

MINING CONGRESS ATTRACTS EXPERTS FROM COAST STATES

Grants Pass Prepares to Entertain a Large Number of Representative Business Men Next Week.

(Special to The Journal.) Grants Pass, Or., July 12.—Prominent mining men from California, Idaho, New Mexico, Washington and Oregon, will speak at the mining congress, which will convene July 18 for a two day convention.

Already exhibits are being placed, large displays of ore are being entered, and a \$10,000 display of gold nuggets will be an interesting feature.

The congress will be opened at the opera house by an address of welcome by O. S. Blanchard, president of the mining bureau of Grants Pass Commercial club, and a response by O. L. Young, president of the congress.

Addresses of importance will be: "Geological Formation of Southern Oregon," Honorable C. B. Watson, Ashland, Or.; "Present Status of Mining in Northern California," R. S. Taylor, Judge J. M. O'Neill of Yreka, Cal., C. Probstel, J. J. Lane of Etna Mills, Cal.; "Promotion of Legitimate Mining," Joseph Smith, Seattle, Wash.; "Treatment of Semi-Sulphide and Sulpho-Telluride Ores," Adolph Maier, Grants Pass; "Importance of the Copper Deposits in the District," Dr. J. F. Reddy, Medford, Or.; "Do Our Mineral Deposits Go Down?" George C. Bennett, Hornbrook, Cal.; "Building Up the Mining Industry," L. D. Mahone, Portland; "Electric Power and Its Use in Treating Ores," President O. L. Young of Ashland, Or.

Officers of the congress are: President, O. L. Young of Ashland, Or.; vice presidents, H. L. Heasinger of Grants Pass, I. J. Luce, of Etna Mills, Cal., R. L. Ray of Medford, Or.; secretary, H. L. Andrews, Grants Pass, Or.; treasurer, F. J. Newman, Medford, Or.

CHAPMAN ON TOUR OF LAKE COUNTY

Commercial Club Manager Drives Automobile Over Wide Interior County.

(Special to The Journal.) Lakeview, Or., July 12.—C. C. Chapman of the Portland Chamber of Commerce, accompanied by Mrs. Chapman, are visiting the county for the first time. Mr. Chapman has covered 1500 miles in his auto during the present interior trip.

The large area of government lands open to entry in Lake county, together with the prospects of a railroad into Lakeview at an early date and the rapid growth that this part of the state is having impressed Mr. Chapman very much. "Your timber, agricultural lands, fruit growing valleys and wonderful climate, combine to make this a garden spot," said Mr. Chapman. "When the people of the country who are looking for homes find out what you have here awaiting them, there will be such a rush of settlers this way that you will not know what to do with them."

FAT MEN WILL RUN RACE FOR A PRIZE

What promises to be a most entertaining and exciting contest will take place at the Steam Engineers' excursion, Sunday, July 16, when Henry Hanson, James Maguire and "Big Bill" McKensie line up for the fat men's race. Some years ago Hanson was a shining light in the eastern baseball league, and was some runner, McKensie is a Scotchman and learned to step high in Scotland where he had to dodge thistles, Maguire learned his art in running for office. Because of the spirited rivalry that exists between the men this race promises to be the event of the day. The steamer Kellogg has been chartered for the occasion, also a full orchestra has been engaged. A prize is to be presented to the handsomest man. The judges of this Apollo contest are three spinster ladies. A baseball game will be played between the Has Beens and the May Be Will Bees.

Closed Today and Thursday. Preparing for our Great Annual Sample Shoe Sale. See tomorrow evening's paper. GREENFIELDS. Shoes for the whole family.

DR. AKED GOING TO CHAUTAUQUA; CROWDS TO GATHER

Interesting Programs Continue to Attract, Though Attendance Falls Off Slightly for Few Days.

(Continued from Page One.) The past two days of the Chautauqua have made many believe that there can be too much of a good thing, for the attendance has not come up to the expectation of the Sadlers' engagement; but this, it is pointed out, is by no means a reflection on these entertaining people, but just a case of where the public needs a rest, and when it gets it will renew its interest and patronage. This morning's classes were well attended, even to the ground being engaged in study at one of the other divisions.

Several classes not scheduled here sprung up, and are very popular, the most so perhaps being the lectures on psychology by Mrs. Alice Weister at Science hall, which are attracting marked attention. This hall is crowded to the door every day. Several experiments were tried with success today. The subject of the next lecture will be "Man Limitless," which means how to have a strong body and powerful mentality.

An unusually fine program was given by the W. C. T. U. in the Auditorium.

Miss Vera Seeley, who has interpreted the song message at the regular Bible lessons, sang, and Mrs. Book read a Mosaic of Bible verses touching upon the sea; Mrs. Roper of the Seamen's Friend society, gave a most interesting address on the topic, "The Mes Wrecked Down to the Sea in Ships."

Rev. R. Wyso Jones has been a guest at the cottage, the only one of the "other" sex entertained there. Mrs. Jones, a woman of brilliant attainments and graces, is spending the entire season at the cottage, and is making scores of friends on the grounds.

A medal contest in the Auditorium on Thursday at 4 p. m. closes the special programs for the association, though the W. C. T. U. on Saturday is the most important of the whole session for the White Ribboners.

The kindergarten, under the auspices of the State of Mothers, continues to do its good work. Mothers as well as children are its beneficiaries. Mothers coming to enjoy the remaining sessions of the assembly will do well to patronize the kindergarten under this efficient management.

Dr. Lona K. Sadler is giving her lecture on "Child Culture," to women only, at the Forum this morning. It is being well received and has its full share of the people on the grounds in attendance.

At 2 p. m. Dr. William S. Sadler will give a lecture on "How the Body Resists Disease."

The Naval Reserve band will give two concerts, one at 2 and the other at 7:15 p. m. The evening is looked forward to with pleasurable anticipation and the attraction is bound to bring out an increased attendance. Sarah Mildred Wilmer will read "La Samaritaine" (The Woman of Samaria). It will be remembered that Miss Wilmer made a tremendous hit last year when she read "The Sign of the Cross."

Mrs. Elfrida Weinstein will be the soloist of the evening.

Thursday is labeled a red letter day. It is farmers' day and will no doubt attract many from the country while the strangers have made special effort to get their members out. Dr. Charles F. Aked will deliver the first of his two lectures is, of course, the "big gun" of this season, and the immense crowds he will attract is a certainty.

It will be remembered that Dr. Aked is the man J. D. Rockefeller brought from England to take charge of the Fifth avenue church of New York, one of the wealthiest and most aristocratic churches in the world. Dr. Aked stayed one year, but refused to accept the position for another although he was offered an increase of \$10,000 in salary to do so. He chose rather to come to San Francisco at a salary of \$15,000 and is now pastor of the First Congregational church in that city. His lecture tomorrow: "The Strongest Man on Earth" is based on Ibsen's drama "An Enemy of the People."

Yesterday both programs and the forum hour were filled by the Sadlers. They teach and demonstrate common sense care for diseases. They are not faddists, nor do they deal in the occult sciences, they are practicing physicians who study and lecture on the cure of the body, in rational ways rather than the cure of it by drugs. They had the thoughtful and earnest attention of each one of their audiences.

It was a matter of general regret to the many patrons of the restaurant to miss the face and courteous greeting of that ideal hostess, Mrs. Simon, when they went to the dining room yesterday. It became necessary for her to return to Portland, but the personal interest she gave the work, her zeal for the success of the assembly and her anxiety that the strangers, particularly those who were on the programs and visiting other Chautauqua, should carry with them pleasant and happy impressions of Gladstone park, has taken from the park one of the best advertising mediums on it.

On Friday at 3 p. m. Dr. Calvin White, secretary of the State board of health, will give a stereotyped lecture on the danger of the house fly.

On the same evening the graduates of the Oregon Agricultural college will hold a basket picnic at the old auditorium.

Republicans of Massachusetts will name their candidate for governor on October 4.

FUND FOR TEDDY MORE THAN \$500

Portland Friend Sends \$5, Bringing Total for Half Blind Waif to \$501.69.

(Continued from Page One.) The latest addition to the Teddy fund, a present of \$5 from Miss Irene J. Clark, 64 North Nineteenth street, makes a total of \$501.69 to be used for the education of the half blind waif of the Baby Home. The fund was started by The Journal some time ago, and has received hearty support. Little Teddy has made many friends, especially among the children, and help has come from all parts of the state. The money which will make him a useful citizen instead of a ward of the people.

Previously acknowledged: \$496.69. Miss Irene J. Clark, \$5. North Nineteenth 5.00 Total \$501.69

SERVICE TO BE ENLARGED

(Continued from Page One.) The Portland field, the steamers from the orient will first come to Puget sound to discharge inward cargo. Thence they will go to Portland to discharge freight for that port.

At Portland and elsewhere on the river as occasion demands, the liners will take on their first consignment of outward freight, completing outward at Puget sound ports. Each vessel will have about 26 days in which to discharge and load outward again. Asked as to the disposition of the Portland-Asiatic's chartered steamers, Mr. Waterhouse said:

"We intend to use the steamers of the Portland-Asiatic fleet. We plan to transfer two of them, probably the Henrik Ibsen and Strathlyon, to the Australian Mail line immediately. It is not yet decided what will be done with the Hercules and Rysja, as their places will be taken by larger and better vessels in the oriental trade. However, it is likely that they will each make another round trip to the orient, until other tonnage is available."

Asked why the Portland-Asiatic sold out, Mr. Waterhouse said:

"A merger for economy. The reasons for this change are entirely in the interests of economy and better service. In the past the two rival companies have interfered with

one another, not only as to sailing dates, but in other ways. Consequently it was determined that the two lines could be better managed by either one or the other. As we were considered the better fitted to take over our rivals, such an agreement was made, and we purchased the Portland-Asiatic."

The steamers of the Portland-Asiatic were chartered for three years, and these charters have about a year yet to run. Mr. Waterhouse will keep these vessels until their charters expire, using them to his best advantage in whatever trade he requires them. As the necessity arises he will secure whatever additional tonnage is desired. It is understood that the Waterhouse line is under no obligations to the Pacific Mail and Harriman interests by reason of this deal, and the merger will not affect relations at present existing between the Waterhouse company and the Harriman line here.

Australia Mail Line Growth. Mr. Waterhouse, who established the Australia Mail line several years ago, reports that this business is growing so rapidly that an additional steamer will be dispatched in August, October and December each, and it is expected to send 18 steamers during the next 12 months instead of one vessel a month as in the past. While Mr. Waterhouse did not state that this line would call at Portland, it is known that he has secured large contracts for freighting lumber from the Columbia river to Australia, and for this reason it will be necessary for the Australian liners to go to Portland.

EVERYBODY WILL JOIN

(Continued from Page One.) of the steam that has been generating for weeks in anticipation of the glad tidings of the victory won. Arrangements for a grand blowout have been arranged.

Everybody is invited to join in whooping'er up. It is everybody's victory; let everybody celebrate, in the sentiment of the lodge.

Other Cities Represented. Vancouver and Oregon City will be represented at the jollification by U. S. delegations. Visitors will also be present from nearly all the other lodges within accessible distance. Members are expected from the west as far as Pendleton. Visitors will come from The Dalles, Salem, Astoria and other nearby cities.

Arrangements for the big parade and jollification are complete. At 7:30 this evening there will be a general assemblage at Elks' Temple, Seventh and Stark streets. A short open session will be held in the Elks' lodge room, at which several members will make brief remarks, and instructions will be given to the marchers.

Form on Seventh Street. Then the parade will form on Seventh street, facing south and resting on Washington street. First will come the platoon of police, then the police band, Mayor Ruhlhalt and the members of the city council, members of the Elks' lodge No. 142, and visiting Elks, then members of other fraternal orders, who will form on Seventh street, immedi-

ately following the Elks. Next will be York's band. Following the band the automobile section will form on Stark street, resting on Seventh and facing east. E. J. Arnold's band will be next. Following this will be all vehicles other than autos, which will form on Stark street, facing west and resting on Seventh street. Last will be equestrians, rough riders and any other variety of enthusiasts who wish to join and whoop up the spirit of good cheer for a good cause.

The procession will move south on Seventh to Yamhill, east on Yamhill to Fourth, north on Fourth to Oak, west on Fourth to Fifth, south on Fifth to Morrison, west on Morrison to Sixth, north on Sixth to Stark, west on Stark to Seventh, and disband. The line of march will be brilliantly lighted with red fire.

5,000,000 BUSHELS WHEAT

(Continued from Page One.) cated by the government report, this year's harvest in this section will in all probability get closer to 125 per cent. That's a showing that any section could be proud of even in a year before. Quite a number of machines northwest is giving forth a crop better than normal.

Harvesting Under Way. Harvesting has been started in most sections in a limited way, although operations will not become general in the West until the first of August. In the foothill country the fall sowing is quite green, although a few fields are almost ready for the annual visit of the combine. There are many more combines in the county than ever before. Quite a number of machines will go into the fields for the first time this season. The number would undoubtedly be greater were the harvesting machinery plants in a position to insure early delivery.

Like the wheat crop, the showing of barley is most excellent in the Walla Walla section. The average showing indicates a harvest of 40 bushels, although the barley crop is much larger than usual. The quality of barley is unusually good and for that reason the crop is considered the best that the county has ever presented.

Oats Not Important Crop. The showing of oats is smaller than usual. This is due entirely to the decreased acreage because the crop per acre is a record breaker. In the foothill section the production of oats has almost been brought to a standstill within recent years owing to the tendency of the grain to "foul" the soil with wild oats, and therefore make it exceedingly difficult to clear the ground for wheat.

Alfalfa is making the same heavy showing in this section as has been noted in all portions of Oregon. Some fears are being expressed by producers owing to the shortage of grain sacks. On account of the depleted offerings, the price has steadily advanced recently.

There is a surplus of harvest hands all through the Walla Walla valley, but grain growers are showing no inclination to depress wages on this account.

Big Problem Is Price. There remains a wide difference of opinion regarding the probable price on the opening wheat market. Many are inclined to believe that the opening figure will be from 75c to 76c per bushel, but this is merely a guess.

Hill mustard, the weed that threatened for a time to ruin the wheat crop of this section, will be no more if the present tactics of Walla Walla growers and officials are continued for a while. There are very few fields where there is even a showing of the dreaded plant and so far as can be ascertained not a single field has been abandoned owing to the ravages of the weed, while there were immense fields of mustard all through the Walla Walla section last season and large areas were so thickly covered with the Hill variety, that the combines were not set to work at all.

By special arrangement with the makers, we furnish every owner of either a Columbia or Victor disc talking machine, a newly recorded double disc record, regular size, 10-inch, positively free. We'll tell you why when you call at our splendid new talking machine rooms in our new establishment at corner Seventh and Alder. We'll play the record for you first, if you like. And we give it to you absolutely free. Call in the first minute you can do it.

A Latest Double Faced Record Free. To every owner of a Talking Machine (Victor or Columbia) who calls at the new Eilers Music House at Seventh and Alder. Eilers Music House. Now at Seventh and Alder.

OPPORTUNITY IS KNOCKING IN THIS NEW SUB-DIVISION VENTURA PARK. Never has there been an opportunity in property such as VENTURA PARK is, to be the possessor of a lot at such a remarkably low price.
