AUTO BREAKS DOWN AS TIDE RUSHES IN

Several Portlanders Slightly Hurt in Peculiar Mishap on Nye Creek Beach.

(United Press Lessed Wire.)

Newport, Or., Aug. 9 .- The auto stage from Otter Rock to Newport met a serious accident this morning while rounding a point just south of Jump Off Joe on Nye Creek beach. Attempting to pass the point between waves the car hit a crab hole and broke the front axle and steering wheel. The radiator springs and front wheels were also baddamaged

The car was owned and driven by W. Marsters of Portland. He and John Olsen of Newport were thrown through the glass front and badly cut about the face and hands. The other occu-pants, Miss Medora Steele, Layton Steele, Mrs. Matilda Knapp and two little girls, whose names were not obtained, were thrown into the surf. Miss Steele and Layion Steele were painfully bruised, but Miss Knapp and the two little girls escaped injury.

Miss Knapp says the first thing she knew she was in the water and was afraid she was under the car. Retaining her presence of mind she tried to swim and when the wave receded she was able to reach the rocks and clamber Miss Knapp is a step-daughter of J. S. McNair of 483 East Twentieth street north, Portland. The Steeles are children of S. N. Steele of the Brong-Steele company in the Lewis building,

Officers and Directors of the Astoria Centennial Celebration

wire, arranged for the centennial committee without charge, has been installed by the Western Union Telegraph com-S, shortly before noon, and there will pany, and not a single message will be allowed to go over this wire for 20 minutes before the president closes the

Astoria is filled with visitors, and there appears to be no overcrowding at this time. Everyone is wearing a smile, and the visitors are taking on the car nival spirit.

Ten of the Torpedo Pleet Arrive. Ten vessels of the United States Pacific torpedo fieet arrived from Bremerton, Wash., at 6 o'clock this morning and anchored in the stream. They are: The Whipple (flagship), Hopkins, Hull, Truxton, Jaul Jones, Perry, Preble, Stewart, Lawrence and Rowan. The Farragut and Goldsborough are at

will be able to come at all. The fleet is under command of Lieutenant Commander Louis G. Richardson Boxing Is to Go On.

Despite what Sheriff Burns says, boxing and wrestling matches will be held at the Astoria centennial pageant. In an official opinion rendered by Attorney General A. M. Crawford upon the request of the centennial committee, it is stated that the sheriff has no right to interfere with boxing or wrestling matches where no prizes are offered. Burns had declared that he would stop all boxing or wrestling matches as planned by the Centennial committee. He admitted that there was nothing illegal in the projected matches, but insisted that as the public had always been defrauded in such matches in the past he would not allow them to be held under the supervision of the Centennial committee. Hence the highest authority in the state was appealed to for an opinion that the committee in charge might know the attitude of the state officials. In his opinion, the attorney general says:

Text of the Opinion. "Under the facts you present I can see nothing illegal in the same. While considerable latitude is given the sheriff in the performance of his duties, I doubt if he has the authority to prevent any exhibition, merely because similar exhibitions, previously held, may have been fraudulent. The proposed exhibition must show upon its face that it is a fraud upon the people likely to result in such before the sheriff would be justified in interven-ing and preventing the same."

Plotilla to Remain Three Weeks. The Pacific coast torpedo fleet will be anchored here for three weeks of the centennial pageant. The fleet staff and roster is as follows: Lieutenant Com-mander Louis C. Richardson, fleet commander; Ensign S. E. Holliday fleet engineer inspector; Assistant Surgeon A.

Davidson, fleet surgeon. First torpedo division-Lieutenant John G. Church, commander; U. S. S. Whipple (flagship), Lieutenant John G. Church, commanding; U. S. S. Hopkins, Lieutenant Harold G. Bowen, commanding; U. S. S. Hull, Lieutenant Harold Jones, commanding; U. S. S. Truxton, Lieutenant R. P. Scudder, commanding. Second Torpedo Division, Lieutenant Frank McCommon, commander—United States ship Paul Jones (flagship), Lieutenant Frank McCommon commanding; United States ship Perry, Ensign Thomas A. Symington commanding; United States ship Preble, Lieutenant R. S. Culp commanding; United States ship Stewart, Ensign William F. New-

ton commanding. Third Torpedo Division, Lieutenant Earl R. Shipp, commander—United States ship Lawrence (flagship), Lieutenant Earl R. Shipp commanding; United States ship Farragut, Ensign Henry R. Keller commanding; United States ship Goldsborough, Ensign R. E. Cassidy commanding; Uinted States ship Rowan, Ensign Robert F. Goss mmanding.

Hood River Oaks Grubbed Out.

Hood River, Or., Aug. 3.—The large oak trees that have stood in the streets of the business section of the city are being grubbed out to make way for street paving and other improvements. Many of the citizens are averse to hav-ing the large trees removed and some of the members of the city council have taken the same stand in the matter. However, the majority of the council stands for their removal.

A REGION OF DELIGHTFUL SUMMER RESORTS

Garibaldi Beach

Nature has crowded more opportunity for summer recreation and pleasure into GARJEALDI BEACH than any other section of the Oregon coast. Principally, these are a wide, hard sand beach, a chain of fresh-water lakes, a long stretch of primeval forest and a picturesqueness that is wonderfully entrancing.

Man has added to these marvelous attractions by just completings railroad line from Portland direct to the GARIBALDI BRACK and down along its entire length of six miles, making it possible to reach its eleven resorts in quicker time than any other part of the seashore of Oregon. Many buildings now under construction.

The owners of these eleven resorts have united in a common effort to make this stretch of beach the most ideal of Oregon's summer resting places. One important feature is that over half has been sold. However, some of the choicest left. To secure a summer homesite requires immediate attention. Inquire at either of these addresses:

Suit for Oil Lands.

Washington, Aug. 3.—The govern-nent is preparing to file suit in the California courts against the Southern Pacific railroad for the recovery of

valuable oil lands in California which were patented to the railroad six years ago, although known to contain oil at the time of patent. Announcement to this effect was made today by Assistant Attorney General Cobb.

Bellenwater in aloundance

Sometimes ridiculously small water mains cause most of the trouble. In this connection the above illustration shows how amplesized Mains (cast fron) are provided through "East more land".

| More important, however, is the private auxiliary waterworks now being instald for this district exclusively a unique feature that cannot be duplicated elsewhere in Portland or the Northwest.

The supply is from the famous Crystal Springs, From whence gush daily a volume of cless, sparkling, icy waters to the extent of SEVEN MILLION GALLONS - sufficient to supply one-fourth the entire city:

This is now being conserved. So in reserve, "Eastmoreland" has the finest water in unlimited quantities for drinking purposes, for sprinkling and for use in case of fire - another of the reasons why I have said "Watch Eastmoreland Now."
