

MILES OF SWITCH GO IN VALE YARDS

Line to Malheur Pass Seems Near Unless Activity Is a Right of Way Bluff.

(Special to The Journal.)
Vale, Or., Sept. 5.—Preparatory to the building of the Oregon Eastern railroad out of this city into Harney county, the local railroad yards are being enlarged by several miles of switching tracks over the new three quarters of a mile of right of way just secured west

of this city by the Oregon Eastern railroad from the Oregon & Western Colonization Co. Large gangs of laborers are at work laying temporary tracks whereby the special work train and mechanical unloader can be used to fill in the local yards. When completed, the yards will have three miles of track and the extensions of the work all indicated that much more work is to be undertaken within a few weeks.
Gordon Guptill, an abstracter of the Oregon Short Line, completed his work here Friday and left for headquarters at Salt Lake with complete records and data for an abstract of all the property from the Vale, yards to the mouth of the Malheur canyon. While every step of the railroaders points that the Oregon Eastern may be built out of this city this fall through the Malheur pass in order to hold that important franchise, many here believe that efforts are now being made by the railroad people to secure an extension of

their expiring franchise to a right of way over the government lands.
Malheur Fights Are Numerous.
(Special to The Journal.)
Vale, Or., Sept. 5.—The September term of the circuit court for Malheur county, which convened here today, will be busy, as 18 indictments were returned by the grand jury Saturday. The numerous indictments largely result from the epidemic of assault and battery which has been on for the past few months throughout the interior country. Indicted for assault with dangerous weapons or for battery are: A. Z. Simms, a negro of Ontario; Frank Shumway and son, Jack Shumway; J. H. Hart of Westfall; John Speer and Adolph Krutz of Westfall. Three indictments were returned against L. B. Teeter and Jim Takayama of Ontario for the selling of intoxicating liquors to minors. A. B. Converse, a traveling man of Portland, is being held in the county jail on a charge of obtaining money under false pretenses. W. H. Tuttle is accused of living off the earn-

ings of a woman of Ontario. Two not true bills were also returned by the grand jury. Besides these criminal cases the docket contains a large number of civil cases.
High School Contract Signed.
(Special to The Journal.)
Vale, Or., Sept. 5.—The contract for the new \$10,000 high school building in this city has been signed by the school board and Welch & Wright of Portland. The modern structure of 10 schoolrooms, auditorium, library, gymnasium, offices and laboratories, was designed by C. H. Burggraf of Albany. It will be practically three stories high and will be built of brick, with a high cement basement. The contractors expect to have the building completed by January 1.
Packet Hits Whale.
San Francisco, Sept. 5.—While coming down the coast the packet Hecla hit a huge sleeping whale. The sea for a quarter of a mile was covered with blood.

LEBANON RESELLS BONDS AT PREMIUM

Sewer System Now Likely to Become Reality; Concrete Buildings Go Up.

(Special to The Journal.)
Lebanon, Or., Sept. 5.—Things again look favorable for Lebanon to have a sewer system. The bonds voted last year and sold in May but rejected by the attorneys for the bonding company on a legal point were reauthorized. New bids were as follows: Union Trust & Savings bank, Spokane, Wash., par, ac-

rued interest, \$2.70 per \$1000 premium and cost of preparing the bonds; J. H. Causey & Co., Denver, Colo., par, accrued interest, \$75 gross premium on the \$70,000 and payment of the cost of printing; Bidwell-Hayden Bros., par for \$66,000.
The bid of the Union Trust & Savings bank was accepted under the condition that this company put up a certified check for \$3500, guaranteeing to take the bonds provided that their attorneys found them all right. The firm of Bidwell-Hayden Bros. was next high.
Last spring Bidwell-Hayden Bros. were awarded the contract to build the sewer but the sale of the bonds held up the work. It now looks as if this sale will go through and if it does, work will commence within the next ten days. Lebanon is badly in need of a sewer.
The receipts of the Lebanon postoffice for August show a gain of 40 per cent over August 1910. The postoffice boxes are all rented and Postmaster Brown has ordered another section, which will

be installed sometime this month. There is hardly a dwelling in the city that can be rented and many new ones are under construction.
J. C. Devine has commenced construction on a new hotel upon the ground where the Hotel Lebanon was burned last spring. The new hotel will be a reinforced concrete building and three stories high with basement. The lower floor will be occupied as store buildings and the two upper stories by 75 rooms. It is Mr. Devine's present plans to make the hotel steam heated and modern throughout.
Two others are building concrete structures. Dennis Cornier is erecting four concrete store buildings on Sherman street, and S. P. Bach, president of the First National bank, is building a two story concrete building on Main street.
Shells that explode on contact with the lightest fabric have been adopted for German artillery use against aeroplanes.
