Members Urge -Republican Leader Mann Not to Attempt Filibuster, Permitting Tuesday Adjournment.

UNDERWOOD OBDURATE; INSISTS UPON DEBATES

Democratic Captain Refuses to Drop Consideration of Important Schedules.

(By the International News Service.)
Vashington, Aug. 19.—Tentative Aug. Washington, greement was reached between the and senate leaders today to adfourn the special session of congress at o'clock Tuesday afternoon.

The one cause of uncertainty is the cetton bill, which Chairman Underwood reported to the house this afternoo With statehood out of the way, the house having passed the measure late this afternoon, nothing remains but to dispose of cotton. There are some fears that Republican Leader Mann may inaugurate a filibuster against this when it is taken up for consideration Monday morning, but It is believed he will be dissuaded from any such attempt. Underwood Is Firm.

Every effort was made today by Vice President Sherman and Senator Penrose to induce Underwood, leader of the house Democrats, to agree to adjourn-ment tonight. Underwood insisted, however, that such a plan was impos

He pointed out that the iron, steel and chemical schedules inserted in the cotton bill by the senate had not been debated by the house and he expressed the opinion that it was only fair that the measure be given some consideration by the lower branch and that the president should have an opportunity to cide whether he desires to communicate another veto message to congress.

With Adjournment of Congress Set for Next Week, President's Trip to Pacific Coast Seems Assured.

(By the International News Service.) Washington, Aug. 18.—With the ad journment of congress early next week a certainty, there is now little doubt that the president will extend his western trip to the Pacific coast. Until congress finally adjourns, however, and the president has had a few days' real rest at Beverly, no attempt will be to make up a definite itinerary

It is known that the president is eager to visit the coast, and particularly anxious to attend the ground breaking ceremonies for the Panama-Pacific exposition, and he has been waiting definite announcement of the date of adjournment of congress in order to finally make up the itinerary of the trip. He will go to Beverly immediately upon adjournment and it is probable that

the announcement of the route of the western trip will be made by the end

In an interview with the president on Thursday, Congressman Stephens was assured that Los Angeles would be one of the objective points of the presidential journey and that the president would enter the state from the south and make Los Angeles his first stopping point in California. Just how long he would be able to say was not long he would be able to stay was not stated, as no attempt as yet has been made to arrange a schedule. The presmade to arrange a schedule. The president originally planned to leave Washington about September 16 and apend four weeks on his western tour, going only as far as Kansas City. With the western visit in mind, he will probably leave about September 10 and he in California the first or second week of October. When discussing a tentative date on which he might be in San Francisco for the ground breaking caremony of the exposition, he suggested the fifteenth day of October, as probably the most likely date on which he could arrange to be present. If this date is fixed he will probably reach Los Angeles on or about October 10 or 11.

The French have not only studied out scientifically what is best to eat, but by scientific schools, long ago established, have made research and by evolution have arrived at perfection of preparation at a minimum of cost.

"Cooking is no haphazard matter in France as in America, but it is a science and an art with traditions so well established that they cannot be broken. SECRET SERVICE NABS WHITE SLAVE AFTER LONG CHASE

Clad in Men's Clothing, Girl Witness Against DeSota Is Caught in Nevada Mining Camp; En Route to Portland

(Special to The Journal.) Reno, Nev., Aug. 18 .- James Ganor, a government secret service officer, has left Reno for Portland having in custody Cora Farmer, wanted as a witness in a 'white slave' case. Ganor arrested the girl here after a chase that covered

3000 miles through three states. The woman disappeared from Portland after she had appeared before the United States commissioner and the federal grand jury and testified against John DeSots, who placed her in a house of prostitution and collected her earnings. It was her testimony that resulted in the indictment against De-

Sots, whom she charged with luring her away from her husband. A conviction could not be got in the federal court where the case is awaiting trial unless she appeared. The girl was traced to the mountains south of this city. She was with a young man and when found was clad in men's ciothes.

Mrs. Overmyer, who conducted the house in Fall City where the girl is said to have been taken, and C. A. Hipp were also arrested here the same day. In the camp where the girl, giving her name as Mildred Glidden, was caught no women's clothes could be found. She would not explain her actions other than that she disappeared from Portland in order to avoid testifying in open court. (United Press Leased Wire.) Coatesville, Pa., Aug. 19.—Three alleged ringleaders of the mob that took "Zack" Walker, the negro, from a hos-pital here last Sunday night and burned him to death, were arrested; late this afternoon. They were shackled together and taken to the Westchester jail by the state police, charged with murder. With the prosecution new in possession of complete evidence against everybody of prominence who took part in the lynching, further arrests are expected. Joseph Schwartz, 23, was taken into custody after he had talked at great length to the district attorney. According to this official, Schwartz is the man who carried the rope with which the negro was dragged to the stake and also carried straw with which the man was set wifire.

Albert Berry, an aeronaut, and Wil-liam Gilbert, a fireman on the Phil-adelphia & Reading railroad, who were actephia & Reading fallroad, who were arrested yesterday as "material witnesses" and put under ball, were also rearrested, charged with murder. The prosecution alleges that Berry was one of the "lookouts" and that he preceded the mob and went to the hospital, returning again to tell the people that there was only one policeman on guard and describing to them the exact location of the negro's cot. Gilbert is also declared to have been a lookout for

the mob.
