Fads and Fashions

New York, July 29 .- Some fashion authorities have expressed the opinion that the coming autumn will bring many important changes of fashion. They say that the prosperity of the manufacturers and dealers in dress goods demands a decided change in the fashionable silhouette. It is claimed that only by such a radical change can the business be made profitable again. The depression in the business of the manufacturers and dealers was due not only to the fact that the fashionable dresses required an unusually small amount of material, but also to the fact that owing to the retention of the siender silhouette for a number of seasons women were enabled to wear their old frocks for several seasons without being actually out of style.

The same authorities admit that sudden radical change of the silhouette is not probable, as the women seem to like the present style, with its straight and narrow lines. The designers have been experimenting lately with introduc-ing certain modifications of the prevailing style which will eventually lead to change of the silhouette. Here and there one has seen a skirt with a trifle more amplitude than the majority, a noticeably smart frock with the natural waistline defined. Flounces and plaitings have crept into use, though very

flat and limp.

The fashion struggle of the autumn will undoubtedly rage most hotly around the sleeves and skirts, though coat lengths are a burning topic at The general opinion seems to be that the kimono sleeve must go. be sure, that battle cry was raised last summer and everybody knows how far the kimono sleeve went, but the law of probabilities seems to be in favor of carrying out the decree this time. It safe to predict that the autumn will bring a change in the sleeves.

A NOTRE DAME LADY'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, scistica, lumbagos, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it, her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. A terrible thrust at woman's loyalty, However, I don't believe that woman is giving good advice. I don't believe her theory will work out to the girl's advantage

That there is too little of real friendship among women, is true. There friendship among our sisters is not to decry it, but to extel its virtues. If we would have our women prove true when it comes to a "pinch," we must hold before their vision the glory of friendship. We must teach them how o be friends. CRATER LAKE

Medford, Or., July 29 .- The Crater lake season has opened after being held back for several weeks by a late spring. Travel this year to the lake gives promise of being heavier than on any year yet. Daily, sutomobiles are arriving in Medford on their way to and from the lake.

Now that Pumice hill has been elim-

Now that Pumice hill has been elin inated by the new grade built by publi subscription, it is possible to reach the lake in machines with little effort where once there was a 15 per cent grade for a mile up which a machine could hardly make its way there is not a road with a maximum grade of per cent, 16 feet wide, over which machine can run with safety at append 30 miles as hour. No langue mathe road to the lake be considered difficult to the lake be considered difficult to the lake by automobile.
