JAMES HILL SAYS RECIPROCITY BILL IS A PREVENTIVE

Empire Builder Declares Passage of the Administration Measure Will Be Productive of Great Good.

(United Press Leased Wire.) Minneapolis, July 22.--J. J. H111. chairman of the board of directors of the Great Northern railroad, when told late today that the senate passed the

reciprocity bill, expressed pleasure. "It is not what we have gained by the reciprocity treaty that is most important, but what we have prevented," said Hill tonight.

"In the comment on the treaty when it was pending, nearly every argument for it spoke of the good it would bring. But the good that it will bring is only the smaller consideration. What would happen if we had not passed the treaty That is the big question. There would have been a revival in Canada and England of a move for imperial federation and if we had refused to trade with our good neighbor, our second best customer, and for our manufacturers, the best customer we have, we should have been very sorry for it in years to come, for the opportunity was before us to make a favorable agreement with Canada and it would not have been before us again for many years if we had refused it this time.

"That is why I say the treaty will mean much good for both the United States and Canada, and I believe that it will stimulate the trade of both countries and that it will not be long before every one will see its benefits and see that the wise thing to do was to act favorably upon it. Yet, after all, that is the secondary part. There is not the slightest doubt that the situation was such that had the vote in the senate today been against it, the report would have gone over the world and would have stimulated activities else-

there should have been a line of customs houses along the Minnesota-Mon-tana-Washington border or the border products and eggs, honey, cotton seed of eastern Canada than there should be oil, seeds, animal oils, salt, mineral between Minnesota and Wisconsin or waters not bottled, timber, mica, wood New York and Pennsylvania. What has pulp, news print and other paper, the made the commerce of the United States latter three under certain restrictions. so great? votes and that the Republican vote was half-hearted all the way through and given to sustain the president and not WITHOUT A FIGHT

to represent the party. Whatever victory the passage of reciprocity may bring to the president comes at a time of need. The adminnot ripe for this tender concession and istration is in sore distress. A fog of scandal covers it from the attorney general's office to the White House. Wickersham, of the cabinet, is in quesmarshalled, like his oratory, always to tion-the Wiley persecution is bringing a climax, offered the free list as a curses home to roost; the Democratic investigation committees are digging leep into Republican records that smell to heaven, and that Alaska scandal, deeper and more menacing than all of them, is even now pulsing with probafiance to his Democratic colleagues of ble developments that may strike the Republican administration to its vitals, Never this day of reciprocity triumph could come more timely to the president than now. Mr. Taft will sign the agreement next Wednesday, after the reassembling of the house and the signature of Speaker Clark is added to that of Vice President Sherman.

American Part Is Done.

Then the American part is done. The people have been vindicated. The lum-ber trust and the paper trust have failed to becloud the popular vision. The allies of the selfish have been routed. The handful of honest senators who protested the purely imaginary damage which seemed to them to threaten a few sections of the southwest will speedily discover their mistaken judgment in the matter.

And now it is all up to Canada. The Canadian government, under Premier Laurier is pledged to the agreement just as the American government pledged to it through President Taft.

Laurier Has Strong Backing. The Canadian parliament is now in

session. Mr. Laurier has a majority of 60 government members behind him They are sure to vote with him in this government emergency. There may be delays and wrangles and fillbusters. just as we have in congress. But there can be no appeal to the country within five years, even if the opposition were fierce enough to demand it. The Canadian parliament will pass the

reciprocity pact before the summer is

President Taft and Premier Laurier will each issue proclamations putting it into immediate execution. And then we shall begin to realize its beneficient effects, political, moral and material. With reciprocity disposed of, adjourn-ment tonight became the big issue in Leaders tonight predicted that it would hereafter be difficult to

keep a quorum in both houses. Among senators, the opinion generally held is that August 1, will see the finish. They have a program that calls At 1:36 the Canadian pact had run the red gauntlet of all opposition and won by 53 to 27—a two to one major-

FIGHT ON RECIPROCITY EXTENDS TO PROVINCES: BATTLES TO BE MANY

(United Press Leased Wire.) Vancouver, B. C., July 22 .- The fight on the reciprocity bill in Canada has now extended to the provinces. Each Simmons were the Democrats who left province along the far flung border line has special interests of its own.

For instance in British Columbia the fear is that reciprocity will adversely affect the provincial fruit growers. In Manitoba it is felt that reciprocity will give cheaper farming machinery and will also allow a possibility of cheaper fruit. The same applies to the two new provinces-Saskatchewan and Alberta. At the seat of the federal government, Ottawa, the matter has reciprocity is a Democratic measure. It solved itself into a straight party fight. was passed by Democratic votes. Giving all credit to the persistent interest
of the president, one has only to ex-

Th conservatives are losing the hope that the thing can be forced to an appeal to the electorate as the govern ment claims that the census returns will not be completed in time to allow of an appeal to the people during this term

TREATY BILL'S PASSAGE BY SENATE WILL ADVANCE ITS CAUSE IN CANADA

Ottawa, Ont., July 22.—The receipt of the news that the Canadian reciprocity agreement had been approved by the United States congress created a sensation here this afternoon. The leaders of both factions in the Canadian parliament agreed that it would help to advance the measure here. While the followers of the present government insist that parliament will eventually pass the measure, it was admitted this action can hardly be looked for for

Conservative chieftains still they will "talk the measure to death." But the official leaders say, that if such tactics are unduly adopted, they would "appeal to the country, in another general election."

CROPS SPELL PROSPERITY

(Continued from Page One.) road, which taps the heart of the inland empire wheat country, returned yesterday from a trip over the road and was most enthusiastic over conditions in Washington, Idaho and eastern Ore-

"I believe we will handle 2500 cars of wheat over the Spokane & Inland this summer," said Mr. Coolidge. going to require everything we can get hold of on wheels to transport this crop, which is the biggest that part of the country has ever known, running 40, 50 and even more bushels to the acre. Retail lumber yards throughout the territory we drain are practically cleaned up-one man told me he didn't have a 2x4 left in his yard—and as soon as the wheat money gets in cir-culation the lumber business is going to pick up amazingly. All indications are that the wheat crop will be marketed early. In some sections last year's crop was disappointing and the farmers have been carried the past year by the banks. Naturally they are anxious to pay off their obligations and will sell the wheat without delay, placing money in circulation much earlier this year than usual. Washington, Idaho and eastern Oregon will produce upwards of 60,000,000 bushels of wheat this season.'

Means More Prosperity. F. W. Robinson, general freight afgent

of the Harriman lines in the northwest, Relief society of the Jewish church. returned from a trip to eastern Oregon and Idaho a few days ago with similar all crops in the west and middle west. made by all crops is going to pull the lumber trade up again and aid condi-

procedure to prevent the passage of the buy heavily to fill orders for the fall bill but every amendment is regularly trade, and the result is going to be voted down by the liberal government that the lumber industry here will profit considerably.'

F. C. Knapp, of the Peninsula Lumber company, said:

"I firmly believe the lumber industry in the Pacific northwest has struck bottom and that the fine crop reports will send it on the rebound. There is will send it on the rebound. There is bound to be some improvement in lumber conditions, though the extent depends considerably on the stocks in the retail yards over the country. The mills are carrying from 20 to 40 per cent less stock than they were January 1. The off-shore trade is fair and seems to be improving. Good crops will stimu-late buying in the country yards and altogether I personally am ward to a much better six months than

the ones just passed."
President A. i. Mills, of the First National bank said the good effect of the wheat crop will depend largely on what price the farmer gets for his wheat, though the outlook is promising for all lines of trade.

"The good effect of the big wheat price of wheat: No one knows what that will be," said Mr. Mills. "If it that will be," said Mr. Mills. "If it western Oregon crop is 50 per cent remains firm, however, there will be a larger than it was last year, and the northwest, and the balance of trade will larger. The difference in percentage is be in our favor. I understand crops are generally good all over the country, with a few exceptions, and with good prices this will naturally create a demand for lumber that will have a favorable effect on local conditions. best thing that could happen for the local lumber market would be the encouragement of railroad building, however, with its demand for ties, timbers and construction lumber.'

JEWISH GIRL HOMESICK FOR THE GHETTO AGAIN

(Special to The Journal.) River, Or., July 22 .- Homer Rogers of the upper Hood River valley, leader of the Upper Valley Progressive club, has had a hard problem to deal with in the case of a young Jewess who was working at the home. It was rumored that she would leave the home and stay in the woods without eating at long periods and rave when attempts were made to secure her return. cases was reported to the Hood River authorities, who had her sent to Port-

and. She came to Hood River from the

tenement district of New York.

"It is simply a case of homesickness. said Rabbi Jonah Wise, of the Congregational Beth Israel church. She was expected in Portland last night and was be met by a member of the Woman's "The young woman came out here from the crowded streets of New York statements concerning the size of the and it seems she could not stand the wheat crop, the rush the railroads will quiet of the country. She is a refined, be under to move it and the prosperity high-spirited woman, amply able to look indicated by the excellent condition of out for herself. She is not an object of charity or anything of that sort. L. J. Wentworth, president of the Portland Lumber company, said last night he believed the fine showing

Western Oregon Yield Is 50 Per Cent Larger Than in 1910.

(Special to The Journal.)
Oregon Agricultural College, Corvalis, Or., July 22 .- "The farmers of Oregon are harvesting a wonderful hay crop," said Dr. James Withycombe, director of the experiment station at the Oregon Agricultural college, discussing the present harvest.

"The total hay crop of Oregon last crop will be influenced largely by the year represented \$00,000 tons, but this June 24, Mrs. Edith Martin Wilson, acyear it will reach 1,160,000 tons. The considerable influx of money into the eastern Oregon crop about 10 per cent mostly due to the fact that in eastern Oregon the crop is grown on irrigated or sub-irrigated land, while that in western Oregon is grown under natural conditions, and the season has been favorable for hay, as well as for, other farm crops.

the farmers have inadequate facilities for storing, and without care is exercised the waste will be great. This would be unfortunate, as it should all be utilized for livestock feed. For example, it has been estimated that a ton ample, it has been estimated that a tool of first class vetch or alfalfa hay fed to a good dairy cow should yield a value of about \$20.

"Then there will be a good market Bellevue hotel. "That was the nices" Bellevue hotel.

for the meat producing animals. This is inevitable from the fact that the number of cattle in the United States has shrunken 8 per cent in four years, sheep 10 per cent in eight years, hogs 16 per cent in 10 years. This is in spite of the great increase in lation, and without lessening the per capita consumption of meat.

Dean Cordley of the agricultural school of the college says: never seen such a hay crop in the val-ley before. It is not only a very heavy rop, but of unusually fine quality."

'NON-UNION COMMUNITY" SOUGHT BY HOE COMPANY

New York, July 22 .- Because their employes have been on strike for two months to enforce a demand for the eight hour day, Hoe & Co., the printing press manufacturers, announced tonight that they will abandon their plant in this city. They will move, the manager said, to a "nonunion community."

SHE DIVORCES OIL 4 BREAKFAST TIME

Mrs. Edith Martin Wilson Gets Up So Early in the Morning That the Reporters Aren't Out.

(Special to The Journal.) San Francisco, Cal., July 22.—Getting up ever so early on the morning of companied by an attorney, made her way through the near dawn to the dim courtroom of Superior Judge Cabaniss, and as the sun was peeping over the tors of the Contra Costa hills, Mrs. Wilson obtained a decree of divorce from Nicholas F. Wilson, wealthy oil promoter and associated in the oil business with Rear Admiral Robley D. Evans, retired. At least, Mrs. Wilson said today that

the matter a secret, and the papers in the case have been hidden away in some recess of the county clerk's office, s that few were aware that the divorce

"That was the nicest and easiest way of doing it. There was no contest. Mr. Wilson was in the city, but was not in court. However, he was represented there by his attor-neys. We had settled the property division out of court."

Wilson is recognized as one of the most prominent and successful of oil operators in California. He is vice pres ident of the California Consolidated Of company and is interested in many oth er concerns affiliated with the oil industry. He has played an important part in developing the oil industry in California and has accumulated a large fortune in his operations. Mrs. Edith Jewell Martin Wilson

lived in New York before her marriage to Wilson. The couple were married in New York but have lived in California for several years.
