### BUTTER MARKET STRONG: ADVANCE WILL BE 2 CENTS

Poultry- Cleans Up Well After Week of Heavy Receipts-Tomatoes Scarce at Advanced Quotations.

Monday morning butter will advance Monday morning butter will advance 2 cents per pound, so it was announced yesterday afternoon. The cause of the advance is said to be shrinkage in the cream production, a strong demand for butter and advanced prices in the east butter and advanced prices in the east last advanced days ago. It was stated last sational scare of the season was engine that conditions really warranted or advance during the week.

an advance during the week.

The cheese market was strong all week and it would surprise no one except consumers perhaps to see an advance soon. The orders have been comthat confronted Wall street. It had all

vance soon. The orders have been coming from both north and south and dealers have been unable to supply all the wants. Tillamook cheese was quoted at 14½c yesterday.

The poultry market suffered some during the week from oversupply, but it cleaned up pretty well for the week and there will not be much of an oversion for the year, and London, Parls and Berlin with a better demand than during the week long from the year, and London, Parls and Berlin sold 50,000 shares of international stocks in New York.

It did not take long frowever to demonstrate most conclusively, that the sellthe preceding week. Duck cleaned up well and there seems to be a good demand for them just now, the Chinese having taken a notion to duck dinners of late. Fifteen cents was readily paid for all that came in Friday. of late. Fifteen cents was readily paid for all that came in Friday and Sat-urday and some advance orders were

The fruit market was good for the week, but should be still better this week for it will be time for housewives to put up Logan berries, cherries and blackberries, these being the fruits that will be fully in season about this time. Raspberries, too, will be in demand, ai-though they have been in the market

To atoes are scarce and command good prices. The Mississippi valley product is about to disappear and the California crop is slowly making its appearance. This is the reason for the scarcity. California tomatoes were quoted as high as \$2.50 per crate yesterday afternoon. Early in the week Mississippi tomatoes sold as low as 90 cents per crate.

Scarcity of cantaloupes is predicted for the week. Water meions will in all probability be more plentiful than during the week just closed and should the come cheaper.

The grocery market was marked by several advances during the week, sugar advances of the corn belt and portions at the wide expansion of the corn belt and portions of the corn belt and portions at the wide expansion of the corn belt and portions at the wide expansion of the corn belt and portions at the wide expansion of the corn belt and portions at the same time demonstrated the fact that the bull speculation in gr for several days.

Tomatoes are scarce and command good prices. The Mississippi valley product is about to disappear and the California crop is slowly making its appearance. This is the reason for the scarcity. California tomatoes were quoted as high as \$2.50 per crate yesterday afternoon. Early in the week Mississippi tomatoes sold as low as 90 rents per crate.

of cents and corn products advancing to cents and corn products
I cent. Coffee showed tendency to advance and it is predicted that it will
addance 2 cents per pound within the
next 60 days. The predicted advance is
attributed to crop shortage in Brazil.

## CROP SITUATION **WILL DOMINATE** STOCK MARKET

Wall Street Also Has to Contend With Acute Unsettlement of European Security

By Ralph Emerson.

It did not take long however to demonstrate most conclusively that the selling of stocks and the wild buying of grain and cotton following the excited events noted, were greatly overdone. Both stock and grain speculators came to grief when they aought to make their operations fit the sudden change for the better in the whole situation. The leading European nations took the Moroccan affair promptly in hand, thus eliminating the acuteness, that previously prevalled, and making it plain that diplomacy would settle the vexed question in an amicable manner, probably for a long time to come.

long time to come.
Coincident with this significant European situation, the great hot wave in the west was broken and rain fell over wide expansion of the drought regions

Ing or bonds and this is expected to increase in the near future.

There has been no relaxation in the improved sentiment manifested by merchants last week and with the favorable turn of affairs in the crop regions

able turn of arrairs in the crop regions business men generally are inclined to take an optimistic view of the future. The strength of New Yorks financial institutions brought out prominently through the events of the week is an incident that deserves notice in the furtherance of crop marketing and all business operations in the autumn.

### SHETLAND PONIES DO WELL IN OREGON

T. I. Robinson, who arrived here last fall from De Smet, S. D., and has been raising Shetland ponies at his suburban home at Woodlawn, plans soon to secure a ranch near the city, where he will engage in the business more extensively.

Mr. Robinson brought with him from South Dakota six brood mares and two stallions and some young stock. The

AMERICA HOLDS RECORD FOR BIG MORTGAGES

James J. Hill's \$600,000,000 Great Northern Transaction Never Equaled -- Thirty-three Huge Railroad Mortgages in Existence, the Aggregate Amount Secured Thereby Being Placed at \$5,200,000,000. Banks Organize Security Companies as Adjunct to Business.

By Preston C. Adams.

(Publishers' Press Leased Wire.) America is a big country and Americans believe in doing things on a big scale. We were the first to organize a scale. billion dollar corporation and now we have broken all records for mortgages. James J. Hill's \$600,000,000 Great Northern one having never been equaled by any other company. The tendency is toward huge bond authorizations, as has been demonstrated by numbers of weak as well as strong systems. A Wall street concern has compiled interesting data from which it may be gathered that "the aggregation of railroad lines into larger systems, the continued requirement of new capital to finance their growth and steady maturity of underlying issues have made desirable and necessary the larger mortages. We find that there are now some 33 railroad mortgages in this country under which the authorized amount of bonds in each case exceeds \$100,000,000. ern one having never been equaled by any other company. The tendency is under which the authorized amount of bonds in each case exceeds \$100,000,000. Of these mortgages 16 have been created within the past six years. The total of these 33 mortgages is about \$5.-200,000,000, of which the 16 created in the past six years, or since 1905, aggregate \$3.150,000,000. Of the total 33 much mortgages, seven provide for bonds in the amount of \$200,000,000 or more in each instance.

NORTH DAKOTA

**CROPS IMPROVE** 

weather scare was subsiding in both the spring wheat and corn belts.

The weather in the northwest was more favorable for the growing wheat crop and as unsettled conditions were promised for the corn belt there were many longs on the selling side. In addition to this, it was popular to put out short lines.

Chicago, July 8.—The feeling in the various grain markets on the board of trade were less bullish today, as those who have been under prices and boosting them doubtless feit that they were about at the end of their speculative rope. For more than a week some of the leading houses in the trade have remained on the bull side of all the cereals and when there was a "taking of stock" today they doubtless found that they were holding good lines of wheat, corn and oats, and at a time, too, when the excitement over the hot weather scare was subsiding in both

The gold holdings of the principal European centers are of special interest to the United States at this time in view of the decline in foreign exchange rates this week to 4.85% for demand sterling, a rate only a fraction of a cent per pound of the gold import basis. The best banking opinion now is that an inflow of gold will probably be inaugurated in July. Heretofore no movement had been looked for until the autumn, when in the natural order of events interest rates here would advance and our exports of commodities would increase.

Deen unnecessary for the Puyallup valley growers to go east for a market.

"This means that the Puyallup valley fruit growing section will bring in to that country from its small beries alone over \$185,000 for this senson only, for strawberries only. This will be a great deal more than doubled when the receipts are in for other fruits. People who have figured the values of crops in that section have concluded that the perishable berry marketed at good prices is worth many times the value of the same acreage in wheat.

"The figures from the Puyallup valley growers to go east for a market.

# glis, the well known crop expert, who was in Fargo, N. D., today, took the wind out of the salis of the bulls. Mr. Ingils reported crop conditions as improving with the wheat heading out in that vicinity. While Michigan is not considered a big corn state, the condition of 92, as published vesterday, and a condition of 96 in Wisconsin, and 88 in Illinois, caused the average long in corn to sit up and take notice. The government July report will make its appearance Monday again and some of those in the trade who have been rampantly bullish on this cereal seem to realize that the figures to be sent out by Secretary Wilson may prove to be less bullish than looked for, Many of those who had profits in corn threw over their lines, and in addition there was some short selling. Oats finished close to the bottom prices reached. The provision market was underselling pressure at the hands of the packer and as the support was poor the mar-AWAIT REPORT SEES NEED OF BETTER

not important. Western Maryland and New York Ice made new high records but the Standard issues were not active. There has been a change of sentiment on the part of the bankers identified with the Standard Oil interests and these are more favorable to the mar-

ket.

There is reason for expecting that action will be begun by the United States court at St. Louis Monday to reorganize the Standard Oil company in compliance with the decision of the supreme court. The important thing will be that the pipe line, the refineries and the tank line will be left under practically the present management.

The bank statement today was a remarkable document owing to the imaximum and markable document owing the markable d

### SPLENDID CROPS IN VALLEYS OF SISTER STATES

Western Oregon Farmers in Fancy Spring Lambs Bring Clover, Figuratively Speaking, Say Reports From Various Districts.

That crops of all kinds are turning splendidly this summer is the report brought from all parts of western Oregon and with good prices obtainable the farmers should be in clover June this year, figuratively speaking.

The weather has been about all that could be desired ever since last fall and few reports of pests of any kind been reported. Strawberries and other berries were somewhat retarded other berries were somewhat retarded by cool weather and rains in the late spring, but the rain did no damage, for the harvest of berries is, according to all reports, excellent, and the demand for the fruit as good now as it would have been earlier in the season. Cherry orchards suffered some from frost and rain, but fair crops have been reported and good prices have been ob-tained.

The pear and spple orchards in west-ern Oregon, including the Umpqua and Rogue river valleys are reported in

Hay fields have yielded abundantly in all parts of the state, especially in the eastern parts.

The Deschutes river country has figured prominently in the berry market this summer as usual, in that growers in the vicinity of Biggs sent in berries in large quantities earlier than other districts.

Ameritors two or three speculators of recognized a big brilliancy, but Mr. Baker has had the nize a davantage of being able to summen to his aid virtually untimited resources, teaming the departue will be allowed to go without incurring the condemnation of Washington remains to be seen.

The principal European banks today show pred with \$2.436.586,000 gold on hand, as the has also been closely and conditions to be seen.

Government's Crop Estimate

Will Be Made Public

Tomorrow.

By Thomas C. Shotwell.

New York, July 8.—Because the financial world is waiting for the crop report to be issued by the government Monday, trading in the stock market today was very light. Net changes were not important. Western Maryland and alone increasing at the rate of 130,000 persons a month.

OMAHA LIVESTOCK

# DEMAND BRINGS

Extra High Price, Illustrating That Market Will Pay for Good Stock.

The run of livestock at the yards was very fair considering the fact that business was more or less interrupted by Fourth of July celebrations in spite of the prevailing "safe and sane" spirit. One of the features of the week was the large number of hogs brought here from Nebraska. It soes to show that, while Oregon has all the natural advantages for hog raising, it has not enough men engaged in the business. Persons haying made the subject a study say there is no reason why Oregon should import hogs, than that there are not enough people getting rich in the business.

A lot of spring lambs brought a fancy price at the yards during the week. They were in extra fine condition, and in this sale was furnished a striking illustration to the effect that better than average prices are obtainable for stock above the average.

The run of cattle for the week was fully up to the average, and considerably larger than during the preceding week.

### VINELAND ORCHARDS WILL YIELD HEAVILY

Saturday's Sales. 

Clarkston. Wash., July 8.—From a statement by many of the principal growers of the Vineland district, the blackberry and dewberry crops will average high, and the first pickings of the season are being made with good results. A good crop is predicted for all dewberry patches, and some of the largest patches will yield from 150 to 200 crates.

The peach crop, which is conceded to be three-fourths of a full crop, will be of high quality, and in every orchard the market quality of the fruit will average high. In most instances the product will excel in size and will rival any peaches placed on the market.

South Omaha, Neb., July 8.—Cattle, 10L; steady; steers \$6.25\overline{0}6.60; cows and heifers \$4.75\overline{0}6.50.

Hogs, 11.351; strong to 5c higher; price, \$6.25\overline{0}6.50.

Sheep, none.
