

LOVEGREN POND TO COVER 70 ACRES

Cherry Grove Permanent Plant Expected to Employ 300 Millmen.

(Special to The Journal.)
Forest Grove, Or., Oct. 6.—The Lovegren Lumber company, which recently completed its railroad into the large timber belt in the southwest section of this county, will build a dam across the Troutdale river at Cherry Grove, its new townsite, and the backwater will cover 70 acres. Into this great body of water will be dumped the logs which will be sawed into the finished product by the lumber company.
The Lovegren people will manufacture millions of feet. They now own many large tracts of timber lands and are constantly adding to their holdings. The temporary mill they are building will have a capacity of 15,000 feet per day, but the permanent mill, which will be erected as soon as the necessary machinery can be shipped from the east, will saw 15,000 feet per day, and the combined force of the Lovegren company at Cherry Grove will be about 300 men.

Home Head Crase Among Women.

(Special to The Journal.)
Forest Grove, Or., Oct. 6.—The making of rear heads is a fad among women of this city, and the craze, which struck the community some months ago, shows no signs of abatement. Black was the popular color for some time but experiments with different chemicals have resulted in a showing of red, green, blue and every possible combination of colors. One woman took a number of chains and necklaces to Portland, and sold them to a large department store, coming proudly home with \$10. This has spurred others to hasty efforts.

AUTO TRUCK KILLS MAN ON STREETS OF DALLES

(Special to The Journal.)
The Dalles, Or., Oct. 6.—The first fatal automobile accident in this city happened at 2 o'clock yesterday afternoon, when Herman Dierkes, residing at 1904 1/2 street, was run over and killed almost instantly.
Chester N. Sargent, coming in from a trip to the fair grounds with his auto truck, which he had fitted up for carrying passengers to and from the fair, rounded the corner at French & Co.'s bank, turning into Second street, when Mr. Dierkes attempted to cross from the Williams store to the north side of the street. There were a good many people on the street, and the car was almost on top of Mr. Dierkes before he saw him or before he was observed by the pedestrian, who when Sargent sounded his horn and turned the car to get past him, instead of going forward stepped back in front of the car and was knocked down, the car passing over his body. His chest was crushed almost flat, and his skull fractured by hitting the pavement and he died in a few minutes.
Mr. Dierkes was about 60 years of age, and leaves a widow and a son and daughter.

Stores Close for Dalles Day.

(Special to The Journal.)
The Dalles, Or., Oct. 6.—This being Dalles day at the district fair, all the stores closed at noon and remained closed until 5:30, everybody going to the fair grounds for the afternoon. The weather being ideal, brought many people from the country, and with the large number from town who took advantage of the fair holiday they made the largest attendance of any day of the fair.

SALEM-PORTLAND ROAD RECEIVES HARD SETBACK

(Special to The Journal.)
Salem, Or., Oct. 6.—Judge Bushey of Marion county declared today that any attempt to open the rock crusher to crush rock for the Portland-Salem highway

way at county expense would bring down the road on the heads of the commissioners. This statement followed the governor's ultimatum that only this week would be given the commissioners to decide whether they wanted county help to crush the rock.

SAFE OF DEAD TREASURER HAS TO BE FORCED OPEN

(Special to The Journal.)
Hillsboro, Or., Oct. 6.—The county court has appointed E. R. Happington of Forest Grove to fill the vacancy in the office of treasurer caused by the sudden death of W. M. Jackson. The new appointee is city treasurer and street commissioner of Forest Grove. He is a son of the late J. W. Happington, who was elected treasurer of Washington county in 1910, and served the unexpired term of his father's term after the sudden death of the latter. The safe in the office of the treasurer was drilled by an expert from Portland after attempts to discover a combination and open it had failed. The late treasurer had thrown on the combination upon leaving the office on the strand from which he was fated not to return.

STATE SCHOOLS TO HAVE SOME SONGS IN COMMON

(Special to The Journal.)
Salem, Or., Oct. 6.—In order that all school children of Oregon may know a few songs in common as chorus songs may be possible at school gatherings, Minnette E. Harlan, music instructor at the Oregon State normal, is preparing a list of state songs at the request of Superintendent L. R. Alderman. These songs will be used at institutes so the teachers may learn them. They will be recommended to all public schools.

Stomach Sufferers Squander Millions

In Search of Relief.

The world is full of disordered stomachs and 90 per cent of the money spent upon physicians and drugs goes in an attempt to cure the stomach. People are made to believe that in order to gain health they must doctor their stomachs and use cathartics. The doctor gets his fee for the stomach treatment and the druggist for the physic, until the savings of a lifetime are exhausted and yet no cure. Let's be reasonable.

The sick stomach is in every case the result of overeating, hurried mastication and improper choice of foods. The mucous lining all the way down the food tract loses its sensitiveness, and when food is forced down the muscles fail to respond. They do not churn the food as they should. The glands no longer give out gastric juice to dissolve the food and render it capable of assimilation. The man has become a dyspeptic.

There is one sure way and only one to bring positive relief. Put into that stomach of yours the very elements that it lacks to get that food into liquid form. It takes pepsin, diastase, golden seal and other ferments to accomplish this. The healthy stomach contains these elements. The dyspeptic stomach lacks part or all of them. Stuart's Dyspepsia Tablet is made up of just what the dyspeptic stomach lacks—Nature's digestives. Stuart's Dyspepsia Tablets are not a medicine, not a drug, not a cathartic. They do not cure anybody of anything but Dyspepsia and Indigestion and such ailments as arise from poorly digested food. While they digest the food the stomach recuperates. The mucous membrane is coming out of its stupor, the gastric juice is coming to the surface, the muscles are regaining their power. Every organ of the body takes on new life, the skin gains color, and the eyes are no longer tinged with yellow. You live.

Why doctor, and why drug yourself? Stuart's Dyspepsia Tablets will take care of your food while Nature cures you. Try a box at your druggist, 50 cents. Or, if you prefer a free trial package before buying, send your name and address today. F. A. Stuart Co., 150 Stuart building, Marshall, Mich.

JOSEPHINE BEGINS ROADS CAMPAIGN

Catching Jackson County Idea; \$500,000 Bond Issue Is Proposed.

(Special to The Journal.)
Grande Park, Or., Oct. 6.—The campaign for good roads in Josephine county is on. A mass meeting at the opera house will be held tonight under the auspices of the Commercial club and will be addressed by John T. Flynn of San Francisco, engineer for the California Harbor league, and others. The meeting tonight is the outgrowth of a special meeting at the Commercial club rooms Wednesday evening. The plan favored is the issuance of \$500,000 of bonds to be devoted to the use of roads in the county, including a road to the Del Norte county line, from which Del Norte county will continue it to the coast. The neighboring county of Jackson issued bonds of \$1,000,000 for roads last Saturday.

Ohio Association of Charities.

TRADE EXPANSION No. 2

In the City of Portland

To Every Man, Woman and Child in Portland:

In olden times the churches of the world depended for the musical part of their services upon the voices of the congregation.

In the early part of the 19th century musical instruments began to appear at the principal church services; the particular kind of instrument depending largely upon the wealth of the congregation—the highest ambition of any being the ownership and proper use of the now out-of-date cottage organ. Later on, pianos began to appear in some of the wealthier congregations.

The growth of communities and the consequent enlargement of membership in the various churches made necessary the erection of larger and grander edifices. This brought with it the necessity for new and larger equipment for appropriate music. Today, no metropolitan church is considered complete without being equipped with a pipe organ. And the desire to possess one extends to the smallest of provincial congregations.

"Trade Expansion for the City of Portland, No. 3" tomorrow, in this paper, will discuss the question in detail. Reference will be made to it here, merely to say that the principal interference in the growth of this sentiment in favor of pipe organs for churches has been more the lack of funds than the sentiment against it among the members of religious bodies. Until recent years, the price necessarily asked by manufacturers made such a luxury almost prohibitive. "Just an advertising scheme to sell a pipe organ" the cynic will doubtless say at this point. Such a conclusion is entirely erroneous. You may participate in this project without it costing you a single cent. You are not going to be offered "bargains," or "something for almost nothing," but you are going to be instrumental in making "an extraordinary donation."

In tomorrow's installment it will doubtless be possible to demonstrate exactly what this unusual opportunity really is and that it is exactly what it really appears to be—proof of which will appear in the names of the men who are back of it. It will be recognized as something entirely unprecedented—something that so far as is known, has never been done before. It is the result of the collaboration and co-operation of 30 of Portland's leading merchants in an endeavor to promote legitimate commercial expansion.

Portland, Or., October 6, 1911.

Eyeckel & Son Adv. Agency
