FOR SALE—HOUSES 61

$100 Down

I am moving to California and will sell my house to the most responsible person at practically their own terms.

There are 8 exceptionally large rooms in this house; there is a porch across the front of the house, and extending along the full length; the rear half is incased in glass and used for a conservatory in winter and a breakfast room in summer; there is another porch on the other side of the house, also incased in glass, off from which is a lavatory.

A long bevel-edge plate-glass door opens into a large reception hall, off from which are doors opening one into the living room and the other into the dining rooms. The living room, 14x16, has a triple bay window opening on the front lawn, on the other side is another window opening on the side lawn; an arch opens from this room to the library.

The library 14x16 has a large triple window opening on the side lawn, while a door opens into the dining room. These two rooms have cream ceilings and imported two tone English paper of a beautiful rose design.

The dining room is 14x16, and has a triple bay window opening on the side porch; doors open, one on the porch, another to the reception hall, and a double acting door opens into the kitchen, another into the library; this room has cream ceilings and a German imported paper of a deep brown Grecian pattern effect.

The kitchen, 14x16, is the pride of the home; this room has a pretty apple green imported English washable paper of a tile effect, with a heavy eight inch molding around the corner of the ceiling; this kitchen is one of the most complete ever designed, having cabinets all around its walls from floor to ceilings, the upper parts of the cabinets are used for storage purposes, while the neat compartments below have metal glass doors, are for dishes, etc.; below this, on one side, are small bins for cereals; on the other is a long molding, below which are pot and kettle closets, sugar and flour bins, cooling closets for food; there is a woodlift and boiler closet; inlaid linoleum on the floor; there is an electric connection in the wall for light lunches, ironing, etc.; doors open from this room to two glass inclosed porches and basement.

The basement, 7½ feet high, is full length and width of the house, cement floor and has a laundry 12x14 with cement wash trays, ironing plug, etc., a large furnace room with coal bunkers and storage room; a servants' room 14x14 is papered with imported German paper; there is a large wood room, so arranged that the tradesmen can enter, take and leave orders.

From the reception hall stairs rise to the hall above, off from which are three large bedrooms and a bath.

The front bedroom is a suite of rooms consisting of a bedroom and dressing room with windows four feet wide and closet, this room is papered with a pretty imported blue striped paper and cream ceilings.

The side bedroom, 14x12, is papered with paper of large rose design. A window opens on the side lawn.

All these bedrooms have cream ceilings and a pair of dresser lights; large closets.

The bath is 10x12, with a full line of plumbing, consisting of a low down flush toilet, heavy rolled rimmed bath tub and a washstand with an eight-inch apron, above which is a plate glass mirror; built in the wall on either side of the room are large chests of drawers to store blankets, etc. There is a built in medicine chest, inlaid linoleum on the floor.

This house is old ivory enameled throughout, giving it a very rich effect. There are $250 worth of electric fixtures, duplex window shades at the windows, and inlaid linoleum on the kitchen and bath so with the house. In both halls and bay windows of each room are baseboard electric plugs to attach stand lamps, electric statuary or carpet sweeper; in the dining room floor and at each door entrance to the house are push button call bells connected to an annunciator in the kitchen. The lawn is all fixed for seed, and healthy rose bushes of choice varieties are in and full bearing; climbing roses and honey suckle are at the windows, while tree roses set in the angels of the house; between the pillars of the porch are hanging baskets.

I will sell the house, with or without the furniture, and will take desirable acreage or city property as part payment.

Phone Owner M. 5338. At home Sunday.

FOR SALE—HOUSES 61

$20 PER MONTH

I have just completed one of the finest homes in Rose City Park, the ideal section of Portland, where every family is satisfied and happy. If you are tired looking at cheap built-to-sell houses and want a home where you will be happy and satisfied with your bargain, you will not regret taking the time to look at this property. The lot is 50x105 within 500 feet of the car line and beautifully located. The house is thoroughly well built in every detail—double construction and guaranteed first class throughout. A nice large porch runs the entire width of the front and half way around the south side. The plan and interior finish must be seen to be appreciated. It is just right. All of the six rooms are large and beautifully arranged. The living room has book cases and writing desk and very pretty fireplace. Dining room is paneled and beamed with as pretty a buffet as you ever saw. Hardwood floors in front hall, living and dining rooms. Front and back stairway. Full cement basement. Dutch kitchen. Clothes chute. Window shades. Piped for gas and wired for electricity. There is not a more desirable home in Portland for the money and you will agree with me when you see it. Price $4100 as it stands or $4500 with furnace installed. Terms $20 per month with a reasonable cash payment. Take Rose City Park car to 59th street and walk north to number 660. If house is not open ask for key at 648 E. 59th, North.

WILL SELL FURNISHED OR UNFURNISHED.

I am willing to sell this beautiful little home to the most responsible person. We are leaving for California within the next 10 days and prefer to sell our home to some responsible person on a small payment down and the balance as rent, than to rent the place. We don't need the money, but want someone to take care of the house as we would.

The porch is supported by massive columns. A beveled-edged plate-glass oak door opens into a good-sized reception hall, off from which is a coat closet, the door having a beveled-edged pier glass mirror. A columned arch opens into the living-room.

The living-room, 14x14, has a beautiful cream brick fireplace, a large triple window opens on the front porch, while an arch opens into the dining-room.

The dining-room, 14x14, has a triple window opening on the side lawn; there is a plate rail, and below the walls are plaster paneled; a built-in china buffet has very pretty designed metal-glass doors. A heavy eight-inch corner molding runs around the ceiling. These rooms are tinted in leather and cream ceilings, while above the plate rail is a pretty coffee brown. The woodwork is all hand finished and stained a rich golden oak, with a gloss finish. A double-acting door open into the kitchen.

The kitchen in this house will be the pride of the home, with its many drawers, sugar and flour bins, pot and kettle closets and dish cabinets.

A double window opens on the side lawn, a glass door opens onto the rear porch, while another opens to the basement. There is a boiler-room and woodlift; this room is done in white enamel, and tinted in a delicate pale green.

The basement has numerous windows. A door opens from the dining-room to a pass hall, off from which are two bedrooms and the bath.

The rear bedroom is white enameled, and tinted in a pretty pale blue; there is a large closet, and stairs lead to the full attic.

The bathroom has a full line of plumbing, including a heavy rolled-rim bathtub, a low-down flush toilet, and a 6-inch aproned washstand. There is a built-in medicine closet, with mirror door. This room is white enameled, and tinted in robin-egg blue.

The front bedroom is white enameled and tinted in a pretty pink. This room has a large closet, and windows opening on the side lawn. Shades and screens on all windows, linoleum on floor.

I am not particular as to the first payment down, and would take a desirable lot or acreage. The house is one block from a good 7-minute and close to another car, close to a good public and Catholic school and churches. There are beautiful square brush-brass electric and gas fixtures, and on the finest automobile street in the city.

Built to Suit

We have just completed arrangements to have fifty houses built, in almost any location, the purchasers selecting their interior and exterior arrangements, and choosing the architectural designs.

How often has the prospective purchaser seen houses that almost met his requirements inside, but the outside was not as he would like it? or, perhaps, the neighborhood was not desirable.

It is these defects we seek to remedy.

Our experience has proved that there are a great many starting in business who cannot afford to lay out any great sum as first payment without taking it out of their business, but who could well afford a good, substantial monthly payment. Again, there are others who have been paying a large rent and have never thought about having a home and have consequently not saved. It is these we wish to interest.

This manner of buying a home will not be any more expensive than if you had one contracted except for the interest, and if one stops to consider that the rent he is now paying is just the same as interest, besides it is conceded by all that property increases in value each year at least to the extent of the interest—if this is true you save your rent, and more often you can save money on your present rent by making the interest less than your rent.

There is no safer investment wherein one can put his money and get so large interest as to buy real estate; the whole secret is to

Get the Start

An individual in building a home does not have the ideas of convenience as one who has been continually associated with different builders, architects, etc., though each may have a little hobby he would like in his home, such as a closet arranged to hang clothes on hangers, as the modern clothier does, or it may be a closet with hat boxes built in, or a water cooler to save the ice bill, a convenient chest of drawers, built-in ironing boards, cement fruit closets and electric lighting system, that subtle something that gives health and beauty to the home and individual; the sleeping porch if for health; the conservatory for flowers, and breakfast rooms for convenience, and those decorations that imported friezes and beautiful paper designs give are incalculable to interior finishes, and just think of the lawn and shrubbery; one can live in his own home, and the nice, large yard for happy, rollicking children to play in, that bring a bloom and tan to the cheek that pales the most beautiful rose into insignificance.

This Is Home

Now as to construction: These houses will be built right, just as desired, with hard finished woodwork and painted and decorated to your ideas; best of material of all kinds.

If you have an old house and wish a larger or better one, we will take yours as part payment. If you have a lot or if you have a good equity in a lot, we will take it as part payment.

All we ask is for you to call and let us explain our plan and show our plans.

50x100
$15 a Month

I am leaving the city for California and will sell my home to the most responsible party on terms just as rent.

The first payment shows it is not a matter of money, as it is to get some one who will take care of the house as I would.

The porch is full width of the house; a door opens into a reception hall, which has an arch opening into the living room.

The living room is quite large, with windows opening on the front porch, and side lawn; a columned arch opens into the dining room.

The dining room is 13x14, and has windows opening on the side lawn; a double acting door opens in the kitchen; another door opens into the front bedroom; these rooms have the woodwork done in old ivory enamel, with crushed strawberry or old rose color tinted walls and cream ceilings.

The front bed room has a window opening on the side lawn, and a door opening into a large closet. Another door opens into the bath room. This room is tinted a pretty pale blue, with cream ceiling, while the woodwork is white enamel.

The bath room has a full line of modern plumbing, consisting of toilet, washstand, bath tub, and is white enameled, with walls tinted a robin-egg blue.

The kitchen is 12x12, and has windows opening on the side lawn, while a glass door opens on the rear porch; another door opens in the rear bedroom, and another into the pantry; this room is white enameled and tinted a pretty buff, with cream ceilings.

The rear bedroom has windows op
