Unidentified Body Found—The remains of an unidentified man were found this morning by Mate E. P. Williams of the steamer Pomona, floating under the dock at the foot of Taylor street. The body was turned over to the harbor patrol and towed to the foot of Salmon street where it was turned over to the coroner. The body had been in the water about six days. There is nothing on the body by which it could be identified. About \$1 in money and a gold watch was found in the deceased's pockets. No marks of violence were found. It was first believed that the body was that of Charles W. Jones, the missing hotel man, but this was proved to be not the case.

Sunday Liquor Cases—Mrs. Mary Fozie, of 261 Union avenue, was arrested yesterday afternoon by Patrolmen Gill and Myers for selling liquor on Sunday and without a license. The woman invaded the rooming house conducted by this woman and found six men in the dining room drinking. A large amount of liquor was found in the room and the 5-year-old daughter of the woman arrested was seen serving the liquor. Rudolph Balerno, a roomer at the house, who tried to prevent the patrolmen from taking the woman to the station, was arrested on a disorderly conduct charge.

The patrolmen saw several men go into the bar and then return, apparently well satisfied with the visit, and believing that liquor was being sold, sent the young boothblack upstairs. They followed and made the arrest.

Auto Truck Bums Amuck—An auto truck driven by John Myers yesterday morning got beyond the control of the driver and crashed into the William E. Martin grocery store at 201 East Stack street, wrecking the front of the building and partially demolishing the auto truck. Police headquarters was notified, but

shortly after, Patrolman Sims saw a man answering the description at Fourth and Oak streets. The man was brought to the station for investigation and declared he was Baron Sergis Alonso Cabral, son of a Portuguese family. When searched a large "bull-dog" revolver was found in his pockets, which the "Baron" declared he was carrying for protection against anarchists. He was locked up on a charge of carrying a concealed weapon. He had but 11 cents in his pockets when locked up.

as a result there will be a long docket tomorrow when the session opens. Many arrests have been made since Saturday afternoon.

BILLY SUNDAY ASSAILS MOVING PICTURE SHOWS (Special to The Journal.) Hood River, Or., Sept. 4.—"Billy Sunday," the baseball evangelist, preached in the Methodist church Sunday morning to a crowded house. He followed his usual style of handling his subject without gloves and the moving picture shows came in for a hard rap. The evangelist announced that if he was in Hood River over next Sunday he would preach again.

Elk Came Down to Farms. (Special to The Journal.) Hood River, Or., Sept. 4.—The forest fires on the west fork of Hood River drove large game down into the settlements. Residents of the upper and lower valley have seen a lot of bear, deer and cougars lately wandering about the farms. Several elk came up to one of the farms the latter part of the week and seemed perfectly tame. Newcomers not in the habit of seeing big game go about apprehensively.

Water System Awaits Money. Hermiston, Or., Sept. 4.—The water system for Hermiston is now awaiting money. Bids for the bonds have been called for but will not be opened until October 11. As soon as the bonds are sold the work will then be rushed in order that the city will have fire protection and a good water system. The site for the reservoir on the butte will undoubtedly give a fine pressure and will insure good fire protection.

Mr. Hood went through to Hazel Dell, the terminus of the contract, but declined to make any statement as to how soon more contracts would be let for the completion of the 100 mile gap that remains to be constructed before routing trains to California can be routed this way.

Two reasons point to the early award-

ing of another contract: Railroads are reluctant to allow money to be tied up in unproductive construction work, and they also prefer to keep construction crews intact. Moving of steam shovels and other construction material is always done at the expense of the railroad, and it requires time to assemble and organize a working force.

Peasants in Missouri. Jefferson City Correspondent St. Louis Republic. Many inquiries are being made here concerning the condition of the English pheasants distributed last fall by State Game and Fish Commissioner Tolerton. Persons making these inquiries want to know if the birds passed through the winter safely and if they give evidence of being able to take care of themselves in this country and will multiply when properly protected.

Tolerton admits he cannot satisfactorily answer these questions. What he feared was that the pheasants would show a disposition to become domesticated, and in part there is some justification for this belief.

About 8000 pheasants were distributed through 100 counties early last fall. Seemingly the Missouri climate agrees with the birds, but many of them showed a disposition to keep near barnyards during the winter, and in some instances they mingled freely with chickens.

This spring, however, the female birds sought the woods and fields, but for some reason the male birds seem disposed to stay about the barnyards.

Tacoma would like to have the Democratic national convention meet in her new stadium, which has a seating capacity of 30,000.

RAILS NOW RUN TO BLAKELEYVILLE Chief Engineer Hood Won't Say When Other Natron-Klamath Work Done. (Special to The Journal.) Natron, Or., Sept. 4.—Chief Engineer William Hood late Saturday night completed an all-day inspection of the Utah Construction company's contract of 35 miles of the Natron-Klamath Falls out-off, and left at midnight from Eugene for the south. The grade has been completed on the whole of the contract, and rails laid 25 miles to Blakeleyville. A short distance east there is to be a steel bridge across the north fork of the Willamette, and as soon as this bridge is in, the rest of the rails will be laid. The concrete abutments for the bridge are already in, and the trusses themselves can be quickly swung as soon as the material can be brought in.

Mr. Hood went through to Hazel Dell, the terminus of the contract, but declined to make any statement as to how soon more contracts would be let for the completion of the 100 mile gap that remains to be constructed before routing trains to California can be routed this way.

WOMAN IS ATTACKED; ASSAILANTS ESCAPE Mrs. D. P. Holt, a trained nurse of Lent's is today recovering from an attack by two unknown men last Friday night, who attempted to force her to go to Oregon City with them in an automobile to perform an illegal operation on a girl who lived there. The men who attacked Mrs. Holt, escaped in an automobile. Deputy Sheriff Hall of Lent's is searching for the assailants of the woman.

Mrs. Holt, who lives at Grays Crossing, had just left a friend and was walking home when she saw the two men in an automobile approaching her. The machine stopped when it reached her and the men got out and made known their plans, promising Mrs. Holt high pay if she undertook the case, but when she refused both of the men seized her and in the attempt to put her in the machine her clothes were torn. She fought vigorously, screaming for help as she did so. The men took fright and jumped into the machine and rode away. The attack happened in front of the home of Mr. and Mrs. E. W. Wilson, who found Mrs. Holt in a precarious condition. Dr. J. H. McElroy attended her.

Mrs. Holt said that these two men had approached her several days ago in an attempt to gain her help.

STATE'S LARGEST CHURCH REARED IN VILLAGE Victoria, Kan., Sept. 4.—Rising out of the prairie like a mountain and dwarfing beneath its shadows the village that surrounds it, the new church of St. Fidelis, said to be the largest church building in Kansas, has just been completed. Passengers on the Union Pacific trains passing through this little village of 200 people marvel at the sight of it, and wonder how it is possible for such a small place to build a \$200,000 church.

The answer is that while Victoria itself is small, the congregation extends beyond the confines of the village and even into the surrounding counties. Victoria, once an English colony, is now the center of a big Russian settlement, and it is no uncommon thing for members of the parish to drive 25 miles over night to attend mass Sunday morning.

Japan now has 110,000 telephones and is rapidly adding to the number.
