Center of Disturbance Now Over Alaska, and May Move Southward; Barometer Falling; Rainy Weather.

Southeast storm warnings were ordered out at some of the stations. along the Stoast at 7:15 o'clock this norning by the weather bureau for a storm of decided character that is now central over Alaska and which it is presumed will move down this way. The at the last reports while the reading out barometer was down to 25,05 at Tanana at sea this morning off North Head was 23,32 and the glass was steadily

"This is the first good winter sign of disturbance so far this season," said District Forecaster E. A. Beals this morning, "and it looks favorable for a speil of rainy weather for Portland for

The warnings ordered out by the district forecaster this morning were only placed at outer points on the coast from the entrunce of the Columbia river to the entrance of the Straits of Fuca, including Blaine, Beilingham, Anacortes and Gray's Harbor.

Should the storm develop greater proportions than are at present indicated the warnings will be extended to the interior to Scattle and Tacoma and south to Marshfield. At present, however, warnings are deemed necessary at only the most exposed points.

Wireless reports from ships outside indicate that the influence of the Alaskan storm is being felt to some extent and in addition to a falling ba-rometer a moderate southerly sea is re-ported. Reports from the North Head station stated that the wind was south, District Forecaster Beals' forecasts

for tonight and tomorrow are rain and southerly winds.

PILOT'S DIFFICULT WORK

Yangtze-Kiang River Is Hard One to Navigate.

Many years of continued service on the river steamers of the Yangstze-Kiang river in China, are necessary to make a pilot capable of taking an ocean steamer up the river from Shanghai to Hankau, a distance of 600 miles into the interior, says Captain Nutman, master of the British steamer Belle of Scotland, which discharged her last cargo from here at that port.

Captain Nutman says that the innumerable turnings and some of the narrow channels make a big list for a pilot to know but during the freshet season the country is sometimes flooded for several miles on each side of the river and to know where to find the channels at such a time takes years of study on the part of the pilots who are all Europeans. In addition to this the captain says that Off North Head—Fresh south-southeast current in the river is very swift at Harkau making piloting doubly dif- eter, 29:92, falling. ficult there. He says that compared to the Chinese port Portland is extremely easy of access to ships and steamers. When she finishes discharging her sulphur cargo for the Robert Dollar company tomorrow the Bells of Scotland will proceed to Nanaimo where she will take bunker coal and also 3500 tons of coal for San Francisco, She will leave rallroad ties at Eureka and after discharging the coal at the Bay City she

CHANGE IN CUTTER SERVICE

Seaboard Divided Into Two Divisions, North and South.

It is reported from Port Townsend that a change has been made in the revenue cutter service on the Pacific coast, the seaboard being divided into two divisions. It is thought by the de-partment that this change, will bring about better results. The headquarters of the north division, which comprises Washington and Alaska, be at Port Townsend, and those of the south division to be at San Francisco. Each of the divisions is to be in com-mand of a senior captain. It is said that the assignment of cutters for duty in the two divisions has not yet been but it is thought probable that the Masning, Tahoma Rush, Snohomish and Arcata will remain in this division, while the other cutters will be

Washington May Resume Filling of Tideflats Inside a Month.

(Special to The Journal.)
Aberdeen, Wash., Oct. 3.—Work on raising the dredge Washington, which sank owing to an injury, a week ago, is progressing. It was at first feared that filling the tideflats would be de-layed at least a month, but it now seems it will require not so much time to raise the dredge and repair the damage. It is estimated \$15,000 damage was done by the accident.

Quack and Humbug Exposed

I am a registered and licensed physician, confining my special prac-tice to the ailments of MEN. I have more money invested in my establishment than all other Portland specialists combined. I will give \$500 any charity if I cannot prove this.

doctor was that promised him a cure, I knew that there would be a great upheaval among the advertising specialists. In less than six months I have aiready driven out some of the medical companies. Others are struggling against hope by offering the cheapest of fees as a hait to trap the unwary. I have aiready accomplished a great deal, and while I welcome honest competition. I want to say some more words of warning to those who are still in doubt as to which doctor to choose. I warn you above all things—IN-VESTIGATE. Never accept the promises or advice of the first doctor you go to. He may be all that is right and honest, but get other opinion also. My advice is FREE, and I can give you some valuable information about medical quackery and humbug. Your first consideration should be to know the doctor whom you con-sult. Take along his announce-ments and compare his picture with the man you meet in the office. IN-SIST upon seeing his license to prac-tice medicine in Oregon, and his divlome. Ask him his name and BE SURE IT IS THE DOCTOR YOU

CAME TO CONSULT. If he is not in, make another call when he IS in. When you come to my office you see Dr. A. G. SMITH, and I will show you my credentials and identification before you ask for them.

The difference between the quack and the doctor that does not advertise, does not depend solely upon the advertising. It is just as legitimate and honest for a doctor to ansounce his specialty and explain his methods in the newspapers as it is for a bank to publish its financial standing, or a minister to announce his Sunday services. Only a few days ago the non-advertising doctors were told by one of their leaders that the reason they were not effecting the cures expected of them was because they did not give their patients the care and attention necessary, and that there were twice as many doctors in Portland as there should be.

PAMOUS GERMAN REMEDY FOR

use the well known German doo or's wonderful new discovery in case of Specific Blood Poison. It cures and is the greatest marvel of medical science. This new remedy has been successfully used in thousands of cases. Let me explain it to you.

WEAKHESS

I have long been a close student of the condition known as weakness in men. Sufferers from this trouble are nearly always told by their family physician that there is no help; that it means wornout nature, and that some powerful stimulant for temporary effect is the only help. I temporary effect is the only help. I go deeper into the cause of the trouble and usually find a deranged or damaged local condition responsible. As long as a man lives he should be as strong in every vital function as he is physically constituted. I have a scientific, powerful and permanent treatment for weakness, which is as natural and direct as it is efficient.

During our many years of active practice in MEN'S DISEASES in Portland some unscrupulous so-called specialists have invaded the city and tried to steal our methods and advertisements, but not being able to steal our brains they were not able to succeed in their dishonest ways, so do not be misled by them, but come to us, the oldest established SPE-CIALISTS for MEN in the city, who guarantee cures or make no charge for their services.

Remember, we have been here for years, are permanently located, incorporated and licensed under the laws of Oregon to conduct and operate a Medical institute, Sanitarium and Hospital for the treatment of men's diseases. You take no risk when you treat with us. We are her to stay, and for all time and you will always know where to find us. We are not here today and gone tomorrow. Our staff of physicians are graduates from the leading colleges in the United States and have been in practice from 15 to 26 years, and are duly qualified and licensed to practice medicine and surgery in this and several states. Investigate o our records and standing and compare them with the other so-called specialists who have only been in our city a few weeks or months, and who have copied our announcements, which the newspaper records will show. Beware—Investigate! Men, if afflicted or in trouble, call and have a friendly talk; it will cost you nothing. We will advise you candidly, honestly and conscientiously.

The Fake Specialist Run to Cover

When I began my advertising campaign against the quacks and take doctors, some of the "specialists" seemed to take offense at my statements. No doubt "the shoe pinches," or they would not try "to cover up" by boidty announcing their methods of doing business and trying to convince the unsuspecting public that they are the only legitimate specialists in Partland. I repeat, I am the only EMGITIMATE EXPENT specialist in Portland, who owns his office and equipment, advertises his full and correct name, publishes his recent and true photograph and personally conducts his office. I do not hide under a false name nor publish a false picture, nor make a false statement of any kind.

My services should not be compared with the quacks. My services should not be compared with the quarks and fake doctors who advertise one thing and do another

My services should not be compared with the quarks and fake doctors who advertise one thing and do another—who promise impossible 5 day curss—who are often compelled to pay some unfortunate doctor a few dollars for the use of his name which is put furth in braken let. C. E. Beismen, E. 5 ters as THE specialist of the office—who boddly advertises to "guarantee curse or refund every dollar paid," and many other schemes to get patients into his office and who, after getting his patient's money and doeing and drugging his system for weeks and months, turns him out minus his money ruined in health and not a dollar refunded. These "specialists" degend solely upon false promises to get their business and hire inexperienced doctors to consult, examine and treat their patients. In offering my services to the afflicted—the result of it years' experience in aliments of men—I am giving you the BEST that can be had anywhere. My reputation for the past it years can leave no doubt as to my ability, honesty and integrity and should be sufficient to convince the most skeptical that I am the POREMOST and LEADING Specialist in Portland. I do not make false promises. I possess still and experience acquired in such a way that no other can share it and should not be classed with the specialist who attains the name specialist—and name only—after a few months' experience.

A thorough investigation should be made by every alling man as to the specialist he consults. Duty and destiny to self and those who depend upon you demand the best medical attention. I have the ability and can give you this service. I have always charged a very reasonable fee, so that my services may be obtained by any man who sincerely desired to be cured. I make no misleading statements or unbusinessiike propositions; neither do I desire to be particularly independent. I would like to have you for a patient if you will come to me on a strictly professional basis, accepting inducements that I offer, which are my ability, it years' successful experience, time-saving treatment and cure of certain diseases.

VARICOSE VEINS

I daily demonstrate that Varicose Veins can be cured in nearly all cases by one treatment in such a satisfactory way that the vital parts are preserved and strengthened, pain ceases, swelling subsides, a healthy circulation is rapidly recatablished, instead of the degressing conditions. I guarantee you a cure to stay cured or refund the money. HYDROCELE

Tapping a hydrocele affords but temporary relief and the swelling soon returns, larger than before. Injecting carbolic acid, lodine and like preparations are vicious practices and rarely result in permanent cure. My method is direct, positive, painless, does not detain you from your occupation or home, and I give you my word and absolute guarantee that it effects a radical and permanent cure.

MIDNEY, BLADDER AND PROSTA-TIC DISEASES

With these diseases you may have more complications than are present-ed by any other diseased organ. By my searching illumination of the bladder I determine accurately the disease and by microscopical exam-ination and urinalysis I make dou-bly sure the condition of the kidneys, thus laying foundations for sci-entific treatment. SPECIFIC BLOOD POISON

Scientific treatment only should used in combating this loathsome sease. I cure Blood Poison by the new German Remedy which I intro-duce directly into the blood, purifypoison from the system. New blood thus formed supplies and rebuilds the tissues in such a way that the patient recovers his normal state of health, strength and soundness.

MY DIRECT TREATMENT FOR WEAKNESS

That disorder commonly known as weakness has for years and generations baffled the efforts of physicians, yet to this very day a majority of doctors, specialists not excepted, are attempting to overcome it by methods that have been in constant use and have always failed cepted, are attempting to overcome it by methods that have been in constant use and have always failed for half a century. They dose the system with powerful stimulants and tonica, calculated to restore nervous force or strength that is not and never has been lacking, with the result that the functions are temporarily excited to the positive detriment of the patient. Weakness is only a symptom resulting from many local conditions and is curable by local treatment only, without the giving of a single internal dose, which demonstrates the absolute accuracy of my understanding and treatment of this disorder. In years I have not met with a single failure and I have entire confidence in my ability to cure all cases that come to me for treatment. I am equally certain that no treatment other than that which I have perfected can completely and permanently restore strength and vigor.

NO MONEY REQUIRED TO COMMENCE TREATMENT. Many patients have no confidence in their doctors, because he demands pay before a cure has been effected and there are many who have been misinformed about their condition or through unsuccessful treatment have become skeptical and think there is

through unsuccessful treatment have become skeptical and think there is no cure for them. I want an oppor-tunity to treat such men. It makes no difference about the financial part as I accept pay for my serv-ices as benefits are derived; when I am satisfied the patient is liable. Health is capital at interest. I will prove my ability to cure before ask-ing pay for my services.
