

## KAISER RESENTS INTERFERENCE OF BRITISH IN AFFAIR

German Foreign Office Officials Declare That Dispute With France Will Be Settled Without Help of Outsiders.

## EMPEROR CONTINUES ON NORTHERN CRUISE

Moroccan Incident to Be Discussed Tomorrow at Swinemunde.

(United Press Leased Wire.)  
 Berlin, July 29.—What amounts to a renewal of the declaration on the part of Germany that British interference in the Moroccan affair will not be tolerated was made here today by the foreign office. In a statement, its officials deny that Kaiser Wilhelm at any time suggested the calling of a conference on the Franco-German dispute and asserts in the plainest terms that the negotiations between France and Germany, which are vital to both nations, will be settled by them without the assistance of any other power. Emperor William will not arrive at Swinemunde today, as was expected. He will not reach the great German port from his northern cruise until tomorrow. When he does arrive he will be greeted by Chancellor Von Bethmann-Hollweg and Foreign Secretary Von Kiderlin-Waechter, who will present to him in full the state of the negotiations with France, failure of a settlement of which it is feared might provoke a European war.

Unless Germany recedes from her demand for territorial concessions in Morocco, the negotiations between France and Germany will end abruptly and, if they do, the declarations of war are expected to follow within a very few hours.

In London today the financial situation is unchanged. The stock market was weak and securities on the exchange were under heavy pressure, but owing to the midsummer lethargy trading was at such a low ebb that the drop in prices did not greatly affect the total sales. Lloyds continues to demand a 10 per cent premium on German bonds and many policies are being written at that figure.

## ALLIES' WARSHIPS TO BE SENT UNLESS GERMAN SHIPS LEAVE

(United Press Leased Wire.)  
 London, July 29.—Decision has been reached by France and England to send to Agadir warships of equal strength to the Panther and Berlin, unless Germany orders the immediate withdrawal of these vessels from Moroccan waters. This step, which would have been an effectual counter move to Germany's actions had it been taken before the controversy reached its present stage, is now regarded as fraught with the greatest danger to the peaceable outcome of the diplomatic negotiations.

## UNITED STATES TO SEND MAN-OF-WAR TO THE COAST OF TRIPOLI

(United Press Leased Wire.)  
 Washington, July 29.—Announcement was made today that a United States warship will be sent to the coast of Tripoli.

## EXCURSION TRAIN COACH TELESCOPED, 8 SLAIN, 26 HURT

Mistake of Signals by Engineer Causes Head-on Collision in Maine, in Which He Also Loses His Life.

(United Press Leased Wire.)  
 Bangor, Maine, July 29.—Misunderstanding of signals by Engineer F. W. Garcelons is today given as the cause of the head-on collision between a crowded excursion train and a regular passenger which occurred 45 miles north of Grindstone, on the Bangor & Aroostook railroad, and resulted in the death of eight persons, twenty-six persons were injured.

The trains were to have passed at Grindstone but the excursion train was about a minute late and it was said that the regular train did not wait. The dead are: Harry Clark, Dr. Hugh Pipes, Frank Seelye, Zerene Harris, all of Presque Isle, Maine; Claude Loomer of Washburne, Maine; Engineer F. W. Garcelons and Fireman Gallagher of Brewer, Maine. The regular train was the heavier and ploughed its way through the excursion train, with comparatively little injury to its own passengers. The regular train was said to have consisted of only seven persons were killed. A telegram received from a physician at the scene of the wreck says that possibly 13 are dead and 26 injured. The relief train with the injured and dead aboard is now en route to Bangor. The dead passengers all rode in the first coach, which was telescoped and caught fire immediately after the collision. Two hours before the relief train arrived the residents of Grindstone, awakened by the crash of the wreck, formed a fire brigade and extinguished the flames, which were consuming the wrecked coaches.

## German War Lord Inspecting Troops

Emperor William of Germany.

## LORIMER DEFENSE FAVORED IN STORY TOLD BY DEMOCRAT

Caucus Nominee of Opposing Party Testifies "Boss" Was Generally Favored; Hopkins Not in Race.

(United Press Leased Wire.)  
 Washington, July 29.—Testimony favorable to the defense of United States Senator William Lorimer was given here today before the senate investigating committee by Lawrence Stringer, Democratic caucus nominee for senator from Illinois at the 1909 election.

Stringer testified that it was apparent in the Illinois legislative deadlock that no Republican senator could be elected without Democratic votes and that Lorimer had more friends among the Democrats than he had among the Republicans. He said that the Democrats would in no case support Hopkins, but it was well understood that if Lorimer were to become a candidate a number of the Democratic members of the legislature would support him. Senator Kern, settled by the statements of Stringer as to the Democrats who supported Lorimer, cross examined the witness at length. Stringer admitted it was known that Lorimer favored high tariff and that a vote one way or another might make a big difference in the senate's action on important schedules.

"Did the Illinois Democrats think Lorimer stood for the good or the bad in politics," asked Kern. "They thought he stood for the sort of politics that wins elections," was Stringer's reply.

**Arrested on Embezzlement Charge.**  
 Vallejo, Cal., July 29.—Harry W. Faustlin, wanted here on a charge of having embezzled \$130 from the Building Trades' Council, is under arrest at Manteca, San Joaquin county.

## HACKED-OFF PORTIONS OF HUMAN BODIES FOUND IN NEW YORK HARBOR

(United Press Leased Wire.)  
 New York, July 29.—Discovery here of seven pieces of dismembered human bodies, one of which was that of a woman, convinced the police today that a wholesale murderer is at large in New York. It is feared evidence of other crimes will be discovered and practically the entire police force is searching today for clues to the killer. Until the trunk of a woman, headless and limbless, was taken from the river, the authorities believed the other remnants of bodies found were the relics of those dismembered in the Communipaw explosion last winter. Now they foresee that they are facing another problem similar to the famous Guldenappes case. July 20 the head, trunk and right arm

## LIQUOR QUESTION TO PLAY BIG PART IN FIGHT IN TEXAS

Senatorial and Gubernatorial Elections May Eliminate Bailey and Colquitt; "Drys" Show Unexpected Strength.

(United Press Leased Wire.)  
 Dallas, Texas, July 29.—That prohibition will play a big part in the coming senatorial and gubernatorial elections here and that Senator Joseph W. Bailey, whose attitude is known to be favorable to the liquor interests and was rebuked in the state wide prohibition campaign, will have the fight of his life to secure reelection today, is said to be certain.

The state legislature has a "dry" majority in both branches and the showing of prohibition strength throughout the state, which held the ante to little more than a nominal victory in the special amendment election, places an element in power that is fully as antagonistic to Bailey as it is opposed to the liquor traffic. The prohibitionists are also determined to make an energetic effort to eliminate Governor O. B. Colquitt, who is eligible for another two-year term, from official life in Texas. Colquitt incurred the wrath of the prohibitionists by stumping the state against the prohibition amendment.

Chairman Ball of the prohibition executive committee, is spoken of as the most likely candidate against Colquitt. An avowed candidate to succeed Bailey in the senate is Congressman C. R. Bayliff. Former Governor Thomas M. Campbell, who supported prohibition, is also certain to enter the race against Bailey.

**Newspaper Celebrates Anniversary.**  
 (United Press Leased Wire.)  
 Pittsburg, July 29.—The Pittsburg Gazette, the first newspaper west of the Alleghenies celebrated today its 125th birthday.

of a man were found in the upper bay; on July 21 a man's left foot was picked up off the Battery, and on the same afternoon a right foot and leg were found floating near the same place. All were parts of unidentified bodies. Every day until Thursday pieces of bodies were picked up. The police became active when the torso of a woman, wrapped in canvas and bagging, was picked up by the crew of a bay tug. The man who made the ghastly find failed to keep the wrappings surrounding the torso and there is not a clue to his identity. According to Coroner Converse of Hoboken and County Physician Hutchinson, the head and limbs of the dead woman had been hacked off with a dull knife. They declared there was no doubt the woman had been murdered.

## OREGON ASYLUM TO BE HAVEN FOR UNFORTUNATES

Instead of Drugs and Opiates, Dirt and Darkness, New Hospital Will Be Made a Healthful, Homelike Place.

## PLENTY OF BATHING AND LIGHTS, FEATURES

Hot Baths Instead of Padded Cells for Violent Patients; No More Drugs.

The "water cure" and the "light cure" are to take the place of opiates and drugs at the Oregon state insane asylum. The recently completed main building of the receiving hospital at Salem, said by experts to be the most modern and perfectly equipped building of its kind in the United States, is designed to supplant drugs and straight jackets with baths in curing the insane. A violent patient instead of being locked up in a padded cell and given a stupefying drug, is given five hours in a hot bath and comes out quiet and submissive, ready to sleep naturally. With the opening of the new hospital the use of drugs and forceful restraint at the Oregon state hospital for the insane are to be done away with altogether.

The new building, which is being equipped by Dr. R. E. L. Steiner, head of the institution, is to be a part of the asylum, but will be used exclusively as a receiving hospital and as a hospital for the treatment of the curably insane. Dr. Steiner believes that after the new building is in full working order 80 per cent of the patients received will be cured. The interior arrangement and construction of the new receiving hospital are such that the entire building can be flushed out with the hose. The floors are of tile, while in the wards the tile floors have cork passageways, which will make the rooms practically noiseless. The bath rooms are remarkable and represent the most advanced ideas in the cure of mental diseases by hydrotherapeutics.

All May Be Accommodated.  
 There are two main series of baths, one for the men and one for the women patients, arranged on opposite sides of the main passageway running through the new building. The floors, walls and

## GOV. HI JOHNSON IS READY TO RETRACT WHEN HE BELIEVES

Governor of California Still Expresses Astonishment at Words of Governor of Oregon; Wilde Starts.

(United Press Leased Wire.)  
 San Francisco, July 29.—Petty and contemptible were words freely used by Governor Hiram Johnson today in referring to the remarks credited to Governor Oswald West of Oregon, in connection with the latter's demands for the extradition of Louis J. Wilde. "Can you conceive," said Governor Johnson, "of a governor so small as to threaten the Panama Pacific exposition if an extradition was not granted, or so petty as to believe that his threats would accomplish the extradition? I still do not believe that the governor of Oregon made the statements which have been attributed to him. If he did, I must, of course, retract my words that no governor could be so petty or so contemptible as to make such statements."

A warrant for the arrest of Louis J. Wilde, wanted in Portland on a charge of bank wrecking, is scheduled to be issued to Deputy Sheriff Leonard of Portland here this afternoon. Wilde left San Diego today for San Francisco and will arrive here Monday morning. The warrant will be served at that time and Wilde and the deputy sheriff will take the Shasta (headed at 11:20 o'clock, arriving in Portland at 3 o'clock Tuesday afternoon. Arrangements are now being made for Wilde's bail and it is thought that he will be released immediately after arrival in Portland.

## WILDE SAYS HE WAS TRADED FOR PANAMA PACIFIC EXPOSITION

San Diego, Cal., July 29.—Louis J. Wilde, the banker, left here early today for San Francisco to meet the Oregon officials who obtained his extradition. "I was traded for the San Francisco Panama Pacific exposition," was Wilde's parting remark. "There are on file in the office of Governor Johnson of California more than 1000 letters and telegrams from Oregon people threatening to boycott the San Francisco exposition unless I was sent north for trial." Wilde will be met at San Francisco by his attorney, Charles B. Sumner. He will stop over in Los Angeles for a few hours, he said. The employees of the American National bank, from the presidency of which Wilde resigned yesterday, have presented to him a fine traveling set, accompanied by resolutions affirming their belief in his innocence. Many expressions of a similar nature have been sent to the bank.

## COURT GIVES OIL TRUST MORE TIME FOR DISSOLUTION

Missouri Tribunal of Appeals Modifies Decree Against the Standard to Conform to Decision of Higher Branch.

## RESPITE OF SIX MONTHS PERMITTED BIG MERGER

Decree Also Allows Company to Engage in Interstate Commerce Short Period.

(United Press Leased Wire.)  
 St. Louis, July 29.—The United States circuit court of appeals today modified its decree against the Standard Oil company to conform to the decision of the United States supreme court. The company is given six months in which to dissolve.

Under the terms of the decree which was signed by four judges, the company is permitted to engage in interstate commerce during the dissolution period. The decree extends this period until December 31 and accords the trust the privilege of asking for more time if it is unable to complete dissolution by the date set.

The modification of the decree was sent here from Washington, where it was drafted by Special Assistant Attorney General Frank B. Kellogg. Justices Sanborn, Hook, Adams and Vandevanter signed the decree.

New York, July 29.—It was announced here today that the Standard Oil stockholders next week will receive a circular explaining the terms of the reorganization decided on for the trust. It is understood the plan provides for splitting up the Standard Oil company of New Jersey, the parent company, into 33 companies.

## CAVENAS TO FACE FORGERY CHARGE

Man Wanted in Portland Now Serving Sentence in Folsom Penitentiary.

(United Press Leased Wire.)  
 San Francisco, July 29.—District Attorney Cameron of Portland today completed arrangements for the arrest and extradition of Orville Cavenas, wanted in Portland on a charge of forgery. Cavenas is now serving a year's sentence in Folsom prison for participation in the robbery of gold from the steamer Humboldt.

Cavenas is to be brought to Portland upon request of the Burns Detective Agency for alleged participation in the deal in which the Merchants' National Bank was swindled out of \$2100. Under the name of J. O. Ross, Cavenas is said to have posed as a wealthy stockman in Idaho, and engineered the Idaho end of a swindle which resulted in Charles Barrett, who handled the Portland end, being given a sentence of from two to twenty years in the state penitentiary.

## REBELS SURROUND HAYTIAN CAPITAL

(United Press Leased Wire.)  
 Port au Prince, July 29.—American intervention as a last resort, it was learned today, is the hope now of the Simon government in Hayti, and every effort is being made to get the American authorities to put an end to the revolution.

With the revolutionists under General Leconte completely surrounding the capital, their advance guard within three miles of the city itself, and with President Simon completing every preparation to escape, even if he has not already done so, the overthrow of the present government is hourly expected. The city presents a deserted appearance, everyone remaining indoors except under absolute necessity. The public force and those of General Firmin, commander of the rival wing of revolutionists, and himself a candidate for president.

## Worker in High Art

Miss Madge Claiborne, a pretty Galveston girl, whose great grandfather was a governor of Louisiana, paints signs for the big advertising company in New York, not because of love for the work or to create a sensation, but to earn her livelihood. She is saving her money so as to be able to study art. Miss Claiborne has done much creditable work in miniatures.

## GHOULS' CHASERS ARE FOUND GUILTY; GET LONG TERMS

Detectives Are Convicted on Charge of Attempted Blackmail; Sent Threatening Letters to Millionaire's Family.

(United Press Leased Wire.)  
 Erie, Pa., July 29.—Gilbert Perkins and Charles Franklin, manager of the Perkins Detective company's Philadelphia agency, were found guilty here today of attempted blackmail and of having used the mails wrongfully. Perkins and his employee, who have been opposed to the Burns Detective Agency in the McNamara case, were arrested some weeks ago, charged with having sent threatening letters to the family of Charles Strong, the dead millionaire, whose mausoleum was despoiled here.

The government charged that Perkins and Franklin, who were originally posted to catch the ghouls, conspired to frighten the Strong, expecting that they would be employed to furnish guards for the mausoleum. The prisoners declare that their arrest is due to a conspiracy by members of the Burns agency. After conviction Judge Orr immediately sentenced Franklin to five years and Perkins to three years in Leavenworth prison. Perkins broke down and begged for mercy. The prisoners will appeal the case.

## CRITICIZES LAW THAT COMPELS HIM TO SENTENCE PRISONER

Warrants for Jones' arrest were secured, one on a disorderly charge and the other on a resisting an officer charge. The latter was dismissed, but Judge Tazwell took the other charge under advisement and ruled this morning accordingly. At the time the matter was taken under advisement, Judge Tazwell in a forcible statement from the bench, championed the cause of men who enter a theatre without coats, taking the position that a rule to the contrary was an unjust one. However, conclusive authorities were produced to show that the theatre is not a public institution and that the ticket is a license to attend the show as long as certain rules made by the theatre management are complied with, no provision, however, being made for unreasonable or impossible regulations.

## MAYOR RUSHLIGHT TAKES FIRM STAND AGAINST STRIKERS

Executive Promises to Stop Attacks Made by Machinists' Pickets Upon Non-Union Employes of Shops.

## STATEMENT SIGNIFICANT; SURPRISES POLITICIANS

Extremists Who Predicted He Would Favor Labor at All Times Wonder.

"No man has a right to assault and beat another man without provocation and I shall certainly take steps to see that these abuses are stopped," declared Mayor Rushlight this morning when informed by a delegation of machine shop owners that pickets of the machinists' union are waging a systematic campaign of terrorism against nonunion men employed in the shops.

Mayor Rushlight's statement is significant in view of the fact that it is the first occasion on which he has been called upon to make a decision on a matter pertaining to the difference between union labor and capital. Before election it was freely predicted by extremists that in the event of a Rushlight reelection the city would be turned over to the unions. Mayor Rushlight's answer to the shop owners' delegation is taken as a conclusive refutation of the ante-election forecasts of his opponents.

**East Side Man Heads Body.**  
 Heading the delegation this morning was O. E. Heintz of the Pacific Iron Works. Mr. Heintz is a prominent member of the East Side Business Men's club.

"Ever since the union machinists went on a strike a year ago last June," said Mr. Heintz, "they have been carrying on a guerrilla warfare against non-union men employed in their places. From time to time a non-union man has been beaten and knocked senseless for refusing to join the strikers. Of late conditions have become intolerable. Pickets of the Hicks machine shop, in west for non-union workmen and set upon them whenever they were unable to intimidate the 'scabs,' as the unions term such workmen, by mere words."

**Matters Come to a Climax.**  
 Matters came to a climax the day before yesterday, when W. D. Conn, an employe of the Hicks machine shop, at East Third and East Oak streets, was attacked by a number of union men in broad daylight and knocked into insensibility.

Conn, his face a mass of bruises and his head bandaged in a black rag, accompanied the delegation to the mayor's office this morning. Sergeant Smith of the police department also came with the visitors.

After a representative of the delegation had laid the case before him, Mayor Rushlight gave utterance to the statement attributed to him at the beginning of this article.

**Instructions for Chief.**  
 "I will instruct the chief of police to investigate this matter thoroughly," continued the mayor, "and if the facts are as set forth a continuation of such outrages must stop. Every man is entitled to protection, no matter what his calling or station in life."

The shop owners were very pacific in their demands and they carefully refrained from making any statements that would make them seem to appear prejudiced against union men in general.

They believe, on the contrary, that the unprovoked assaults that have characterized the strike of the machinists have been made by a gang of thugs that are not even in the good graces of the respectable members of the union. The delegates to the mayor's office, on leaving the mayor's office, that the mayor will take action to secure non-union workmen from being submitted to further annoyances.

## BOOTH-KELLY MILL, BURNED, LIKELY TO CHANGE LOCATION

Loss in Great Springfield Fire Is \$250,000, Including 5,000,000 Feet of Lumber—Eight Towns Made Dark.

(Special to The Journal.)  
 Eugene, Or., July 29.—Entailing a loss of upwards of a quarter of a million dollars, the big sawmill of the Booth-Kelly Lumber company at Springfield was completely destroyed by fire last evening and 150 men, most of them married and with families, were thrown out of employment.

The big steam electric power plant of the Oregon Power company, adjoining the mill, was temporarily put out of commission, but the company officials think they will be able to resume light and power service late this afternoon or tonight. In the meantime the cities of Springfield, Eugene, Albany, Corvallis, Junction City, Harborsburg, Brownsville and Baker, which are supplied with light and power from this plant, are without electricity. Factories and newspapers which depend on electric power to drive their wheels have had to rig up gasoline motors or remain idle. Some of the manufacturing plants have shut down but the newspapers are utilizing gasoline engines.
