

PICTURES PRESENT GORGEOUS PAGEANT

To see the exhibition of the Kinema-cope pictures, now at the Heilig theatre, is really to spend a couple of hours in London. The vivid and realistic are the scenes that one loses his consciousness of present surroundings and is transported to the scene of action.

The most gorgeous pageant, almost barbaric in its splendor, of ancient or modern history. Not only does the audience spend a couple of hours in London, but these two hours are monitored over the actual festivities in London, seen in 40 days or at least the most prominent ceremonies taking place in the 40 days.

The estimated cost of the coronation ceremonies of King George and Queen Mary is \$400,000, or \$2,500,000, and it is doubtful if any nation will ever permit an equal amount expended in festivities.

The pictures having been taken by royal command, for preservation in the historical archives in the tower of London, the cinematographers were able to obtain the best views of all of the principal events and the audience is permitted to see these festivities from a position that could not be obtained by the visitors to London upon this occasion, for any amount of money.

PRISONER FREED, THEN IS ARRESTED AGAIN

There is one kind of unwritten law that is not favored by Presiding Judge

of the circuit court. The judge made this plain this morning in passing upon the habeas corpus case brought by Attorney Eugene Brookings and John O. Collier, representing Leo Martin, who is wanted in Denver on a charge preferred by his former wife. "I know there is a common understanding among detectives throughout the country that they will help one another in holding men, but it is done on what can be called the 'unwritten law,'" said the court. "There is no law for such action and usually stands until some one attacks it. If you can show me any reasonable law by which I should hold this man for the Denver authorities, I will hold him. If you don't, I will allow the writ of habeas corpus. All you have here is that he is wanted in Denver. Nothing is said by what authority the warrant is issued."

BURTON L. FRENCH'S CONDITION IMPROVED

The condition of Representative Burton L. French, of Idaho, is very reassuring this morning and indications are very hopeful for his speedy recovery. The operation for appendicitis, which he underwent yesterday at St. Vincent's hospital, was most successful. The operation was performed by Dr. Robert C. Coffey.

Mrs. French, who was summoned from Moscow when Mr. French's condition became serious, is with her husband. Mrs. French is greatly pleased with Portland and is very grateful for the kindness and sympathy shown by Portland people.

J. J. HILL AND PARTY LEAVE FOR BEND, OR.

James J. Hill and his party of Great Northern railroad officials left Portland last night for Bend, after having spent one of the "empire builders' characteristic days here. He visited a fair, talked to the people there, looked over his terminal yards here and in Vancouver, talked with the newspaper men, met a number of Portland's prominent citizens at a luncheon, talked to them a while, rode about the city, noticing the changes since his last visit, and was apparently as fresh and in as high spirits when night came as when he first stepped from his car in the morning.

The Hill special, following the Bend celebration, will leave directly for St. Paul via the Oregon Trunk, North Bank and Great Northern, as both the Hills have pressing business engagements that require their presence there.

1 Killed, 4 Injured in Riot.

New Orleans, La., Oct. 5.—Four are seriously wounded and one is dying as the result of rioting today in the Harrison square at Algiers, La., according to reports received here. The strikebreakers are from McComb, who have already figured prominently in one fatal pitched battle, are alleged to have fired upon a policeman, which was the signal for immediate hostilities.

One strikebreaker was taken from the scene of conflict with what is believed to be a fatal wound.
