> New York, Sept. 23.—While today's gridiron contests, the first of the seaon, involve few of the bigger institutions of learning, next Saturday nearly all the big eastern colleges and many of the southern and western colleges will see their first games.

> The Carlisle Indians are, as usual the first to get into action. The redskins always play more games than any other college. They will go against the minor elevens until October 14, when their first important game will be played with Georgetown at Washing-ton. November 4 the aborigines will go to the mat with Pennsylvania and week later will make their annual trip to Cambridge to play Harvard. Later they will play Syracuse, Johns Hopkins and Brown.

There is every reason to believe that the football season just opening will be a record breaker in interest and excitement. Princeton and Harvard are both anxious to wipe out Yale victories of last fall. That Pennsylvania will again be a championship contender is generally admitted. West Point has a strong eleven and Cornell is starting the season with excellent material to

The Specialist Against The Quack

no experiment guesswork. hence no failure. He does not have to resort to fake methods. His scientific knowledge has made ham the master. The quack experiham the master. The quack experience is based on everlasting misrepresentation—upon doing the same thing wrong as many times as the unsuspecting will permit. He is ever experimenting upon the patient—if one thing fails he tries another, and keeps on changing until the patient despairs and leaves. He is ever ready to promise anything and everything. He drugs the system with powerful medicines, just to obtain temporary results. He is here today and gone tomorrow. He has as many names as fingers and toes. He constantly apes the specialist. He is a wolf in lamb's ciothes. Beware of him.

that I am trying to drive medical humbug and quackery out of Oregon.

I am the oldest licensed specialist in Portland—18 years' experience—yet I am not a magician—I do not work magic. I do not offer 1-minute or 5-day impossible cures. I do not make false promises. I cannot cure every disease under the sun, nor every case included in the diseases I treat, for some of them are incurable, and the sooner the patient learns the truth the happier he will be. I simply apply the scientific knowledge my years of experience have given me, and I do this honestly and faithfully. I never accept a case for treatment until I have made a thorough examination, and then only when I am satisfied I can effect a permanent cure. This is your best guarantee. If you wish my services they are yours at a fair and reasonable fee, which every sensible man expects and is glad to pay. You cannot get anything of value for nothing, and the sooner you wake up to this fact and regard the doctor who offers it to you with suspicion the happier you will save. I offer you the services of the best doctor at a fair price and you will everlastingly thank me for the permanent cure received at my hands. I do not draw off the fluid, which is only temporary, nor resort to the vicious practice of injecting painful drugs, as many quacks do, nor do I tie off the veins and destroy the vitality. My method is direct and positive. No loss of time, no pain, no humbug, but an absolute guarantee of a radical and permanent cure.

Mentally strong, but vitally weak is the sad condition of many men who, eager to have their strength restored, become easy victims to the quacks who promise to make young men out of old and decrepit ones, and who, for the consideration of a few victims to the quacks who promise to make young men out of old and decrepit ones, and who, for the consideration of a few miserable dollars, offer to find the fountain of youth for the aged and helpless. You take the quack's promise, he takes your money. That's all you get—no result—just his promise. A fool and his money are soon parted. Why play the fool forever? There are many distinct local conditions and causes of weakness. It cannot be cured by internal medicine, but by local treatment only. The cause must first be determined and until this is done, no cure can be effected by local or any other treatment. I do not use a single dose of internal medicine, and yet, without it, I absolutely and permanently restore complete vitality in every case I accept for treatment, which is the best evidence of the truth of my contention. My TREATMENT MAKES MEN STRONG. It is unfailing and absolute. It is painless and permanent, and given under my absolute guarantee. The quacks who pretend to cure you as I do begin drugging with powerful stimulants, just as soon as they succeed in separating you from your money. I can do no more than caution you against them.
