on the free list.  
He said it was to balance the provision of the agreement that puts grain on the free list.  
"I have said I would not ask again for unanimous consideration to vote on these agreements when all the senators could be here."  
"This brought Senator Cullom up with a protest."  
"I am here this morning to try and arrange a vote on these amendments Monday," he said. "I wanted to get consent for liberal treatment of Senator Cummins, but I found the senate out of humor and would not agree to unanimous consent to vote on Monday."  
"There has been no desire to take advantage of the senator," chimed in.

## SECRET OF BLAME FOR FATAL WRECK CARRIED TO GRAVE

Delivery of Order About Which Third Officer, Who Was Lost, Alone Knew Might Have Saved Santa Rosa.

## CAPTAIN FARIA, BROKEN, GAZES AT MERCILESS SEA

Master Defends Himself by Saying He Obeyed His Employer's Orders.

(By the International News Service.)  
Surf, Cal., July 8.—Captain Faria sits on a pile of life preservers on the beach of the little cove at the mouth of the Canada Honda tonight, his swarthy face wrinkled and tereas with emotion turned out to sea.  
The broken hull of the Santa Rosa lies there within 200 feet of the tide line. Somewhere out in the ocean are the bodies of his third officer and three of his crew.  
Maybe that mute forms of women and children, men, too, passengers on his ship, are driven here and there in the deeper currents of the sea or lodged against deep sunken reefs.  
That is one of the unknown quantities of the wreck to the present time.

## WEEK OF INTENSE HEAT TAKES LIVES BY THE HUNDRED

In New York Death Toll of Heat Victims Is 199, in Chicago 297—Prostrations Not Estimated.

(Published from Associated Press.)  
New York, July 8.—Figures tabulated by the police and coroners today show that at least 199 persons have died from the heat wave that held the city in its grip since Sunday. The number of prostrations could not be computed, but it passes the 600 mark. More than 500 horses perished. The weather, man declared today that the heat wave is broken and that cooler weather is to prevail. There may be rain tonight. Despite the relief today, three deaths were reported in Brooklyn.  
It is estimated by the officials that the heat wave has been responsible directly and indirectly for more than 250 deaths. More than 30 persons perished during the week at the watering places while seeking to escape from the weakening rays of the sun. Many others who had been ill passed away through complications caused by the heat.  
Chicago, July 8.—Rain fell this afternoon and alleviated the sufferings of the thousands of victims of the heat wave, while government predictions of local rain promised to save the corn crops from ruin.  
The rain came from the southwest and swept sections of Illinois. When the storm reached Chicago the temperature fell rapidly and the life destroying hot wave was at least temporarily checked. When seven names were added to the list of dead today, the number of victims of heat here this week reached a total of 297. It was impossible to estimate the number of prostrations.

The two show girls, Lillian Graham (on the left) and Ethel Conrad, charged with the attempted murder of W. E. D. Stokes, the millionaire hotel man of New York, photographed as they were leaving court.

## LINDBERGH ASSERTS 'MONEY TRUST' WOULD SURELY FOLLOW ENACTMENT OF ALDRICH'S CENTRAL BANK SCHEME

Minnesota Progressive, Introducing Resolution to Investigate Whether There Is Not a Financial Combination Operating in Violation of Law, Says Huge Monopoly Would Certainly Come With Institution—Such as Was Proposed by "Conservative" Senator.

(United Press Leased Wire.)  
Washington, July 8.—A huge money trust, which would overshadow and control the financial interests of the entire nation, was forecast tonight by Representative Lindbergh, representative of Minnesota, as certain to follow the enactment of the proposed Aldrich Central bank scheme.  
The Minnesota progressive today immediately following the incorporation at Albany of the \$10,000,000 National City Company, introduced a resolution demanding an investigation by a special committee of the house to determine whether at present there is not a financial combination operating in violation of the law.  
**Bitterly Assails Plan.**  
In a statement tonight Lindbergh bitterly excoriated the Aldrich Central Bank plan, which President Taft has endorsed twice during the past two weeks, and declared it a "joke" to give over control of the country's finances into the grasp of the "Morgan crowd."  
"Wall street brought on the 1907 panic," he declared "and under the stress of conditions caused by it got the people to demand currency reform. Then Wall street brought the Aldrich-Vreeland Currency reform bill forward and if Wall street daren't, it will produce another panic to pass the Aldrich Central Bank scheme."  
**Scheme Declared Evident.**  
"The efforts of the Morgan crowd to extend their already wide grasp on the financial world were evidenced only this week in New York. The organization of the National City company as a partner organization of the National City bank, the chief Morgan financial institution, was plainly the beginning of a concentration of all the banks, trust companies and financial institutions that the Morgan crowd can grab."  
"This is, but a forerunner of an extension of control that would be easily manipulated under the proposed Aldrich scheme. The National City company is to acquire stock in other banks and do a foreign business. Under the Aldrich plan, trust companies, savings concerns and banks doing foreign business."

## HANDLING OF CASH STIRS UP FIGHT AMONG EDUCATORS

"Insurgents" and "Old Guard" of National Education Association Prepare for Fray Over Organization's Funds.

## ELECTION OF OFFICERS WILL START BATTLE

Candidates to Succeed President Ella Flagg Young Gather Their Forces.

(United Press Leased Wire.)  
San Francisco, July 8.—Lining up their forces for a big fight to decide whether the thousands of teachers enrolled in the membership of the National Education association shall say what shall be done with its funds for whether, as the "insurgents" in the body say is now the case, three or four men will do as they will with its cash, a horde of teachers attending their convention here tonight are preparing for the fray, which will come next week.  
As a preliminary to the real fight, candidates to succeed President Ella Flagg Young of Chicago are marshaling their strength. Of these Carroll G. Pearce, superintendent of schools in Milwaukee, is backed by the "insurgent" group.

## CONGRESS HELPS TRUSTS AND LETS THE POOR HUNGER

"National Law Body Energetic in Keeping Wall Street From Going Broke," Says Dr. Abbott.

"The congress of this country is for the strong, not for the weak," declared Dr. B. A. Abbott of St. Louis, speaking before the international convention of Christian churches at the White Temple last night.  
"It is concerned in keeping some railroad from going broke," continued Dr. Abbott. "It is energetic to look after the trusts and to keep Wall street from becoming panicky, but it does nothing to keep the people from going hungry, to combat poverty, to give strength to weaklings."  
The speaker, Lloyd George of England, the greatest living statesman, because he is conducting a warfare in behalf of the poor against poverty.  
**"Duty to Care for Weak."**  
"Give us this day our daily bread," has become the most imperative prayer of this country. The condition is such that only the church of Jesus Christ can solve the problem of the poor and give them bread. In this country we train our minds to be wise, but we do not train our hearts. It is our duty to care for the weak, the poor, the hungry and if we fail to care we fail in duty. Let us give our hearts a chance."  
The delegates to the international conference made plans yesterday international in scope. R. A. Long's proposal to endow a hospital in Kansas City with a million dollars provided the church give another million was received with applause. A proposal that the brotherhood of the church lead a campaign to establish a hospital for the healing of the destitute in every great city was received last night with cheers. The unifying of all denominations under one great leadership in order that all forces may be concentrated in the evangelization of the world, received the unqualified approval of the delegates and at a meeting of the church union board in the First Presbyterian church tonight the plan of unity will be further developed and made definite.  
**Sunday School Work.**  
Simultaneous services were held last night in the White Temple and the First Presbyterian church. The

## CONGRESS TAKES UP RYAN'S ALASKA GRAB; DENNETT SUBPENAED

### CALLED TO TESTIFY

Fred Dennett, Commissioner of the General Land Office.

## LAND OFFICE HEAD TOLD TO PRODUCE RECORDS MONDAY

Chairman Graham, Who Was Member of Cunningham Claims Investigating Committee, Gives Out Order.

(Washington Bureau of The Journal.)  
Washington, July 8.—Fred Dennett, commissioner of the general land office, was subpoenaed this afternoon to appear before the house of representatives' committee on expenditures in the interior department, Monday. This means that a congressional investigation into the Morgan-Guggenheim Alaska syndicate begins then.  
The subpoena was issued by Congressman James M. Graham, chairman of the committee. Graham was a member of the joint congressional committee that investigated the Cunningham coal claims in the celebrated Ballinger-Pinchot controversy. Dennett was told to produce records in the case.  
**Inquiry to go Deep.**  
The committee will go into the subject thoroughly and will bring to light the facts from official sources. Graham examined the chronological list of interior department records in the case, and with other members of the committee was convinced it was a proper subject for a congressional investigation.  
The committee has authority to call for witnesses and to issue subpoenas duces tecum, which means that it can command public officials to come before the committee and bring with them the original records, papers and documents. This authority was conferred by a resolution adopted by the house of representatives at the beginning of this session and gave the committee authority to inquire into all matters appertaining to the interior department.  
It is expected that all of the most important records in the case will be produced.  
(Continued on Page Five.)

## WOMAN WHO BARED "GIFT" TO TRUST TELLS OF SEARCH

Miss Abbott Says That Her Attention Was Called to 'Dick to Dick' Postscript by Mere Chance.

(By the International News Service.)  
Washington, July 8.—The alleged influence of Charles P. Taft in having the Controller Bay, Alaska, waterfront thrown open to the entry will be investigated by congress. Two steps were taken toward this end today, following the publication of the alleged letter of R. S. Ryan to former Secretary Ballinger, in which the former declared he had to invoke the aid of Charles P. Taft to induce the president to open to entry those lands which constituted the only available railroad outlet in the Alaskan coast.  
Representative Cox of Indiana introduced a resolution calling on the president to have all information concerning the executive order under which the land was opened to entry, including any influence exerted upon him by any of the persons mentioned in this connection.  
Incident with the introduction of this resolution, announcement was made that at its meeting on Monday morning the house committee on expenditures in the interior department will take up the investigation of the story of Miss Abbott, the newspaper woman, who claims to have discovered the remarkable letter in the files of the interior department which were thrown open to her at the request of a New York periodical. President Taft has already informally denied this charge that there is to be an investigation, and in reply to the allegation that by ordering the reopening of the Controller Bay land the president had made it possible for the Guggenheim syndicate to secure control of the land, interior department officials assert that this would be impossible, inasmuch as the law requires the government to reserve for its own purpose, namely, the prevention of monopoly, alternate sections on all waterfront land that is thus thrown open.  
It was also declared yesterday that no such letter as the one alleged to have been found by Mrs. Abbott is in the files of the interior department. At the department today all information was refused in the absence of Secretary Fisher.  
**Restoration Recommended.**  
President Taft is out of the city and the only information obtainable from administration sources is that the order opening the Controller Bay lands, issued last October, three months subsequent to the writing of the alleged "Dick to Dick" letter, was promulgated on the recommendation of the forestry service through the department of agriculture. Miss Abbott, in an investigation that is to be begun, will be one of the star witnesses if she adheres to her original story. She made this statement today:  
"I have in my possession the paper on which I copied the postscript. As I stated in my interview printed Friday, Secretary Fisher had instructed Mr. Brown, his secretary, to show me the whole record in the Controller Bay matter. Mr. Fisher was leaving for Philadelphia at 11 o'clock and I spent from that time to a quarter to four in the afternoon going through the records with Mr. Brown. I found a letter from R. S. Ryan to R. A. Ballinger, dated July 12, 1910, typewritten on printed stationery on the head of which was 'W. William St. N. Y.' It was signed 'E. S. Ryan.'"  
**Postscript to Letter.**  
"Attached to this letter was another

(Continued on Page Five.)

## DUBLIN WELCOMES KING GEORGE AND QUEEN MARY ON THEIR ROYAL VISIT

Loyal Irishmen Pay Homage at Arrival of King and Queen and Other Royalties—Nationalists Adopt Passive Attitude, Taking No Official Part in Reception—Monarch Gives Verbal Assurance of Friendly Regard.

(By the International News Service.)  
Dublin, Ireland, July 8.—King George and Queen Mary received an enthusiastic welcome when they landed in the state barge at Kingstown and touched Irish soil for the first time today. A vast crowd thronged the wharves and cheer after cheer went up as Vice Roy and Lady Aberdeen greeted the royal pair while the fleet thundered its welcome from the bay.  
Beside the king and queen were the Prince of Wales, the Princess Mary, the duke of Connaught and a brilliant staff. As their majesties stepped ashore the head of the Kingstown town council presented an address, to which the king replied in these words:  
"I and the queen hastened our visit to the Irish people, in whose welfare our interest is deep and abiding."  
This brief speech was received with great cheer and was taken as an indication of the king's good will toward Ireland.  
The king then inspected the naval guard of honor. The queen and the Princess Mary and their party were presented with a beautiful bouquet after which the party entered the state landau and drove through cheering crowds on their way to Dublin.  
**Reception Informal.**  
The entry into the city was informal. Preceded by a detachment of royal Irish constabulary and escorted by the Fifth royal Irish lancers, the royal party was driven to Dublin castle.  
After luncheon at Dublin castle, the king and his party were driven to the Royal College of Science which his majesty formally opened. Later he visited the City College, of which he received an address of welcome.  
Dublin had been decorated for the occasion by a nonpolitical committee which was supported by citizens. The nationalists adopted a passively friendly attitude, but did not participate in the official reception. The occasion was treated as a holiday and the streets were crowded.  
Members of the Sinn Finn society in order to avoid the appearance of welcoming the king and queen went by train to the grave of Wolfe Tone in the church yard at Bodenstown where they held a meeting to protest against the reception given the English king and queen by the municipality of Dublin.

## POWER COMPANIES WORK IN HARMONY

Believed P. R., L. & P. Co. and Mt. Hood People Won't Permit Cut-Throat Methods.

That the financiers and money interests behind the Portland Railway, Light & Power company and the Mount Hood Railway & Power company are not going to permit cut throat competitive tactics to play an important part in securing business in Portland is the belief of those who have followed closely recent developments. It has been hinted that one or the other of the large concerns has absorbed the other or is about to do so, but this is denied by officials of both.  
President R. S. Joeselyn's recent trip east and visit to Philadelphia is said to have had much to do with the predicted future policies of the two companies, and the recent visit in New York of R. C. Gillis, vice president of

## STOLEN LETTERS CAUSE INQUIRY

Commissioner Waldo Takes Hand in Stokes Case—Hearing Halted.

New York, July 8.—The hearing of the case of the Misses Graham and Conrad, who are on preliminary trial charged with the attempted murder of the millionaire hotel proprietor, W. E. D. Stokes, was halted today by the disappearance of witness Hart, the negro elevator boy in the Varona apartment house.  
Hart was on duty in the Varona the evening of the shooting and it was said would contradict the version given by the millionaire of his visit to the young women in that apartment house.  
It was expected the elevator boy would be the first witness of the day. When he failed to appear the proceedings were delayed while officials went in search of the missing witness. After

## NEW MOVE MEANS FIGHT FOR WILDE

Requisition Papers for Financier Sent to West for Signature.

Requisition papers on the governor of California for Louis J. Wilde of San Diego, wanted on the charge of embezzling \$30,000 from the Oregon Trust & Savings bank, have been prepared by District Attorney Cameron and were forwarded to Salem last night for the signature of Governor West.  
This step marks the beginning of the real fight for the extradition of Wilde, who has been playing hide and seek with the effort to arrest him on a telegraphic warrant. At first the district attorney harbored the idea that Wilde would return of his own accord, and two weeks' time has been lost in the game of telegraphing back and forth.  
First, time was allowed for volun-

## SULLIVAN STRENGTH FOR ELKS' RULER MAY BE SWUNG TO PORTLAND IN FIGHT

Indications at Atlantic City Are That Adherents of New Orleans Man Will Throw Themselves Into Battle to Win 1912 Convention of the B. P. O. E. for Rose City—Special Is Delayed.

(Special Dispatch to The Journal.)  
Atlantic City, N. J., July 8.—Although the special train carrying the Portland delegation to the Elks' convention has not yet arrived, many western members are now here to help in the effort to get the new grand lodge for the city on the Willamette.  
The Portland train was routed through over the new Milwaukee transcontinental line and there has been some delay on the way. The special was to be held over in Chicago for 24 hours but the Hotel Ingleworth has been wired not to expect the Elks who are in the party until Monday.  
**To Give Every Elk a Rose.**  
Somebody has spread the story that Portland is to supply all the Elks with roses. The train is bringing two refrigerator cars full of flowers, enough to give every man with an Elk button a white rose. These are other souvenirs to suggest the claims of Portland as the next place of meeting.  
While it is early to make predictions, there are indications that the Sullivan strength for exalted ruler is to be thrown to Portland. Colonel John P. Sullivan was the grand exalted when
