

### FAVORS A SESSION LIMITED TO ROADS

Hood River County Court Desires County Bonding Act in Effect at Once.

(Special to The Journal.) Hood River, Or., July 28.—The Hood River county court stands as a unit in favor of an extra session of the legislature for securing immediate legislation for good roads purposes. Judge Culbertson and Commissioners McCurdy and Rhodes are unalterably opposed to an extra session if any other matter is to be brought to the attention of the legislature. Judge Culbertson stated today that he thought it would be a great benefit to pass a law at once permitting the counties that desired to do so to bond for good roads, as this would give them a whole year in advance of any legislation that might be secured through the initiative and referendum. The members of the county court think better legislation could be secured for the good roads movement at a special session of the legislature where this was made the sole order of business. It is feared that the good roads movement would suffer again at a regular session on account of the large amount of "swapping" and trading usually done.

Hood River stands preeminently for good roads, and the county is anxious for the county bonding act to pass. The county is sorely in need of a new court house building, but there will be nothing done in this line until the roads of the valley are in the best possible shape.

### Johnson & Co. Abandon Paving.

(Special to The Journal.) Hood River, Or., July 28.—Johnson & Co. of The Dalles, who were awarded the contract for the Hood River street paving, forfeited their contract yesterday and the city returned the certified check to the bidders. The contracting company did not care to take the contract in view of the fact that the city would be delayed longer than expected in adjusting conditions to permit laying the city mains. The grading will be done at once.

### C. A. Bell to Build a Block.

(Special to The Journal.) Hood River, July 28.—The largest brick business block yet in Hood River is soon to be built at the corner of First and Oak streets. C. A. Bell, owner of the property, will begin a two story building covering 200 by 200 feet. It is stated the building has been leased to Portland persons who contemplate going into business here.

### SET MATCH TO GARBAGE DUMP, SAYS DR. WHITE

"As a measure of protection to the city, the garbage dump at Guild's lake ought to be set on fire and burned until the corruption is all burned out of it," declared Dr. Calvin S. White, state health officer, after returning from a second inspection of the dump and the city's present method of disposing of garbage.

He found that an effort is being made to burn from 60 to 80 tons of refuse daily in the old crematory that was built for 25 tons daily. The stuff was piled above the furnaces, had an indescribably sickening odor and was covered with flies, said Dr. White. The dump was heaped with stable sweepings and paper and magazines. Dr. White called attention not only to the unsanitary methods of disposing of garbage within the city limits, pending the refusal or acceptance of the new crematory, but he spoke of the great waste. "While the dump is burning," said Dr. White, "I would prevent any more stuff being put there. The objection that the people living thereabouts would be smudged from their homes is not well taken. The people would be better for the smoke, and there would be very much less methane than from the flies and the rats."

Dr. White said he knew of no other city the size of Portland that undertakes to dispose of its garbage within the city limits. He said it would be far better to carry it away on barges far beyond the city, thus removing a great danger of infection. He added that the foundation of a fortune could be found in the sorting over of materials now wasted. He expressed a conviction that if there is no market for this sort of thing, there is something wrong with the city's commercial condition, since fertilizer, grease, paper and metal are used in great quantities here.

### Reunion of Welshmen.

(United Press Leas & Wire.) Cleveland, Ohio, July 28.—The annual reunion of Welshmen of Ohio, which is expected to bring together more than 50,000 Welshmen, will be held at Euclid Beach tomorrow. The gathering will be addressed by Thomas L. Lewis, former president of the United Mineworkers of America, but now working as a coal miner at Bridgeport, Conn.

Regards best best coal ask Edleresen.

### RAILROAD BUILDER'S WIDOW IS VERY ILL

Mrs. Collis P. Huntington, widow of the railroad builder, and one of America's richest women, who is reported to be seriously ill at her New York home, on fashionable West Fifty-seventh street. Although the report is denied, the fact that Mrs. Huntington is not in the best of health is well known. The rumor that Mrs. Huntington was alarmingly ill seems to have started on account of an operation for appendicitis which she underwent on May 3, last.

### DID MRS. M'GRATH DROWN OR ELOPE?

Farewell Note and Parasol and Poison Beside River Perhaps a Ruse.

(Special to The Journal.) Bend, Or., July 28.—Although ten days have elapsed since the mysterious disappearance of Mrs. Tom McGrath, no trace whatever has been found of her. Lending color to the suicide theory is a letter she wrote the morning she was last seen in which she stated that she would no longer stand the ill treatment of her husband but was going "where my papa is." Her father is dead. The Deschutes river has been searched for miles below the spot where she was last seen, and where her parasol, magazine and a bottle of poison were found, without disclosing any clue. It is believed by many here that she left the letter and the articles on the river bank as a blind and that she has fled with another man who was aware of new troubles in the McGrath family and who left Bend about the time the woman disappeared.

### ST. HELENS WILL BUILD ON PRESENT SCHOOL SITE

(Special to The Journal.) St. Helens, Or., July 28.—The special school meeting called here Tuesday evening to determine the location for the new \$20,000 high school resulted in the selection of the site occupied by the present school building. Three sites were offered—Washington square, a location by George H. La Mont, near Columbia park and the site chosen. Twenty thousand dollars were voted July 19 for the erection of a new high school, but at the meeting last night it was decided to build an annex to the present building and purchase more land to be used for play grounds. The meeting was very largely attended and was spirited throughout.

### INDEPENDENCE CANNERY TO GO UNDER HAMMER

(Special to The Journal.) Independence, Or., July 28.—Pursuant to resolution adopted by a majority of the stockholders of the Independence Cannery company at a meeting held a few days ago, the building and lots upon which it is located will be sold at public auction September 2, to satisfy a mortgage held by S. E. Irvine. It is believed that Mr. Irvine will bid in the property at a figure which will give the stockholders about 50 cents a dollar, and will probably open the factory for business next fall.

### MOSIER IS CALLED TO MASS MEETING

Reorganization of Commercial Club to Take Place Tomorrow.

(Special to The Journal.) Mosier, Or., July 28.—A call has been issued for a general meeting of the citizens of Mosier and the valley to be held Saturday night for the purpose of electing new directors and outlining the work of the Commercial club for the ensuing year. The club is undergoing reorganization under the leadership of A. S. Ashley, former manager of the Baker Commercial club, and 40 new members have been secured thus far. It is expected much interest will be taken in the reorganization as the people here realize the importance of greater publicity.

At a special meeting of the board of directors of the Commercial club Wednesday evening the following delegates were named to represent Mosier at the Oregon Development league at Astoria on August 14:

Jeff Mosier, spokesman; D. D. Hall, A. S. Ashley, manager of the club; Dr. C. A. Macrum, C. J. Littlepage, K. McGregor, Dr. N. Johnson, Dr. David Robinson, F. A. Shofren, C. A. McCargar, John H. Devlin and Dr. R. M. Ross. It is the intention of the club to have a strong delegation at the convention and additional delegates will be named later.

### BARRETT TO ADDRESS COMMERCIAL CLUB

A telegram received yesterday from the Honorable John Barrett, director of the bureau of Central American republics, accepting the invitation of the Portland Commercial club to speak at a banquet next Thursday evening, August 3. The invitation was sent yesterday and in his reply he suggested that his subject would be, "What the Panama Canal Means to Oregon."

Mr. Barrett has been to San Diego, where he represented President Taft in the exercises marking the breaking of ground for the Panama exposition to be held in that city in 1915. He is at present the guest of the officials of the Panama-Pacific exposition at San Francisco. After his visit he will deliver a lecture in Seattle.

### Carnegie's Gift to "Mother."

(United Press Leas & Wire.) New York, July 28.—Mrs. Kennedy of Skibo castle, Andrew Carnegie notified "Mother" Kennedy, long a figure at Coney Island, that she will hereafter receive \$25 a month. "Mother" Kennedy's husband was a friend of Carnegie many years ago.

### Helpful Hints on Hair Health

Scalp and Hair Troubles Generally Caused by Carelessness.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hatband is a resting place for microbes. If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "92" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair trouble, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "92" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that Rexall "92" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies only at The Owl Drug Co., Inc., corner Seventh and Washington street.
