I am the only Specialist in Portland who uses his true name and photograph in his announcements. I see and treat my patients personally and am not a "medical company. "medical institute" or a "medical system." All men should know who the doctor is they consult should carefully consider whether they desire to entrust their health with a hired doctor of a medical company. I use my photograph so that when you come to see sonally you will recognise me. Investigate my personal standing before accepting treatment from a doctor of unknown identity or reputation.

Are You

Being treated in a satisfactory man-Being treated in a satisfactory manner by your present doctor? Is he carrying out his promises? Has he cured you in a reasonable time, and lived up to his guarantees? Are you awing him exorbitant prices for medicine? Does he employ thoroughly up-to-date and scientific methods, which would be approved by the regular family doctor? If you cannot answer these questions favorably to yourself, come and have a confidential talk with me about your case. It will cost you nothing.

Cured in Five Days

I cure such disorders as Varicose Veins, Hydrocele, Piles. Specific Blood Poison, etc., completely and permanently, often with only a single treatment. No severe operations employed, nor detention from business. I especially solicit stubborn and long standing cases that other doctors have failed to cure.

Examination Free

I offer not only FREE consulta-tion and advice, but of every case that comes to me I will make a care-ful examination and diagnosis with-cut charge. No alling man should neglect this opportunity to get ex-pert opinion about his trouble. If you cannot call write for diag-nosis chart. My offices are open all day from 9 A. M to 8 P. M., and Sundays from 10 to 1.

There is state law and city law against carrying weapons concealed, but these cannot be in the nature of things well enforced. When a man is arrested on some charge and is found to have a gun, he is frequently "cinched" for it. But it is impossible to search men generally on the streets and the law has little influence in deterring crime. The punishment inflicted is light, and the habitual criminal has little risk to run in carrying a gun.
