Cures Coughs

After Ordinary Preparations Fail-Wonderful New Mixture Made at Home.

An investigating chemist of nareputation just recently discovered in a compound known to the medical world as essence mentho-laxene, a most wonderful virtue as a curative, laxative cough syrup and the best part of it is, it can be made at home about 8 times cheaper than one can buy labeled cough syrups. It immediately relieves the severest cases of asthma, bronchitis, coughs and chronic colds on the lungs and it effects a cure, too, because it has a laxative action when 8 to 10 doses are taken daily. In very short order it will loosen the tightest cough and one can feel it "taking hold" in its curative action. Obtain of the druggist, or have him order from wholesale firm 2% ounces essence mentlio-laxene. Empty it into a pint bottle. Make a syrup with a pint of sugar and a half pint of bolling water, stir and let cool. Then fill up the bottle with syrup, shake well and take a teaspoonful 8 to 10 times daily or as needed. Give children less ac-cording to age. It is very pleasant to take.
